The Business Ethics Workshop by James Brusseau focuses on reality and engagement. Students respond to examples and contemporary cases that touch on their own anxieties, desires and aspirations, and this textbook drives that without sacrificing intellectual gravity. It incites student interest and gets to the core of ethical issues.

Policy and Politics in Nursing and Healthcare - Revised Reprint - E-Book John Wiley & Sons
This open access book presents selected contributions on a wide range of scientific and technological areas originating from the BUID Doctoral Research Conference (BDRC 2022). It discusses the following topics: project management, macroeconomic factors, Fourth Industrial Revolution, agility, multiculturalism, diversity, inclusion, leadership, language, discourse analysis, curriculum, critical thinking, programming, online learning, and natural ventilation. The contributions reflect the multifaceted nature of the research in three academic disciplines, i.e., humanities, formal science, and applied science. This publication shares with its readers genuine research studies and reflections from practitioners on the current practice and understanding in the three academic disciplines. The significant findings of these studies have considerable educational, industrial, and economic implications. BUID Doctoral Research Conference 2022 Springer Nature

Accounting: What the Numbers Mean, 6e, by Marshall/McManus/Viele is written to meet the needs of those students who will not be accountants but who do need to understand accounting, the language of business, in order to effectively participate in activities such as planning, control, and decision-making. Marshall takes readers through the basics: what accounting information is, what it means, and how it is used. In using this text, students examine financial statements and discover what they do and do not communicate. This enables them to gain the crucial decision-making and problem-solving skills they need in order to succeed in a professional environment.

"Deserves a spot next to Fast Food Nation and To Kill a Mockingbird in America's high school curriculums. To say it may save lives is self-evident." -New York Times Book Review (Editor's Choice) **NEW YORK TIMES BESTSELLER • A BEST BOOK OF THE YEAR:** San Francisco Chronicle, Christian Science Monitor, Kirkus, Winnipeg Free Press One of the decade's most original and masterfully reported books, *A Deadly Wandering* by Pulitzer Prize-winning New York Times journalist Matt Richtel interweaves the cutting-edge science of attention with the tensely plotted story of a mysterious car accident and its aftermath to answer some of the defining questions of our time: What is technology doing to us? Can our minds keep up with the pace of change? How can we find balance? On the last day of summer, an ordinary Utah college student named Reggie Shaw fatally struck two rocket scientists while texting and driving along a majestic stretch of highway bordering the Rocky Mountains. *A Deadly Wandering* follows Reggie from the moment of the tragedy, through the police investigation, the state's groundbreaking prosecution, and ultimately, Reggie's wrenching admission of responsibility. Richtel parallels Reggie's journey with leading-edge scientific findings on the impact technology has on our brains, showing how these devices play to our deepest social instincts. A propulsive read filled with surprising scientific detail, riveting narrative tension, and rare emotional depth, *A Deadly Wandering* is a book that can change—and save—lives.

Do you overspend? Undersave? Keep secrets about money from a spouse or family member? Are you anxious about dealing with your finances? If so, you are not alone. Let's face it—just about all of have complicated, if not downright dysfunctional, relationships with money. As Drs. Brad and Ted Klontz, a father and son team of pioneers in the emerging field of financial psychology explain, our disordered relationships with money aren't our fault. They don't stem from a lack of knowledge or a failure of will. Instead, they are a product of subconscious beliefs and thought patterns, rooted in our childhoods, that are so deeply ingrained in us, they shape the way we deal with money our entire adult lives. But we are not powerless. By looking deep into ourselves and our pasts, we can learn to recognize these negative and self-defeating patterns of thinking, and replace them with better, healthier ones. Drawing on their decades of experience helping patients resolve their troubling issues with money, the Klontzes and describe the twelve most common "money disorders" - like financial infidelity, money avoidance, compulsive shopping, financial enabling, and more - and explain how we can learn to identify them, understand their root causes, and ultimately overcome them. So whether you want to learn how to make better financial decision, have more open

communication with your spouse or kids about the family finances, or simply be better equipped to deal with the challenges of these tough economic times, this book will help you repair your dysfunctional relationship with money and live a healthier financial life.

Customary International Humanitarian Law, Volume I: Rules is a comprehensive analysis of the customary rules of international humanitarian law applicable in international and non-international armed conflicts. In the absence of ratifications of important treaties in this area, this is clearly a publication of major importance, carried out at the express request of the international community. In so doing, this study identifies the common core of international humanitarian law binding on all parties to all armed conflicts. Comment Don:RWI.

Ethical Obligations and Decision-Making in Accounting

"Fundamental Managerial Accounting Concepts" 4e by Edmonds/Edmonds/Tsay/Olds focuses on concepts that are isolated and introduced in a logical sequence. The authors intentionally limit the scope of the material to help students build a solid foundation of the most important concepts in managerial accounting. "Fundamental Managerial Accounting Concepts" 4e is organized in a distinctive way, particularly in the first six chapters. The objective is to establish a coherent, integrative framework that enables students to build knowledge in stepwise fashion. The authors' goal is for students to understand the underlying principles of accounting, not just memorize content.
