Practical Statistics John Wiley & Sons High Growth Handbook is the playbook for growing your startup into a global brand. Global technology executive, serial entrepreneur, and angel investor Elad Gil has worked with high-growth tech companies including Airbnb, Twitter, Google, Stripe, and Square as they ' ve grown from small companies into global

enterprises. Across all of these breakout companies, Gil has identified a set of common patterns and created an accessible playbook for scaling high-growth startups, which he has now codified in High Growth Handbook. In this definitive guide, Gil covers key topics, including:

- The role of the CEO
- Managing a board
- Recruiting and overseeing an executive team
- Mergers and acquisitions
- Initial public offerings
- Late-stage funding.

Informed by interviews with some of the biggest names in Silicon Valley, including Reid Hoffman (LinkedIn), Marc Andreessen (Andreessen Horowitz), and Aaron Levie (Box), High Growth Handbook presents crystal-clear guidance for navigating the most complex challenges that confront leaders and operators in high-growth startups.

THE SUNDAY TIMES TOP TEN BESTSELLER From one of our greatest voices in modern philosophy, author of *The Course of Love*, *The Consolations of Philosophy*, *Religion for Atheists* and *The School of Life* - an accessible and eye-opening exploration of our relationship with 'the news' 'His gift is to prompt us to think about how we live and how we might change things' *The Times* 'De Botton analyses modern society with great charm, learning and humour. His remedies come as a welcome relief' *Daily Mail* 'Like all classic de Botton, there are plenty of insightful observations here, peppered with some psychology, a dash of philosophy, a big dollop of commonsense' *Scotsman* 'The news' occupies a range of manic and peculiar positions in our lives. We invest it with an authority and importance which used to be the preserve of religion - but what does it do for us? Mixing current affairs with philosophical reflections, de Botton offers a brilliant illustrated guide to the precautions we should take before venturing anywhere near the news and the 'noise' it generates. Witty and global in reach, *The News* will ensure you'll never look at reports of a celebrity story or political scandal in quite the same way again.

In this book, Warren Keller reveals the secrets of astro-image processing software PixInsight in a practical and easy to follow manner, allowing the reader to produce stunning astrophotographs from even mediocre data. As the first comprehensive post-processing platform to be created by astro-imagers for astro-imagers, it has for many, replaced the generic graphics editors

as the software of choice. With clear instructions from Keller, astrophotographers can get the most from its tools to create amazing images. Capable of complex post-processing routines, PixInsight is also an advanced pre-processing software, through which astrophotographers calibrate and stack their exposures into completed master files. Although it is extremely powerful, PixInsight has been inadequately documented in print--until now. With screenshots to help illustrate the process, it is a vital guide.

"Congratulations on the purchase of this exclusive product, tailor-made just for you. It will provide you with years of continuous service." The brain is one of nature's most miraculous but misunderstood creations. In this fascinating user-friendly guide, you will discover all you need to know about what is ceaselessly happening inside your head - from the 38 million billion calculations the brain makes per second, to the complex distribution of memory (there is no central storeroom for information) and why love is an entirely neuronal experience. With wit and style, Marco Magrini cuts through the noise of cerebral misinformation to tell the real story of who you are and, crucially, what you are capable of achieving. N.B. Product comes with a 10-year warranty. T&Cs apply "A fantastically original and clever way to popularise neuroscience." - Professor Gilberto Corbellini, Philosophy of Science, La Sapienza University, Rome "In these pages, Magrini describes beautifully, and often very humorously, the extraordinary harvest of new neuroscientific discoveries shedding light on the most complex and astonishing thing in the universe itself." - Tomaso Poggio, MIT McGovern Institute

QuickBooks 2015: The Missing Manual Paul H Brookes Publishing

From the ordered universe of the ancient Greeks to the shadows of Nietzsche's nineteenth century, LEARNING TO LIVE shakes the dust from the history of philosophy and takes us on a fascinating journey through more than two millennia of humanity's search for understanding - of the world around us and of each other. Both a sparkling and accessible history of Western thought, and a courageous dissection of how religion and philosophy have converged and clashed through the ages, Luc Ferry's blueprint for a new humanism challenges every one of us to learn to think for ourselves, and asks us the most important question of all: how can we live better?
