Conventional
accounting uses the
logical (albeit,
flawed) formula:
 $Sales - Expenses = Profit$. The problem
is, businesses are run
by humans, and
humans aren't
always logical. Serial
entrepreneur Mike
Michalowicz has
developed a
behavioral approach
to accounting to flip
the formula: $Sales - Profit = Expenses$.
Just as the most
effective weight loss
strategy is to limit
portions by using
smaller plates,
Michalowicz shows
that by taking profit

first and
apportioning only
what remains for
expenses,
entrepreneurs will
transform their
businesses from cash-
eating monsters to
profitable cash cows.
Using Michalowicz's
Profit First system,
readers will learn
that: - Following 4
simple principles
can simplify
accounting and
make it easier to
manage a profitable
business by looking
at bank account
balances. - A
small, profitable
business can be
worth much more
than a large business
surviving on its top
line. - Businesses
that attain early and
sustained
profitability have a

better shot at achieving long-term growth. With dozens of case studies, practical, step-by-step advice, and his signature sense of humor, Michalowicz has the game-changing roadmap for any entrepreneur to make money they always dreamed of.
