The Social Organization of Sexuality reports the complete results of the nation's most comprehensive representative survey of sexual practices in the general adult population of the United States. This highly detailed portrait of sex in America and its social context and implications has established a new and original scientific orientation to the study of sexual

behavior. "The most comprehensive U.S. sex survey ever." —USA Today "The findings from this survey, the first in decades to provide detailed insights about the sexual behavior of a representative sample of Americans, will have a profound impact on how policy makers tackle a number of pressing health problems." —Alison Bass, The Boston Globe "A fat, sophisticated, and sperm-freezingly serious volume. . . . This book is not in the business of giving us a good time. It is in the business of asking three thousand four hundred and thirty-two other people whether they had a good time, and exactly what they did to make it so good." —Anthony Lane, The New Yorker New York Times Book Review Notable Book of the Year

Guide to Effective Grant Writing: How to Write a Successful NIH Grant is written to help the 100,000+ post-graduate students and professionals who need to write effective proposals for grants. There is little or no formal teaching about the process of writing grants for NIH, and many grant applications are rejected due to poor writing and weak formulation of ideas. Procuring grant funding is the central key to survival for any academic researcher in the biological sciences; thus, being able to write a proposal that effectively illustrates one's ideas is essential. Covering all aspects of the proposal process, from the most basic questions about form and style to the task of seeking funding, this volume offers clear advice backed up with

excellent examples. Included are a number of specimen proposals to help shed light on the important issues surrounding the writing of proposals. The Guide is a clear, straight-forward, and reader-friendly tool. Guide to Effective Grant Writing: How to Write a Successful NIH Grant Writing is based on Dr. Yang's extensive experience serving on NIH grant review panels; it covers the common mistakes and problems he routinely witnesses while reviewing grants.

Linda Hutcheon, in this original study, examines the modes, forms and techniques of

narcissistic fiction, that is, fiction which includes within itself some sort of commentary on its own narrative and/or linguistic nature. Her analysis is further extended to discuss the implications of such a development for both the theory of the novel and reading theory. Having placed this phenomenon in its historical context Linda Hutcheon uses the insights of various reader-response theories to explore the "paradox" created by metafiction: the reader is, at the same time, co-creator of the self-reflexive text and distanced from it because of its very self-reflexiveness. She illustrates her analysis through the works of novelists such as Fowles, Barth, Nabokov, Calvino, Borges, Carpentier, and Aquin. For the paperback edition of this important book a preface has been added which examines developments since first publication. Narcissistic Narrative was selected by

Choice as one of the outstanding academic books for 1981-1982.

The Importance of Being

Earnest is a play by Oscar Wilde. it is a farcical comedy in which the protagonists maintain fictitious personae in order to escape burdensome social obligations. Working within the social conventions of late Victorian London, the play's major themes are the triviality with which it treats institutions as serious as marriage, and the resulting satire of Victorian ways. Contemporary reviews all praised the play's humor, though some were cautious about its explicit lack of social messages, while others foresaw the modern consensus that it was the culmination of Wilde's artistic career so far. Its high farce and witty dialogue have helped make The Importance of Being Earnest Wilde's most enduringly popular play. The successful opening night marked the

climax of Wilde's career but also heralded his downfall. The Marquess of Queensberry, whose son Lord Alfred Douglas was Wilde's lover, planned to present the writer with a bouquet of rotten vegetables and disrupt the show. Wilde was tipped off and Queensberry was refused admission. Soon afterwards their feud came to a climax in court, where Wilde's homosexual double life was revealed to the Victorian public and he was eventually sentenced to imprisonment. His notoriety caused the play, despite its early success, to be closed after 86 performances. After his release, he published the play from exile in Paris, but he wrote no further comic or dramatic work.

In response to a Congressional

mandate, the National Research Council conducted a review of the SBIR program at the five federal agencies with SBIR programs with budgets in excess of \$100 million (DOD, NIH, NASA, DOE, and NSF). The project was designed to answer questions of program operation and effectiveness, including the quality of the research projects being conducted under the SBIR program, the commercialization of the research, and the program's contribution to accomplishing agency missions. This report describes the proposed methodology for the project, identifying how the following tasks will be carried out: 1) collecting and analyzing agency databases and studies; 2) surveying firms and agencies; 3) conducting case studies organized around a common template; and 4) reviewing and analyzing survey and case study results and program accomplishments. Given the

heterogeneity of goals and procedures across the five agencies involved, a broad spectrum of evaluative approaches is recommended.
