The spectrum of library humor from sources inside and outside the profession ranges from the subtle wit of the New Yorker to the satire of Mad. This examination of American library humor over the past 200 years covers a wide range of topics and spans the continuum between light and dark, from parodies to portrayals of libraries and their staffs as objects of fear. It illuminates different types of librarians--the collector, the organization person, the keeper, the change agent--and explores stereotypes like the shushing little old lady with a bun, the male scholar-librarian, the library superhero, and the anti-stereotype of the sexy librarian. Profiles of the most prominent library humorists round out this lively study.

It used to be a few times a year Apple would take the stage and announce something that everyone's head exploded over! The iPhone! The iPad! The Apple Watch! The iPod! That still happens today, but Apple also is well aware of the reality: most people don't upgrade to new hardware every year. How does a company make money when that happens? In a word: services. In the past few years (especially in 2019) Apple announced several services--things people would opt into to pay for monthly. It was a way to continue making money even when people were not buying hardware.

For it to work, Apple knew it had to be good. They couldn't just offer a subpar service and expect people to pay because it said Apple. It had to be good. And it is! This book will walk you through those services and show you how to get the most out of them.

"The best book to have been written about the Vietnam War" (The New York Times Book Review); an instant classic straight from the front lines. From its terrifying opening pages to its final eloquent words, Dispatches makes us see, in unforgettable and unflinching detail, the chaos and fervor of the war and the surreal insanity of life in that singular combat zone. Michael Herr's unsparing, unorthodox retellings of the day-to-day events in Vietnam take on the force of poetry, rendering clarity from one of the most incomprehensible and nightmarish events of our time. Dispatches is among the most blistering and compassionate accounts of war in our literature.

Theology is a dish best served organically! Christianity has thousands of years of history. You probably know a lot of it. But this is the story that you probably didn't hear in Sunday school. Punctuated by footnotes and full of wit and wisdom, you will be surprised by how much fun you have learning about the foundations of belief. You don't have to be a Bible scholar to understand some of the many complex concepts in this book. The author breaks it down in a way that's approachable, insightful, and even funny in places. You'll learn about the Bible being a myth (don't worry--it's not at all what you think!), how we know if Jesus was really the Messiah, and, of course, if God has a pinky toe. Sit back, relax, and get ready to have some fun.

We all know the story of creation in the Bible. In the beginning, God created. But what if creation isn't where things started? Not in the Bible anyway. What if the first book of the Bible wasn't about creation...it was about pain. Scholars have debated for years about what the first book of the Bible really is. Most have concluded that the Book of Job was probably the first book written. Think about that: what if the message God wanted us to receive wasn't about how we were created, but what to do when life gets bad. Being a Christian means happiest. Joy. It means you get that white picket fence and have friends that bring you companionship. Hardship and spiritual warfare may be words that Christians know, but it's not exactly something we talk about. Job is a complicated and messy story because it address the elephant in the giant room that is Christianity: that believing in God doesn't mean happiness. Or wealth. Or even goodness. Job is a story that teaches us an ugly truth about what we believe: that things aren't always better on the other side of the mountain--that good things don't always happen to good people--and that sometimes life is just messed up. Most people know the story of Job. He's the guy who had bad things happen to him. But we often look to the story as more a Sunday school fairytale. Sure, it's believable. But we often look at it as a moral tale about a guy who had it all taken away. There's more to it than that. Rarely do we study it to find out what God is trying to teach us. The lesson here is deep, and one every believe should hear.
