This practical and stimulating book introduces and showcases a wide range of motoring art styles. Recognising the importance of drawing and research, it explains the key components of a successful painting, looking particularly at light, perspective, drawing ellipses and the vehicle itself. Including over 150 finished paintings with full descriptions of how they were conceived and carried out, this beautiful book is sure to inspire both artist and buyers alike, and gives a unique insight into the work of a leading motoring artist. Gives an introduction to a variety of methods, materials and techniques and instruction on understanding and drawing the structure, mechanics and movement of the car. Discusses the importance of light in determining the overall feel and atmosphere of the image, and offers ideas for composition with figures, backgrounds and weather conditions to set the scene. A wide range of examples illustrate atmosphere, emotion, composition and action. This book will inspire motoring artists and buyers alike, and is beautifully illustrated with 169 colour photographs.

For years, Bill Piggott's books Original Triumph TR2/3/3A and Original Triumph TR4/4A/5/6 have been the ultimate source of information for all things TR. Here they are combined in one volume incorporating revisions and amendments throughout. The book provides a comprehensive guide to original factory specifications, equipment, colour schemes and options for all models from TR2 to TR6, also revealing how the various models changed through the course of production. It shows exactly how a car would have looked on the day it left the factory, so that owners, restorers, potential buyers and enthusiasts can identify true original condition and specification. In addition to the standard TRs, the TR2 Francorchamps Coupe and Italia, and the hatchback GTR4 Dove, are featured. Combining a unique and unrivalled mass of information from the world's leading TR authority with a gallery of over 450 colour photographs showing outstanding examples of the cars in detail, this book is indispensable for TR fans.

For 30 years from 1927 until 1957 the real Mille Miglia was the "race of excellence". A unique event of over 1,600 kilometres across Italy, the stars of which were some of the world's greatest car manufacturers, among them Alfa Romeo, Mercedes-Benz, Maserati, Ferrari, Jaguar and Aston Martin. And their cars were driven, naturally, by some of the equally great champions of the time, like Tazio Nuvolari, Achille Varzi, through to Juan Manuel Fangio and Stirling Moss as well as Alberto Ascari, Clemente Biondetti, Piero Taruffi and many

others. Count Giannino Marzotto won the race twice in Ferraris in 1950 and 1953 and said the Mille Miglia was "a synthesis of dynamism, freedom, challenge, courage and calculation". The story, or better the stories, of that legendary race live again in this book, which tells the tales of the classic "Bresciana", first of all through hundreds of pictures, most of them never previously published. The text has been written by Leonardo Acerbi, who also wrote "Mille Miglia Story 1927-1957".

Over the last 50 years, literally millions of GM cars and trucks have been built with Turbo 400 automatic transmissions. While these transmissions are respected for their durability and versatility, there always comes a point where the old transmission shows signs of wear. At some point, even the best transmissions need to be rebuilt. Respected automotive technical author Cliff Ruggles takes readers through the complex rebuild procedure of GM's most popular rear-wheel drive automatic transmission in this great new book. Enthusiasts have embraced the reliable GM Turbo Hydra-Matic 400 three-speed automatics for years, and the popularity of these transmissions is not slowing down. With his proven style, Ruggles walks through the step-by-step rebuild and performance upgrade procedures in a series of full-color photos for each of these models. Time saving tips are part of every buildup. This is a welcome addition to your automotive library. Amateurs and professionals alike will appreciate the advice and guidance offered on every page. Even if you end up deciding to have a professional take care of your transmission repair and performance needs, this information is crucial to understanding how the power gets from the engine to the road.

The aeroscouts of the 1st Infantry Division had three words emblazoned on their unit patch: Low Level Hell. It was then and continues today as the perfect concise definition of what these intrepid aviators experienced as they ranged the skies of Vietnam from the Cambodian border to the Iron Triangle. The Outcasts, as they were known, flew low and slow, aerial eyes of the division in search of the enemy. Too often for longevity's sake they found the Viet Cong and the fight was on. These young pilots (19-22 years old) "invented" the book as they went along. Praise for Low Level Hell "An absolutely splendid and engrossing book. The most compelling part is the accounts of his many air-to-ground engagements. There were moments when I literally held my breath." —Dr. Charles H. Cureton, Chief Historian, U.S. Army Training and Doctrine (TRADOC) Command "Low Level Hell is the best 'bird's eye view' of the helicopter

war in Vietnam in print today. No volume better describes the feelings from the cockpit. Mills has captured the realities of a select group of aviators who shot craps with death on every mission. ” —R.S.

The pedigree of Porsche as car designers was brilliantly affirmed by its creation of the 550 Spyder competition roadster. See the 550 Spyder in all its variations, from its origins in experimental Porsche models to the amazing and finely crafted one-off specials of Walter Glockler. With its superb four-cam flat-four engine, designed by Ernst Fuhrmann, the 550 became known as a giant-killer for its racing successes on tracks all over the world. As tough as it was handsome, the 550 was winning races years after its official launch at the Paris Salon in 1953. Exclusive photography of the 550 in the Ludvigsen Library shows its engineering, its evolution and in action in races in Europe and North America. This book is must reading for all Porsche enthusiasts.

About The Author: Karl Ludvigsen has a distinguished record of accomplishment at senior levels throughout the worldwide motor industry. This textbook introduces and explores the ideas, practices and philosophy of engaged Buddhism. The movement holds that suffering is not just caused by the cravings of the mind, but also by political and social factors; therefore, engaged Buddhists 'engage' with social issues to achieve liberation. Paul Fuller outlines the movement's origins and principles. He then offers a comprehensive analysis of the central themes and issues of engaged Buddhism, offering new insights into the formation of modern Buddhism. The range of issues covered includes politics, gender, environmentalism, identity, blasphemy and violence.

These are illustrated by case studies and examples from a range of locations where Buddhism is practised. Discussion points and suggested further reading are provided at the end of each chapter, which will further enrich undergraduates' grasp of the topic.

Born in 1900 to a soon-to-be-widowed postmaster's wife in a small French village, H é l è ne Delangle's background offered no suggestion of the extraordinary life she was to lead. The first step was to leave the country behind and head to the city -- in this case, a Paris in the grip of an intoxicating 1920s blend of creativity and debauchery. She became a dancer, and then a stripper. But the demi-monde of gauze veils and admirers was not enough. A visit to the Actors' Championships, a uniquely French meeting of the theatrical world with the race-track, opened her eyes to the glamorous combination of machines and speed. Quickly establishing herself as a racer of uncommon talent and audacity, the beautiful woman now known as Hell é Nice -- Hellish Nice to her British fans -- then caught the attention of none other than Ettore Bugatti, founder of the marque with which her name will always be associated. And yet, despite the fame and the fortune she amassed in an unprecedented career, she died penniless and alone, an old woman in a crumbling Nice flat surrounded only by memories. THE BUGATTI QUEEN is the story of a great pioneer of motor racing who happened to be a woman. Re-creating her rollercoaster career with great verve and panache, Miranda Seymour brilliantly shows us a life now forgotten -- and makes it unforgettable.

This book tells the remarkable history of an Alfa Romeo Monza and its characterful drivers and owners, some with life stories worthy of a movie script. Built in 1933, ' 221130 ' was raced that year by the Hon. Brian Lewis and won its debut at Brooklands and the arduous Mannin Moar race on the Isle of Man. The car continued to be raced until the war by John Cobb (1934) who later was a land speed record holder, Luis Fontes (1935) who was also an aeroplane racer, Anthony Powys-Lybbe (1936 – 37) and Fay Taylour (1938) who was interned during the Second World War for her Fascist links, at venues as diverse as Vila Real (Portugal) and Phoenix Park (Ireland). Post-war, a succession of notable owners included Peter Hampton, the Hon. Patrick Lindsay and Hubert Fabri, all passionate collectors, to arrive at its status today as one of the more important surviving Monzas, and a car with so much charisma and historic interest that it is a most worthy addition to the acclaimed ' Great Cars ' series

In his first ever kids ' book, Australian comedian Peter Helliar takes young readers on a hilarious time-travel adventure about mega mischief, missing limbs, and a grandad with a wicked secret... Twelve-year-old Frankie Fish hates visiting his grandparents. Grandad Fish is cranky, and yells a lot, and has a creepy hook for a hand – plus he NEVER lets Frankie go inside his shed. But after a teensy tiny prank goes wrong at school, Frankie is packed off to Old-People Jail for the whole holidays. What Frankie doesn ' t know is that Grandad has been building a home-made TIME MACHINE in the Forbidden Shed, and the old man has big plans to get his missing hand back. But when Grandad goes back in time, he changes history and accidentally wipes out Frankie ' s entire family – Nanna, Mum, Dad, even his annoying sister Saint Lou. Somehow, everyone is gone but Frankie and Grandad! And it ' s only a matter of time until Frankie disappears too... As the last Fish men standing, Frankie and Granddad must race back in time to undo this terrible mistake. But can they stand each other long enough to put the past back together again? And even if they manage the impossible – will Grandad's wonky time-machine ever get them home? Shortlisted for the 2018 ABIA Book of the Year for Younger Children

A lot of books on driving are written by professional racers who assume you too want to be a professional racer. Not this book. It's written by a hobbyist who suggests you keep your day job. Besides, it's much more fun being an enthusiastic amateur than a jaded professional (just ask someone in the sex industry). This book is designed to help the average driver make the transition from commuter to safe road racer in as few pages as possible. I wrote this book because it's what I would have wanted to read when I first became interested in track driving: succinct, nerdy, practical, and occasionally diverting. It is not intended as a definitive tome or a work of art. It's more like a sandwich: convenient and nourishing.

Every year on the first Sunday in November four hundred pre-1905 cars gather in Hyde Park for the annual Brighton Run, at one time unfortunately known as the Old Crocks Park. It is one of Britain's greatest annual motoring spectacles. Organised by the Royal Automobile Club with the co-operation of the Veteran Car Club, this event is reputedly watched by a million people over the 52 mile (84km) route. Its origins go back to 1896 when the law

changed and the light locomotive was at last allowed to travel up to 12 mph (19km/h) and did not have to be preceded by a man walking in front. To celebrate this change in the law the Motor Car Club ran 'The Emancipation Run' from London to Brighton. Revived in 1927, veteran cars have been making this annual pilgrimage ever since - war years and 1947 excepted.

The First Three Shelby Cobras, the third book in the acclaimed Exceptional Cars series, tells the story of three remarkable cars, the first AC Cobras created by the legendary Carroll Shelby in 1962 and now favorites of sports-car enthusiasts throughout the world. The prototype CSX2000 has been described as the "most important American car", although it was built on a British AC Ace chassis with an American Ford V8 engine. It was retained by the Shelby family until 2016, when it sold at auction for a record \$13.75 million. CSX2001 was the first production Cobra, and was delivered to American racing driver Ed Hugus. It was later sold to Frenchman Jean-Marie Vincent, who raced in the Tour de France and in numerous European hillclimbs. CSX2002 was the first Cobra to race and nearly won its inaugural outing at Riverside, driven by Bill Krause, until sidelined by a broken rear hub. It did take the first ever Cobra win, with Dave MacDonald at Tucson in March 1963. Its success led to a series of competition wins that made Shelby's Cobras famous and admired across the globe. All three cars are now the pride of car collections in the United States of America. CSX2000 and CSX2002 are part of the Larry Miller Collection, and CSX2001 belongs to California-based motorsport aficionado Bruce Meyer.
