Push the homebar to the right to release the tab on the right side of the LCD screen. DO NOT completely remove the homebar, as it is still connected by ribbon cables. Slowly begin to lift the LCD screen off the PSP from the top edge. Again, the LCD screen is attached by ribbon cables, so do not remove it completely.

Remove two 4.5 mm Phillips screws from the left-hand side of the PSP. Slide off the left trigger along with the plastic bracket underneath. Carefully pry off left trigger button using opening tools. The button is adhered to the body.
