Intangible assets with  
definite lives are  
amortized, using the  
straight-line method,  
over the shorter of their  
economic life or legal life,  
subject to IFRS  
(generally accepted  
accounting principles).  
Amortization is the same  
concept as depreciation  
only we call it a different  
name because it refers to  
intangible assets.
