Lotus Elise and Exige 1995-2020: The Complete Story

Rosetta Books

Named after Elisa, the granddaughter of Lotus's owner at the time, Romano Artioli of Bugatti fame, the Lotus Elise was launched at the Frankfurt Show in 1995. In the subsequent twenty-five years it has not only established itself as the embodiment of what Lotus stands for, it retains a unique place in the international sports car market. No other manufacturer came up with a car to seriously rival the Elise, nor the Exige, in terms of handling dexterity on both road and racetrack, and it aptly characterizes the definition of a sports car. Written in Johnny Tipler's inimitable style this book includes a detailed evolution of the Elise and Exige, including full specification tables; interviews with key individuals involved in their design and development, including Richard Rackham, Gavan Kershaw, Neil Thomas, Russell Carr, Barney Hatt and Andy Pleavin; Elisa Artioli on her namesake, its past and future; motor sport adaptations and successes and finally, driving experiences on road and track. The production of the Elise and Exige was sustained through four corporate upheavals. Now in Geely ownership, the future for Lotus looks bright.

Popular Mechanics The Crowood Press

This eBook collects 50 years of articles and reviews on the iconic American sportscar from the experts at Road & Track. Nothing says America like the Ford Mustang, the original pony car and the country's most beloved sporting machine. This fully illustrated volume, pulled from the pages of Road & Track, documents the rise of this automotive icon—the brainchild of crude engineering, modern styling, and fantastic marketing. This eBook looks back across 50 years of coverage, from recaps of Ford's game-changing win at Le Mans in 1966 to the dark years of the Mustang II. There are road tests, comparisons, and reviews from the R&T archives. Taken as a whole, this half-century of automotive journalism demonstrates why the car that defined a generation continues to mean so much to so many.

Popular Mechanics

The volume includes selected and reviewed papers from the 3rd Conference on Ignition Systems for Gasoline Engines in Berlin in November 2016. Experts from industry and universities discuss in their papers the challenges to ignition systems in providing reliable, precise ignition in the light of a wide spread in mixture quality, high exhaust gas recirculation rates and high cylinder pressures. Classic spark plug ignition as well as alternative ignition systems are assessed, the ignition system being one of the key technologies to further optimizing the gasoline engine.
