The Zambian Government, in collaboration with FAO, undertook the elaboration of this curriculum (part I) within the framework of the Zambia Aquaculture Enterprise Development Project (UTF/ZAM/077/ZAM). Furthermore, FAO complemented the practicality of this curriculum by drafting and refining the Training Manual (part II), which has been tested in many African countries and with different stakeholders. To ensure complementarity of opportunities and clear progression of education and capacity development, each actor involved in the sector should strive to network with teaching institutions, researchers and producers to guarantee that the curriculum remains relevant and stays abreast of developments for aquaculture practitioners; this will include developing national, regional and international linkages with institutions involved in aspects of training for aquaculture. Therefore, this curriculum will function as a living document.
