Algebra and Trigonometry W. W. Norton

Attending Hamburger University, Robin Leidner observes how McDonald's trains the managers of its fast-food restaurants to standardize every aspect of service and product. Learning how to sell life insurance at a large midwestern firm, she is coached on exactly what to say, how to stand, when to make eye contact, and how to build up Positive Mental Attitude by chanting "I feel happy! I feel terrific!" Leidner's fascinating report from the frontlines of two major American corporations uncovers the methods and consequences of regulating workers' language, looks, attitudes, ideas, and demeanor. Her study reveals the complex and often unexpected results that come with the routinization of service work. Some McDonald's workers resent the constraints of prescribed uniforms and rigid scripts, while others appreciate how routines simplify their jobs and give them psychological protection against unpleasant customers. Combined Insurance goes further than McDonald's in attempting to standardize the workers' very selves, instilling in them adroit maneuvers to overcome customer resistance. The routinization of service work has both poignant and preposterous consequences. It tends to undermine shared understandings about individuality and social obligations, sharpening

the tension between the belief in personal autonomy and the domination of a powerful corporate culture. Richly anecdotal and accessibly written, Leidner's book charts new territory in the sociology of work. With service sector work becoming increasingly important in American business, her timely study is particularly welcome.

World History Since 1400 Macmillan Higher Education
A “ searching and emotionally intimate memoir ” (The New York Times) told with a candor never before undertaken by a sitting Justice. This “ powerful defense of empathy ” (The Washington Post) is destined to become a classic of self-invention and self-discovery. The first Hispanic and third woman appointed to the United States Supreme Court, Sonia Sotomayor has become an instant American icon. In this story of human triumph that “ hums with hope and exhilaration ” (NPR), she recounts her life from a Bronx housing project to the federal bench, a journey that offers an inspiring testament to her own extraordinary determination and the power of believing in oneself. Here is the story of a precarious childhood, with an alcoholic father (who would die when she was nine) and a devoted but overburdened mother, and of the refuge a little girl took from the turmoil at home with her passionately spirited paternal grandmother. But it was when she was diagnosed with juvenile diabetes that the precocious Sonia recognized she must ultimately depend on herself. She would learn to give herself the insulin shots she needed to survive and soon imagined a path to a different life. With only television characters for her professional role models, and little understanding of what was involved, she determined to become a lawyer, a dream that would sustain her on an unlikely course, from valedictorian of her high school class to the highest honors at Princeton, Yale Law School, the New York County District Attorney ’ s office, private practice, and

appointment to the Federal District Court before the age of forty. Along the way we see how she was shaped by her invaluable mentors, a failed marriage, and the modern version of extended family she has created from cherished friends and their children. Through her still-astonished eyes, America ’ s infinite possibilities are envisioned anew in this warm and honest book.

They also represent six eras that span the course of civilization—from the adoption of agriculture, to the birth of cities, to the advent of globalization. *A History of the World in 6 Glasses* tells the story of humanity from the Stone Age to the twenty-first century through each epoch's signature refreshment. Bernard M. Baruch - one of the most remarkable men of our time - was an office boy at nineteen, a Wall Street partner at twenty-five, and a millionaire before he was thirty-five. For some men this success would mark the climax of a career; for Baruch it was only the beginning of a still greater one. In the fifty years since he made his first fortune, Bernard Baruch has been a trusted counselor of Presidents, an adviser on social and economic reforms, a statesman who has worked with two political parties and won the respect of both. In this, the first volume of his memoirs, Mr. Baruch analyzes his personal philosophy and shows how it helped him solve the many problems that confronted him in his public life as chairman of the War Industries Board during World War I and as United States representative on the United Nations Atomic Energy Commission. Informal yet penetrating, intimate yet never losing sight of major events and issues, *BARUCH: My Own Story* is infused with the remarkable personality of a truly distinguished American.
