Lecture

Public health refers to the art and science of disease prevention, prolonging of life and general promotion of health through informed choices and organized efforts of the society, organizations, private and public, individuals and communities (Green & Ottoson, 1999). Public health is focused on the national, state and county levels.

Public Health / term papers writer / Term Papers Writer

Public Health Core Function Principally Addressed In the article, Public Health Law in a New Century, Lawrence Gostin mainly addressed the importance of policy development by the government in public health. The government is the single most important force shaping our healthcare system (The Role of State and Local Government in

Health, 1983).
