Express, and a new MindTap. *AP® Psychology Crash Course, 2nd Ed., Book + Online* Psychology Press Reads like a good book... Written in the style of their award-winning nonfiction books, the Dans capture students' attention in a way few textbooks can claim. Each chapter, each page is written with narrative hooks that retain student interest by engaging their curiosity,

compassion, and interest in the world around them. Students who read *Introducing Psychology* will quickly learn to critically examine the world around them and apply the lessons of psychology to their own lives. ...Teaches like a great textbook. The Dans focus the essential topics within psychology without diluting the explanation or removing examples intended to illustrate concepts. By refining their

coverage to the most clear, thought-provoking, and illustrative examples, the Dans manage to accomplish two difficult goals: making thoughtful content choices covering the various fields of psychology, and doing so in a manner that retains clarity and emphasizes student engagement.

East/North Africa SAGE Advertising is a ubiquitous and powerful force, seducing us into buying wanted and sometimes unwanted products and services, donating to charitable causes, voting for political candidates, and changing our health-related lifestyles for better or worse. The impact of advertising is often subtle and implicit, but sometimes blatant and impossible to overlook. This revised and fully updated new

edition of The Psychology of Advertising offers a comprehensive and state-of-the-art overview of the psychological findings on the impact of advertising, and discusses the research in the context of recent developments in the fields of social and consumer psychology. Key questions covered in the volume include: What impact does advertising have on consumer behavior? What causes this impact? What are the psychological processes

---

responsible for the effectiveness of advertising? How do consumers make sense of advertising messages? Which messages "get across" successfully and when, and why? How do new online and digital technologies affect consumer judgement and choice? Engagingly written, and including a comprehensive glossary of frequently used concepts, *The Psychology of Advertising* is a unique and invaluable resource for advanced

undergraduate and graduate students, and for researchers and lecturers in social psychology, marketing, and communications. It is also a valuable guide for professionals working in advertising, public health, public services and political communication.

More than any other introductory psychology textbook, the Hockenburys' brief book is the one in which students see themselves — and the world they live in.

The new edition builds on that distinction, presenting the discipline with a unique understanding of today's students in all their diversity, emphasizing the field's immediate

impact on their lives. Without sacrificing science, Don and Sandy Hockenbury draw on personal experiences and anecdotes to illustrate essential concepts and important research directions.
