The female performer with a public voice constitutes a remarkably vibrant theme in British and American narratives of the long nineteenth century. The tension between fictional female performers and other textual voices can be seen to refigure the cultural debate over the 'voice' of women in aesthetically complex ways. By focusing on singers, actresses, preachers and speakers, this book traces and explores an important tradition of feminine articulation.

Drawing on critical approaches in literary studies,

gender studies and philosophy, the book conceptualizes voice for the discussion of narrative texts. Examining voice both as a thematic concern and as an aesthetic effect, the individual chapters analyse how the actual articulation by female performers correlates with their cultural visibility and agency. What this study foregrounds is how women characters succeed in making themselves heard even if their voices are silenced in the end.

The #1 New York Times Bestseller: "A hilarious take on that age-old problem: getting the beloved child to go to sleep" (NPR). "Hell no, you can't go to the bathroom. You know where you can go? The f**k to sleep." Go the Fuck to Sleep is a book for parents who live in the real world, where a few snoozing kitties and cutesy rhymes don't always send a toddler sailing blissfully off to dreamland. Profane, affectionate, and radically honest, it captures the familiar—and unspoken—tribulations of putting your little angel down for the night. Read by a host of celebrities, from Samuel L. Jackson to Jennifer Garner, this subversively funny bestselling storybook will not actually put your kids to sleep, but it will leave you laughing so hard you won't care.

In this loose sequel to his award-winning novel, *East of Denver*, author Gregory Hill spins another off-kilter yarn set in fictional Stratford County that is "raw, untamed, gritty, bold, fantastic and slightly, wonderfully crazy." Johnny Riles leads a lonesome life on Colorado's high prairie in 1975. His parents abandoned him to the family ranch after he accidentally shot his father, and his irresponsible younger brother, Kitch, left home to become a star player in the American Basketball Association. With only his livestock and his whiskey to keep him company, Johnny spends his hours wandering the barren landscape looking

for arrowheads. But one cold, the charming exuberance of a October evening, Johnny finds a mysterious skull half-buried in the ground. When he ties it to his saddle to bring it home, his horse panics and bolts, leaving Johnny alone in a freak blizzard that suddenly blows in. Unprepared for the freezing night, Johnny tracks his horse through the mounting snow, only to discover that it has been gruesomely killed. So begin Johnny's trials. He delves beneath stark Western landscapes, both literal and figurative, to unearth the truths behind his nightmares, searching for the mysterious killer, for his brother's soul, and for a sober reason to live.

Jottings from a Far Away Place Walter de Gruyter GmbH & Co KG

Tracing the cultural, material, and discursive history of an early manifestation of media

culture in the making. Beginning in the late eighteenth century, huge circular panoramas presented their audiences with resplendent representations that ranged from historic battles to exotic locations. Such panoramas were immersive but static. There were other panoramas that moved—hundreds, and probably thousands of them. Their history has been largely forgotten. In *Illusions in Motion*, Erkki Huhtamo excavates this neglected early manifestation of media culture in the making. The moving panorama was a long painting that unscrolled behind a “window” by means of a mechanical cranking system, accompanied by a lecture, music, and sometimes sound and light effects. Showmen exhibited such panoramas in venues that ranged from opera houses to church halls, creating a market for mediated realities

in both city and country. In the first history of this phenomenon, Huhtamo analyzes the moving panorama in all its complexity, investigating its relationship to other media and its role in the culture of its time. In his telling, the panorama becomes a window for observing media in operation. Huhtamo explores such topics as cultural forms that anticipated the moving panorama; theatrical panoramas; the diorama; the “panoromania” of the 1850s and the career of Albert Smith, the most successful showman of that era; competition with magic lantern shows; the final flowering of the panorama in the late nineteenth century; and the panorama's afterlife as a topos, traced through its evocation in literature, journalism, science, philosophy, and propaganda.

Random House Books for Young Readers

In 2014 media around the world buzzed with news that an archaeological team from Parks Canada had located and identified the wreck of HMS Erebus, the flagship of Sir John Franklin's lost expedition to find the Northwest Passage. *Finding Franklin* outlines the larger story and the cast of detectives from every walk of life that led to the discovery, solving one of the Arctic's greatest mysteries. In compelling and accessible prose, Russell Potter details his decades of work alongside key figures in the era of modern searches for the expedition and elucidates how shared research and ideas have led to a fuller understanding of the Franklin crew's final months. Illustrated with numerous images and maps from the last two centuries,

Finding Franklin recounts the more than fifty searches for traces of his ships and crew, and the dedicated, often obsessive, men and women who embarked on them. Potter discusses the crucial role that Inuit oral accounts, often cited but rarely understood, played in all of these searches, and continue to play to this day, and offers historical and cultural context to the contemporary debates over the significance of Franklin's achievement. While examination of HMS Erebus will undoubtedly reveal further details of this mystery, *Finding Franklin* assembles the stories behind the myth and illuminates what is ultimately a remarkable decades-long discovery.

The Poltergeist Prince of

London Top Shelf Productions

"Mary White, a shopkeeper's wife from rural Boylston, Massachusetts, kept a diary, and woven into its quotidian details of small-town farm life is a remarkable tale of conflict and transformation. Sustained by its Puritan heritage, gentry leadership, and creed of common good, Boylston had survived the upheaval of revolution and the creation of new republic. Then, quite dramatically, in the course of a single generation of wrenching change - from the 1820s-1840s--families, neighbors, church, and town descended into contentious disorder. Making use of Mary White's diary entries, as well as town minutes, letters, and the "friendship books" of school children, Mary Babson Fuhrer brings to life the unraveling of Boylston's community and the troublesome creation of a new social order, one centered on individual striving and voluntary associations in an expansive nation. Examining the "age of

revolutions" through the lens of one rural community that was swept up into the dynamics of an urbanizing east coast, this engaging microhistory lends new depth to our understanding of a key transformative moment in American history. "--
