But one day, their reign comes to an end when one woman commits an unforgivable sin. In anger, the men seize power from the women in a bloody coup and for the first time in Meramara, a king rules. He is a tyrant whose claim to the throne is being threatened by an ancient prophecy â??a prophecy about a slave girl possessed with a superhuman power who will wrench the throne from his grasp! He is unaware of the prophecy and of the fact that the girl, Zaare is living in Meramara. Badri is used to getting any woman he desires and he wants this beautiful slave girl. But when he unexpectedly loses her to someone else he discovers, to his chagrin that he cannot easily forget the moments they spent in each other â??s arms. As rebellion stirs and war threatens, Badri has a decision to make â??would he be a champion for his king or would he risk his life and position to enthrone a woman and bring about the return of the matriarchy? And in one cataclysmic day, the Half-Beings strike and Meramara is tethering on the brink of total annihilation. Zaare has to prove that she is the one who will fulfil the prophecy and dethrone the king. She is searching for the only weapon that can kill these foul beasts â??the axe of Shangan. In "The Twelve," we explore the twelve zodiac signs as they relate to the Bible's twelve tribes of Israel and, in so doing, uncover messages defining the true purpose of the Zodiac. More than 6,000 stars are visible from any given point on planet earth, and we have learned that these stars serve many purposes. Humans used them to navigate their lands and seas and to discover places unknown. Ancient civilizations used the stars to mark the times and seasons. From a biblical perspective, the stars are said to provide humanity with "signs and wonders." The constellations are widely used in the secular world as an attempt to predict the future or answer some specific question about a subject. But this belief misses the transcendent truth of the stars and their connection to the Creator. We will discover that these heavenly creations are actually designed to serve a greater purpose to lead us to life-altering truths about who we are and how we can live lives of purpose and power.

Naturally occurring DMT may produce prophecy-like states of consciousness and thus represent a bridge between biology and religious experience • Reveals the striking similarities between the visions of the Hebrew prophets and the DMT state described by Strassman's research volunteers • Explains how prophetic and psychedelic states may share biological mechanisms • Presents a new top-down "theoneurological" model of spiritual experience After completing his groundbreaking research chronicled in DMT: The Spirit Molecule, Rick Strassman was left with one fundamental question: What does it mean that DMT, a simple chemical naturally found in all of our bodies, instantaneously opens us to an interactive spirit world that feels more real than our own world? When his decades of clinical psychiatric research and Buddhist practice were unable to provide answers to this question, Strassman began searching for a more resonant spiritual model. He found that the visions of the Hebrew prophets--such as Ezekiel, Moses, Adam, and Daniel--were strikingly similar to those of the volunteers in his DMT studies. Carefully examining the concept of prophecy in the Hebrew Bible, he characterizes a "prophetic state of consciousness" and explains how it may share biological and metaphysical mechanisms with the DMT effect. Examining medieval commentaries on the Hebrew Bible, Strassman reveals how Jewish metaphysics provides a top-down model for both the prophetic and DMT states, a model he calls "theoneurology." Theoneurology bridges biology and spirituality by proposing that the Divine communicates with us using the brain, and DMT--whether naturally produced or ingested--is a critical factor in such visionary experience. This model provides a counterpoint to "neurotheology," which proposes that altered brain function simply generates the impression of a Divine-human encounter. Theoneurology addresses issues critical to the full flowering of the psychedelic drug experience. Perhaps even more important, it points the way to a renewal of classical prophetic consciousness, the soul of Hebrew Bible prophecy, as well as unexpected directions for the evolution of contemporary spiritual practice.

Multifaceted insights into female life in prophetic contexts Both prophets and prophetesses shared God's divine will with the people of Israel, yet the voices of these women were often forgotten due to later prohibitions against women teaching in public. Essays examine how women appear in the iconography of the ancient world, the historical background of the phenomenon of prophecy, political and religious resistance by women in the biblical text, and gender symbolism and constructions in prophetic material as well as the metaphorical discourse of God. The question of selfhood in Renaissance texts constitutes a scholarly and critical debate of almost unmanageable proportions. The author of this work begins by questioning the strategies with which male writers depict powerful women. Although Spenser's Britomart, Shakespeare's Cleopatra, and Milton's Eve figure selfhood very differently and to very different ends, they do have two significant elements in common: mirrors and transformations that diminish the power of the female self.
