Propane is a very efficient fuel for irrigation

engines. According to results from the 2014

Propane Farm Incentive Program, producers

reported that their new propane-powered irrigation

engines performed 28 percent more efficiently and

reduced energy costs per hour by 50 percent compared to previously owned diesel units.

Ford 6 Cylinder 300 Propane Power Unit

The bed where the propane sets is rotten and needs replaced. The lockout hubs are plastic and need replaced, They do still work. Now that you read the bad here is some good. The 4x4 works fine. The engine runs good. It is a 300 6 cylinder. It will need a new intake and exhaust manifold gasket. The Truck runs on Propane only and does not idle well.

In Use Emissions and Performance Testing of Propane Fueled ...

Model LPM4. Millennium LP Propane Conversion Kit for 3 to 6 Cylinder Fuel Injected Engines up to 3.5 Liters. This kit is universal and works on 3 or 6 cylinder gasoline fuel injected engines up to 3.5 liters, non turbo,

non GDI.

The 6.2 does not have water jackets between each cylinder, so it runs too hot when users run on propane. Even though both the the 6.2 and the newer 6.6 have siamese cylinders, there are small ...

Propane - Wikipedia

You actually get better MPG on propane now than the lower compression ratio engines of 6 years ago, even though LPG propane has a lower BTU amount of energy per gallon, compared to gasoline ...

EnviroGard Propane Engines – LEHR

Any suggestions on the correct components to build a 300 horse 300-6 to run on propane?I like the idea of 352v8 pistons to get the compression up,and over size valves with the porting.What head would be best,I have access to early 240 to 300 carb and late injected?What

about a cam to match?For an intake I've been thinking about an Offy-C or an Clifford 4 barrel.I am useing an OHG propane system ...
6 Cylinder Propane Engine BigIron Auctions
Propane is also used in some locomotive diesel engines to improve combustion. Propane cylinders have also been used as improvised explosive devices in attacks against schools such as the Columbine High School massacre, as well as the 2012 Brindisi school bombing, the Discovery Communications headquarters hostage crisis and in car bombs.
