Bourgeois Radicals explores the NAACP's key role in the liberation of Africans and Asians across the globe even as it fought Jim Crow on the home front during the long civil rights movement. For NAACP's leaders, the way to create a stable international system, stave off communism in Africa and Asia, and prevent capitalist exploitation was to embed human rights, with its economic and cultural protections, in the transformation of colonies into nations. Indeed, the NAACP aided in the liberation struggles of multiple African and Asian countries within the limited ideological space of the Second Red Scare. However, its vision of a 'third way' to democracy for the hundreds of millions in Asia and Africa was only partially realized due to a toxic combination of the Cold War, Jim Crow, and imperialism. *Bourgeois Radicals* examines the toll that internationalism took on the organization and illuminates the linkages between the struggle for human rights and the fight for colonial independence.

Lecturers, request your electronic inspection copy Kathy Charmaz presents the definitive guide to doing grounded theory from a constructivist perspective. This second edition of her groundbreaking text retains the accessibility and warmth of the first edition whilst introducing cutting edge examples and practical tips. This expanded second edition: - explores how to effectively focus on data collection - demonstrates how to use data for theorizing - adds two new chapters

that guide you through conducting and analysing interviews in grounded theory - adds a new chapter on symbolic interactionism and grounded theory - considers recent epistemological debates about the place of prior theory - discusses the legacy of Anselm Strauss for grounded theory. This is a seminal title for anyone serious about understanding and doing grounded theory research.

An account of the War Department's principal staff agency that describes the way the members of the Operations Division worked together, defined their responsibilities, and carried out their common aims.

Hearing Before the Committee on Oversight and Government Reform, House of Representatives, One Hundred Tenth Congress, First Session, March 19, 2007 CRC Press

Statistics are just as vital to understanding political science as the study of institutions, but getting students to understand them when teaching a methods course can be a big challenge. *Statistics for Political Analysis* makes understanding the numbers easy. The only introduction to statistics book written specifically for political science undergraduates, this book explains each statistical concept in plain language—from basic univariate statistics and the basic measures of association to bivariate and multivariate regression—and uses real world political examples.

Students learn the relevance of statistics to political science, how to understand and calculate statistics mathematically, and how to obtain them using SPSS. All calculations are modeled step-by-step, giving students needed practice to master the process without making it intimidating. Each chapter concludes with exercises that get students actively applying the steps and building their professional skills through data calculation, analysis, and memo writing.

Abbott's Cyclopedic Digest

Three people living in Tel Aviv, Haifa, and Jerusalem embark on distinct journeys that converge at “ the file ” ; their efforts to admit Palestine to the Olympics in the early twentieth century. Their pivotal roles in history have been purposely omitted from official record, kept secret, or forgotten. Why? Because of the “ Nazi

Olympics ” in 1936 in Berlin. And because of the death in 1972 of eleven Israeli Olympic athletes in the Munich Massacre. This book narrates the previously untold history of a Palestine Olympic Committee recognized before the creation of the State of Israel in 1948. It sheds light on some of the darkest events in sport history, exposing secretive relationships behind the doors of the Jerusalem YMCA, Nazi agitation, arrests, internments, and other intrigue in the complicated history of Israeli and Palestinian sport. *The File* breaks new ground at the intersection of sport and politics—illuminating the hope, tension, and horror of the 20s, 30s, and 40s, the creation of the State of Israel and the Palestinian refugees, and the resulting guerrilla attack at the Olympics in Munich in 1972—and reveals a handful of heroes whose impact on athletes and international sport competitions is still felt today. Consultant and researcher San Charles Haddad weaves a true and masterful tale of forgotten personalities in a conflict characterized by unabated venom, bringing hope and new questions in his wake. What will be the future of Israel and Palestine, and how might sport play a restorative role in the twenty-first century?

Utility Corporations

In this exciting sequel, April O'Connell continues to capture the essence of adventure as she pulls you back into the wilds of the jungle as Zura has grown into a strong woman and has taken on the challenges of raising a family.
