This book provides a timely and comprehensive overview of the introduction of LTE technology

for PPDR communications. It describes the operational scenarios and emerging multimedia and data-centric applications in demand and discusses the main techno-economic drivers that are believed to be pivotal for an efficient and cost-effective delivery of mobile broadband PPDR communications. The capabilities and features of the LTE standard for improved support of mission-critical communications (e.g., proximity services, group communications) are covered in detail. Also, different network implementation options to deliver mobile broadband PPDR communications services over dedicated or commercial LTE-based networks are discussed, including the applicability of the Mobile Virtual Network Operator (MVNO) model and other hybrid models. Radio spectrum matters are also discussed in depth, outlining spectrum needs and providing an outlook into allocated and candidate spectrum bands for PPDR communications and suitable dynamic spectrum sharing solutions in PPDR communications. Explanations are accompanied by a vast collection of references that allow the more intrigued reader to gain further insight into the addressed topics.

Economic Statecraft and US Foreign Policy by Mocktime Publication

Despite the reversal of America's fortune from the triumphalism of the Roaring Nineties to the gloom of the lost decade and the Great Depression, theoretical conceptions of US capitalism have remained surprisingly unchanged. In fact, if the crisis questioned the sustainability of the US capitalist paradigm, it did not fundamentally challenge academic theorization of American political economy. This book departs from the American political economy literature to identify three common myths that have shaped our conceptualization of

US capitalism: its reduction to a state-market dyad dis-embedded from societal factors; the illusion of a weak state and the synchronic conception of the US variety of capitalism. To remedy these pitfalls, the authors propose a civilizational approach to American political economy at the crossroads between cultural studies, history, sociology and political science. Drawing together contributions from a rich variety of fields (from geography to cultural studies, political science and sociology) this work sheds a new light on America's "cultural political economy" combining theoretical reflection with empirical data and offering innovative perspectives on the crisis and renewal of American capitalism.
