About the Expert Bruce Stimson started his factoring career in 2001, when he founded QLFS, which eventually became the Invoice Trucking Group. Mr. Stimson led the firm through its initial growth and established it as a leading provider to startups and small companies in the New England region. After QLFS, Mr. Stimson launched Trucking Capital LLC to provide services in the USA, Canada and Australia.

Under his leadership, Trucking Capital LLC has expanded to offer a number of business finance products and can help companies in most industries. Trucking Capital LLC is one of the few companies that offers micro-factoring (also called small-ticket factoring), which helps early-stage companies with limited revenues. Small business factoring has been ignored by larger factoring firms and banks, establishing Mr. Terry as a pioneer in this market. Before starting his career in finance, Mr. Stimson held several management positions in operations and marketing in the telecommunications industry for eight years. He earned a Master's Degree in Finance with a concentration in banking. HowExpert publishes quick 'how to' guides on all topics from A to Z by everyday experts.

The aim of this book is to discuss the most relevant facets of maritime, land (railroad, trucking mas transit), pipeline and air transportation security related systems and associated issues. This book will assist the reader in understanding the need for adequate transportation security and the necessity for immediate action to remedy some glaring gaps in the system. Statistical data documenting the importance of the industry within the context of the global economy are examined, as well as the

history of each transportation mode. The book will also detail applicable legislation and the agencies tasked to oversee each mode of transportation as well as how to implement an appropriate program to enhance the security of a particular transportation operation. In addition, the book will enable readers to become more aware of the current global threat to the transportation system and understand the basic need for enhanced security programs and individual roles within them. Upon completion of the book, the reader should also possess adequate background knowledge of all applicable domestic and international law and regulations. The reader will also know how to implement basic precautionary master security plans which will improve transportation security across the system. The concluding chapters discuss emerging technologies and the threats emanating from weapons of mass destruction. First of its kind/Comprehensive/Well written and concise A valuable tool for Transportation Security Managers.

Avoid the headaches of managing your business finances by following this effortless approach It's an exciting time to be part of the trucking industry--hauling over 80% of the country's total cargo, and projected to continue its strong performance in the years to come. As a new business owner, it's natural to prioritize sales, loads, and getting your business noticed. But neglecting to set up the financial side of your business is effectively setting yourself up for failure. Not knowing if you're running out of cash, or if your price covers all your costs, means that you don't know whether you're making money or not. And a business that doesn't keep tabs on how much money they're

making (or losing) won't be able to survive that long. In fact, 85% of new trucking companies fail to reach their second year, partly due to problems with managing costs. If you don't want your business to end up the same way, it's essential that you're able to get your finances in order. However, with all the information, paperwork, and rules involved in running a transport business, it's easy to lose track of what you need to monitor. With a well-planned, organized, and clutter proof system, you'll have your finances running like a well-oiled machine so you can focus on building your business.
