QHYCCD designs and manufactures world-leading astronomical cameras, ranging from entry-level to professional, CMOS and CCD, front-illuminated and back-illuminated, specially crafted for amateur and professional astronomers worldwide.

QHYCCD Astronomical Cameras

The QHY5-II Series uncooled cameras fit in a standard 1.25-inch eyepiece holder and have an adjustable location ring for confocality with an eyepiece. They are ideal for use as low-weight autoguiders or planetary cameras where short exposures are typical. The QHY5-II series cameras come in very small but powerful packages!

The case is a 1.25 " tube making the camera look a lot like a basic eyepiece and it weighs very little. In addition to mounting in a standard 1.25 " drawtube, it has C-mount threads. Despite its diminutive size, it sports a full 16-bit ADC and an ST-4 output. Current pricing on the Lodestar is about \$800.
