Rabindranath Tagore, also written Rabindranatha Thakura, (7 May 1861 - 7 August 1941), sobriquet Gurudev, was a Bengali polymath who reshaped Bengali literature and music, as well as Indian art with Contextual Modernism in the late 19th and early 20th centuries. Author of *Gitanjali* and its "profoundly sensitive, fresh and beautiful verse", he became the first non-European to win the Nobel Prize in Literature in 1913. In translation his poetry was viewed as spiritual and mercurial; however, his "elegant prose and magical poetry" remain largely unknown outside Bengal. Tagore introduced new prose and verse forms and the use of colloquial language into Bengali literature, thereby freeing it from traditional models based on classical Sanskrit. He was highly influential in introducing the best of Indian culture to the West and vice versa, and he is generally regarded as the outstanding creative artist of the modern Indian subcontinent, being highly commemorated in India and Bangladesh, as well as in Sri Lanka, Nepal and Pakistan.

Fraud costs the United Kingdom a reported £198 billion per year and the Crime Survey for England and Wales (March 2016) estimates that there are over 5 million incidents of fraud and 2 million cyber-related crimes committed annually. Preventing and investigating fraud has become a priority for police officers and establishing successful, effective strategies to tackle this new volume crime represents a significant and persistent challenge for the police service. Investigation of Fraud and Economic Crime is written by experts from, and affiliated to, the City of London Police, the lead force for fraud in the UK and home to Action Fraud and the National Fraud Intelligence Bureau (NFIB). It offers practical, straightforward advice to law enforcement agencies dealing with fraud and economic crimes. The book identifies more than fifty different types of fraud and sets out the different strategic and tactical considerations in preventing, investigating, and disrupting each one. At the centre of the book is the Fraud Investigation Model (FIM), an effective framework encompassing multiagency working, recovery of evidence and victim management, as well as a range of useful features designed to demystify fraud terminology and provide accessible operational guidance. These include key point boxes, highlighting important learning points and investigation best practice; definition boxes, to cut through legal terminology and connect the law to everyday police work; and flow charts, which tackle complex operational and legal procedures and break them down into simple, easy to follow steps.
