For years, William York Tindall's guide has been one of the very best ways to approach the difficult writing and complex language of James Joyce's *Finnegans Wake*. Over a period of forty years, Tindall studied, instructed, and most importantly, learned from graduate students about Joyce's greatest literary masterpiece. He explores and analyzes Joyce's unexpected depths and vast collection of puns, allusions, and word plays involving more than a dozen languages, thereby breaking down the formidable barriers that can discourage readers from enjoying the humor and brilliance of Joyce.

During the 2001 Linguistic Summer Institute at University of California, Santa Barbara, a group of linguists gathered at a workshop to discuss the expression and role of topicalization and focus from a variety of perspectives: phonetic, phonological, syntactic, semantic, and pragmatic. The workshop was designed to lay the groundwork for collaborative efforts between linguists devoted to the study of meaning and linguists engaged in the quantitative study of intonation. This volume contains papers emerging from the Santa Barbara Workshop on Topic and Focus. A wide variety of methodologies and research interests related to topic and focus are represented in the papers. Some works present results of phonetic studies, either acoustic or perceptual, on the expression of topic and/or focus; others examine semantic or pragmatic features of topic and/or focus, while others are concerned with the interface between intonation and meaning. Data from several different languages are represented in the papers, including several languages with relatively little documentation particularly in the venue of

topic and focus, e. g. Basque, Chickasaw, Indonesian, Polish, Taiwanese. The broad sample of languages coupled with the wide variety of research topics addressed by the papers promise to enrich our typological understanding of topic and focus phenomena and provide an impetus for further research. The following paragraphs offer brief summaries of the papers contained in this volume: Gorka Elordieta's paper describes prosodic conditions governing focus in a dialect of Basque with pitch accents.

In this volume, Professors Strayer and Thorndike present materials of essential value that relate to educational administration from various articles and monographs, in such a compact form that every educational administrator can have a copy for his desk. It permits also an effective use of these materials for class discussion, since the book can be in the hands of the students as a reference text. The volume does not attempt to show the relations of the various topics discussed to the field of education in general, or to show general administrative perspective. It is expected that the educational administrator is already familiar with these matters, and that where the book is used as a text, comment and perspective will be supplied by lectures and readings from other books already in the field.

"I was obliged to find a radical way to work -- to get at the real, at the root of the matter," John Cage says in this trio of dialogues, completed just days before his death. His quest for the root of the matter led him beyond the bounds of the conventional in all his musical, written, and visual pieces. The resulting expansion of the definition of art -- with its concomitant emphasis on innovation and invention--earned him a reputation as one of America's most influential contemporary artists. Joan Retallack's conversations with Cage represent the first consideration of his artistic production in its entirety, across genres. Informed by the perspective of age, Cage's comments range freely from his theories of chance and indeterminate composition to his long-time collaboration with Merce Cunningham to the aesthetics of his multimedia works. A composer for whom the whole world -- with its brimming silences and anarchic harmonies -- was a source of music, Cage once claimed, "There is no noise, only sounds." As these interviews attest, that penchant for testing traditions reached far beyond his music. His lifelong project, Retallack writes in her comprehensive introduction, was "dislodging cultural authoritarianism and gridlock by inviting surprising conjunctions within carefully delimited frameworks and processes." Consummate performer to the end, Cage delivers here just such a conjunction -- a tour de force that provides new insights into the man and a clearer view of the status of art in the 20th century.

The fundamental subject of A. D. Nuttall's bold and daring first book, *Two Concepts of Allegory*, is a particular habit of thought--the practice of thinking about universals as though they were concrete things. His study takes the form of an inquiry into certain conceptual questions raised, in the first place, by the allegorical critics of *The Tempest*, and, in the second place, by allegorical and quasi-allegorical poetry in general. The argument has the further consequence of suggesting that allegory and metaphysics are in practice more closely allied than is commonly supposed. This paperback reissue includes a new preface by the author.

In *In the Company of Strangers* shows how a reconception of family and kinship underlies the revolutionary experiments of the modernist novel. While stories of marriage and long-lost relatives were a mainstay of classic Victorian fiction, Barry McCrea suggests that rival countercurrents within these family plots set the stage for the formal innovations of Joyce and Proust. Tracing the challenges to the family plot mounted by figures such as Fagin, Sherlock Holmes, Leopold Bloom, and Charles Swann, McCrea tells the story of how bonds generated by chance encounters between strangers come to take over the role of organizing narrative time and give shape to fictional worlds—a task and power that was once the preserve of the genealogical family. By investigating how the question of family is a hidden key to modernist structure and style, *In the Company of Strangers* explores the formal narrative potential of queerness and in doing so rewrites the history of the modern novel.
