"This study considers the way in which a poetic convention, the beloved to whom Renaissance amatory poetry was addressed, becomes influential political rhetoric, an instrument that both men and women used to shape and justify their claims to power. The author argues that Petrarchan poetic conventions were part of a social discourse

that signaled anxiety concerning the rising place of women as intellectual interlocutors, public figures, and patrons of the arts."--
The Village Effect Penguin
This fifth edition of International Law: A South African Perspective is now titled Dugard's International Law: A South African Perspective, in recognition of the fact that this work is a continuation of the earlier editions written by John Dugard. The substance of the work has undergone major changes to take account of new developments both on the international legal scene and in South Africa. Dugard's International Law: A South African Perspective presents a South African perspective of international law. The basic principles of international law are described and examined with reference to the principal sources of international law. This examination, however, takes place within the context of South African law. South

African state practice, judicial decisions and legislation on international law receive equal treatment with international law as it is practised and taught abroad. The present work is designed to assist judicial officers and practitioners, educate students, and guide diplomats in the intricacies of international law both at home in South Africa and abroad.

The Athenaeum University of Toronto Press

“Creativity and innovation are to events, what the heart and soul are to the living.”

The book aims at encouraging readers to capture the traits and develop skills for enhancing their creative and innovative capabilities, cultivating the culture of creativity and innovation. Creativity is inventiveness with new ideas; critical thinking is generating and selecting ideas; and innovation turns

creativity into products, processes and services. Creativity + Critical thinking + Innovation = Path of Desired Change The primary difference between creativity and innovation is that the former refers to conceiving a new idea while the latter involves converting that idea into a marketable commodity. Creativity and innovation are an attempt to gain a competitive advantage. Organizations are now focusing on enhancing their employees' creativity and not merely developing their technical competencies and skills. Undoubtedly, creativity is the most important human resource of all without which there would be no progress, and we would be forever repeating the same patterns. Innovation is at the heart of all successful companies.

Strategic Marketing

Psychology Press Contemporary Public Administration, is packed both with classic and cutting-edge coverage. Designed as a concrete, one-stop guide to the issues, perspectives, and vocabulary of modern public administration, this reader captures the field's hot topics--public choice, TQM, and deregulation--while delivering the classic material essential for student mastery of the special language, concepts, analysis, history, and practice of public administration.

Creativity & Innovation Juta and Company Ltd The future of disability in America will depend on how well the U.S. prepares for and manages the demographic, fiscal, and technological developments that will unfold during the

next two to three decades. Building upon two prior studies from the Institute of Medicine (the 1991 Institute of Medicine's report *Disability in America* and the 1997 report *Enabling America*), *The Future of Disability in America* examines both progress and concerns about continuing barriers that limit the independence, productivity, and participation in community life of people with disabilities. This book offers a comprehensive look at a wide range of issues, including the prevalence of disability across the lifespan; disability trends the role of assistive technology; barriers posed by health care and other facilities with inaccessible buildings, equipment, and information formats; the needs of young people moving from pediatric to adult health care and of adults experiencing premature aging and secondary health problems; selected issues in health care financing (e.g., risk adjusting payments to health plans, coverage of assistive technology); and the organizing and financing of disability-related research. *The Future of Disability in America* is an assessment of both principles and scientific evidence for disability policies and services. This book's recommendations propose steps to eliminate barriers and strengthen the evidence base for future public and private actions to reduce the impact of disability on individuals, families, and society.

Foundations of Public Administration
Hong Kong University Press
By bringing together influential critics of neo-Aristotelian virtue ethics and some of the strongest defenders of

an Aristotelian approach, this collection provides a fresh assessment of the strengths and weaknesses of Aristotelian virtue ethics and its contemporary interpretations.

Contributors critically discuss and re-assess the neo-Aristotelian paradigm which has been predominant in the philosophical discourse on virtue for the past 30 years.

Contemporary Public Administration
Harvard University Press

Corporate citizenship is a prominent international issue as contemporary corporations are no longer expected to perform financially, but are also expected to have an ethical relationship of responsibility between the

corporate itself and the society in which it operates and performs its business activities. Provides an up-to-date theoretical content pertaining to corporate citizenship, providing local and global examples and case studies.

A Journal of Literature, Science, the Fine Arts, Music, and the Drama
ABC-CLIO

Joel Kupperman provides an engaging introduction to theories of the good life by exploring the strengths and weakness of six simple statements of what a good life should be. Drawing on classic Chinese, Indian, Greek and Roman sources, Kupperman considers the various ways in which one might think about the values that are worth aiming for, and shows that no simple account can adequately express all

that a good life can be.

In her surprising,
entertaining and
persuasive new book,
award-winning author
and psychologist Susan
Pinker shows how face-
to-face contact is
crucial for learning,
happiness, resilience
and longevity. From
birth to death, human
beings are hard-wired
to connect to other
human beings. Face-to-
face contact matters:
tight bonds of
friendship and love

heal us, help children learn, extend our lives and make us happy. Looser in-person bonds matter, too, combining with our close relationships to form a personal "village" around us, one that exerts unique effects. And not just any social networks will do: we need the real, face-to-face, in-the-flesh encounters that tie human families, groups of friends and communities together. Marrying the findings of the new field of social neuroscience together with gripping human stories, Susan Pinker explores the impact of face-to-face contact from cradle to grave, from city to Sardinian mountain

village, from classroom to workplace, from love to marriage to divorce. Her results are enlightening and enlivening, and they challenge our assumptions. Most of us have left the literal village behind, and don't want to give up our new technologies to go back there. But, as Pinker writes so compellingly, we need close social bonds and uninterrupted face-time with our friends and families in order to thrive--even to survive. Creating our own "village effect" can make us happier. It can also save our lives. A South African Perspective Brooks/Cole Publishing Company This edited book brings

together an international cast of contributors to examine how academic literacy is learned and mastered in different tertiary education settings around the world. Bringing to the fore the value of qualitative enquiry through ethnographic methods, the authors illustrate in-depth descriptions of genre knowledge and academic literacy development in first and second language writing. All of the data presented in the chapters are original, as well as innovative in the field in terms of content and scope, and thought-provoking regarding theoretical, methodological and educational approaches. The contributions are also representative of both novice and advanced academic writing experiences, providing further insights into different stages of academic literacy development throughout the career-span of a researcher. Set against the backdrop of internationalisation trends in Higher Education and the pressure on multilingual academics to publish their research outcomes in English, this volume will be of use to academics and practitioners interested in the fields of Languages for Academic Purposes, Applied Linguistics, Literacy Skills, Genre Analysis and Acquisition and Language Education. A Southern African Context 2e National Academies Press South Africa's recent Bill of Rights has already

started to exert an influence on the criminal justice system. This third edition of the text attempts to determine the extent these principles reflect or contradict the rights and freedoms embodied in South Africa's Constitution.

Six Myths about the Good Life Notion Press
Entrepreneurship - a South African perspective is a guide to becoming a successful entrepreneur. It describes and illustrates new venture creation within a South African context: the start-up process, the growth stages and the challenges in the maturity phase of the business.

Global Age-friendly Cities
Van Schaik Publishers
"Given the common acknowledgement that strategy implementation is the greatest challenge to managers in the 21st

century and the greatest reason for strategy failure we decided to focus on strategy implementation. Rather than promoting the unrealistic idea of strategy as a purely rational and deliberate outcome, this book acknowledges and explores the idea that strategy is often emergent, messy and experimental and features a number of new chapters, focusing on strategy implementation and change management, resource allocation and responsible leadership. It also includes a more detailed coverage of managing strategic risk."--Publisher's description.

The Athenaeum Hackett Publishing

The guide is aimed primarily at urban planners, but older citizens can use it to monitor progress towards more age-friendly cities. At its

heart is a checklist of age-people grow older; friendly features. For friendly, personalized example, an age-friendly service and information city has sufficient public instead of automated benches that are well- answering services; easy-situated, well-maintained to-read written and safe, as well as information in plain sufficient public toilets language; public and that are clean, secure, commercial services and accessible by people with stores in neighbourhoods disabilities and well- close to where people indicated. Other key live, rather than features of an age- concentrated outside the friendly city include: well-city; and a civic culture maintained and well-lit that respects and sidewalks; public includes older persons. buildings that are fully Dugard's International accessible to people with Law Oxford University disabilities; city bus Press drivers who wait until After describing the older people are seated functions of the PC and before starting off and the role of computers priority seating on buses; in local and global enough reserved parking networks, the authors spots for people with explain the disabilities; housing fundamentals of data integrated in the management, as well community that as the support of firms' accommodates changing functions and needs and abilities as

processes through information processing. The concepts utilized are deployed in a multitude of modern and integrated application systems in manufacturing and service industries. These application examples make up the core of the book. Many application examples illustrate the methodologies addressed.

Teaching Children about Health Oxford University Press, USA

Buckland offers an examination of information systems that is comparative rather than narrowly technical in approach. Using explicitly defined terms, he interprets the nature of retrieval-based information systems such as archives, libraries, databases, and

museums, and their relationships to their social context. Since the primary focus of the work is on unusual examples of information systems, the discussion yields interesting and thoughtful conclusions on the nature of information systems in general and constructive consideration of existing problems in this rapidly expanding field.

NAMED A BEST BOOK OF THE YEAR BY BOOKPAGE AND LIBRARY JOURNAL

The Crimson Petal and the White meets Fight Club: A page-turning novel set in the world of female pugilists and their patrons in late eighteenth-century England. Moving from a filthy brothel to a fine

manor house, from the world of street fighters to the world of champions, *The Fair Fight* is a vivid, propulsive historical novel announcing the arrival of a dynamic new talent. Born in a brothel, Ruth doesn't expect much for herself beyond abuse. While her sister's beauty affords a certain degree of comfort, Ruth's harsh looks set her on a path of drudgery. That is until she meets pugilist patron George Dryer and discovers her true calling—fighting bare knuckles in the prize rings of Bristol. Manor-born Charlotte has a different cross to bear. Scarred by smallpox, stifled by her social and romantic options, and trapped in twisted power games with her wastrel brother, she is desperate for an escape. After a disastrous, life-changing fight sidelines Ruth, the two women meet, and it alters the perspectives of both of them. When Charlotte presents Ruth with an extraordinary proposition, Ruth pushes dainty Charlotte to enter the ring herself and learn the power of her own strength. A gripping, page-turning story about people struggling to transcend the circumstances into which they were born and fighting for their own places in society, *The Fair Fight* is a raucous, intoxicating

tale of courage,
reinvention, and
fighting one ' s way to
the top.
