Joyful Militancy
NYU Press
"One of the ablest leaders and writers of the French New Left describes the two realms of "anarchism"--Its intellectual substance, and its actual practice through the Bolshevik Revolution, the Spanish Civil War, the Italian Factory Councils, and finally its role in workers' self-management in modern Yugoslavia and Algeria. One sees in "anarchism" a close kinship to libertarianism of

the right, with its horror of state bureaucracy and hostility toward bourgeois (liberal) democracy. Noam Chomsky, perhaps Guerin's American political counterpart, has written a concise and effective introduction which will add to the book's campus appeal. An important contemporary definition of New Left aims and their possible directions in the future." -- from back cover
Anarcho-Blackness AK Press
In this gripping memoir of the AIDS years (1981–1996),

Sarah Schulman recalls how much of the rebellious queer culture, cheap rents, and a vibrant downtown arts movement vanished almost overnight to be replaced by gay conservative spokespeople and mainstream consumerism. Schulman takes us back to her Lower East Side and brings it to life, filling these pages with vivid memories of her avant-garde queer friends and dramatically recreating the early years of the AIDS crisis as experienced by a political insider. Interweaving personal reminiscence with cogent analysis, Schulman details her experience as a

witness to the loss of structures and a generation's imagination and the consequences of that loss.

Recipes for

Disaster AK Press

A magisterial study of the history and theory of one of the most controversial political movements Anarchism routinely gets a bad press. It's usually seen as meaning chaos and disorder -- or even nothing at all. And yet, from Occupy Wall Street to Pussy Riot, Noam Chomsky to David Graeber, this philosophical and political movement is as relevant as ever. Contrary to popular perception, different strands of anarchism -- from individualism to collectivism -- do follow certain

shared sense of purpose: a belief in freedom and working towards collective good without the interference of the state. In this masterful, sympathetic account, political theorist Ruth Kinna traces the tumultuous history of anarchism, starting with thinkers and activists such as Peter Kropotkin and Emma Goldman and through key events like the Paris Commune and the Haymarket affair. Skilfully introducing us to the nuanced theories of anarchist groups from Russia to Japan to the United States, The Government of No One reveals what

makes a supposedly chaotic movement particularly adaptable and effective over centuries -- and what we can learn from it.

Queering

Anarchism U of Minnesota Press

Queering

Anarchism

brings together a diverse set of writings, ranging from the deeply theoretical to the playfully personal, that explore the possibilities of queering,' turning the dominant, heteronormative structures of belief and identity entirely

inside out. Ranging in topic from the economy to disability, politics, social structures, sexual practice, interpersonal relationships and beyond, the authors here suggest that queering might be more than a set of personal preferences and they point toward the possibility of an entirely new way of viewing the world.'

Anarchism Duke University Press
This volume of collected essays by some of the most prominent academics

studying anarchism bridges the gap between anarchist activism on the streets and anarchist theory in the academy. Focusing on anarchist theory, pedagogy, methodologies, praxis, and the future, this edition will strike a chord for anyone interested in radical social change. This interdisciplinary work highlights connections between anarchism and other perspectives such as feminism, queer theory, critical race theory, disability studies, post-modernism and

post-structuralism, animal liberation, and environmental justice. Featuring original articles, this volume brings together a wide variety of anarchist voices whilst stressing anarchism's tradition of dissent. This book is a must buy for the critical teacher, student, and activist interested in the state of the art of anarchism studies. Anarchy and Society Univ of California Press
The only crisis of capitalism is capitalism itself. Let's toss credit default swaps, bailouts, environmental externalities and,

while we're at it, private ownership of production in the dustbin of history. The Accumulation of Freedom brings together economists, historians, theorists, and activists for a first-of-its-kind study of anarchist economics. The editors aren't trying to subvert the notion of economics—they accept the standard definition, but reject the notion that capitalism or central planning are acceptable ways to organize economic life. Contributors include Robin Hahnel, Iain McKay, Marie Trigona, Chris Spannos, Ernesto Aguilar, Uri Gordon, and more. Moribund Society

and Anarchy
Vintage
The first intellectual and social history of American anarchist thought and activism across the twentieth century. In this highly accessible history of anarchism in the United States, Andrew Cornell reveals an astounding continuity and development across the century. Far from fading away, anarchists dealt with major events such as the rise of Communism, the New Deal, atomic warfare, the black freedom struggle, and a succession

of artistic avant-gardes stretching from 1915 to 1975. Unruly Equality traces U.S. anarchism as it evolved from the creed of poor immigrants militantly opposed to capitalism early in the twentieth century to one that today sees resurgent appeal among middle-class youth and foregrounds political activism around ecology, feminism, and opposition to cultural alienation. **A Feminist Mythology**
Penguin UK
“One of the most profound and illuminating studies of this

century to have been published in recent decades.”—John Gray, New York Times Book Review Hailed as “a magisterial critique of top-down social planning” by the New York Times, this essential work analyzes disasters from Russia to Tanzania to uncover why states so often fail—sometimes catastrophically—in grand efforts to engineer their society or their environment, and uncovers the conditions common to all such planning disasters. “Beautifully

written, this book calls into sharp relief the nature of the world we now inhabit.”—New Yorker “A tour de force.”— Charles Tilly, Columbia University
Spaces Between Us Bloomsbury Publishing
From consciousness-raising groups to hair-raising punk rockers, this reader offers a fascinating window into the development of the women's movement, in the words of the women who moved it. These classic essays span the century, providing a welcome context for feminism as part of a larger politics of liberation and equality. Critical analysis and biting

polemic, whether its Emma Goldman's attack on the Suffrage Movement or the death of Second Wave feminism in the 1970s, show not just how anarchism influenced feminism, but how feminism changed the political landscape.
Contemporary Anarchist Studies AK Press
The classic manifesto of the liberated woman, this book explores every facet of a woman's life.
Unruly Equality Ballantine Books
In this lively ethnography, Weiss studies the pansexual BDSM community in the San Francisco Bay Area. Weiss

finds that BDSM practice is not as transgressive as the participants imagine, nor is it simply reinforcing of older forms of social domination. Instead she shows how fantasy play depends on pre-existing social hierarchies, even as it also participates in a commodification of desires.

Quiet Rumours

Yale University Press

A revolutionary classic written by a living legend of Black Liberation.

Queer Methods and Methodologies

Duke University Press

An irresistible tome from the insurrectionist

theoretician, Hakim Bey. His incendiary words are beautifully illustrated by the renowned collage artist Freddie Baer. The result is a delightful compilation by two talented artists. A must read for those who have followed their work for years. In this collection of essays, Bey expounds upon his ideas concerning radical social reorganization and the liberation of desire. Immediatism is another lyrical romp through intellectual corridors of spirituality and politics originally set forth in his groundbreaking book, TAZ. A stunning achievement from this prodigious

author and scholar. "A Blake Angel on Acid."--Robert Anton Wilson "Fascinating..."--William S. Burroughs "Exquisite..."--Allen Ginsberg

The Gentrification of the Mind

Bloomsbury Publishing

A radical anthropologist studies the global justice movement.

Our Enemies in Blue Pluto Press (UK)

This book takes examples from around the world, picking through history and anthropology, showing that people have, in different ways and at different times, demonstrated

mutual aid, self-organization, autonomy, horizontal decision making, and so forth--the principles that anarchy is founded on--regardless of whether they called themselves anarchists or not. Too well documented to be strictly mythology, and too expansive to be strictly anthropology, this is an inspiring answer to the people who say that anarchists are utopian: a point-by-point introduction to how anarchy can and has actually worked. Anarchism and the Black

Revolution
Routledge
Queer Methods and Methodologies provides the first systematic consideration of the implications of a queer perspective in the pursuit of social scientific research. This volume grapples with key contemporary questions regarding the methodological implications for social science research undertaken from diverse queer perspectives, and explores the limitations and

potentials of queer engagements with social science research techniques and methodologies. With contributors based in the UK, USA, Canada, Sweden, New Zealand and Australia, this truly international volume will appeal to anyone pursuing research at the intersections between social scientific research and queer perspectives, as well as those engaging with methodological considerations in

social science research more broadly. <u>Techniques of Pleasure</u> University Professors Press tired of reading yet another trans/gender 101 entirely centered around white people and their normative narratives? tired of feeling like you must be _this_ tall to be trans enough to belong in the community ? tired of feeling like the white trans community is erasing your experiences?	having gender feels but not understanding how they fit into the current white hegemonic discourse on gender? decolonizing trans/gender 101 is a short, accessible (and non-academic) critique of many of the fundamental concepts in white trans/gender theory and discourse. written for the indigenous and/or person of colour trying to understand how their gender is/has been impacted by	whiteness and colonialism.
