At one magical instant in your early childhood, the page of a book—that string of confused, alien ciphers—shivered into meaning, and at that moment, whole universes opened. You became, irrevocably, a reader. Noted essayist and editor Alberto Manguel moves from this essential moment to explore the six-thousand-year-old conversation between words and that hero without whom the book would be a lifeless object: the reader. Manguel brilliantly covers reading as seduction, as rebellion, and as obsession and goes on to trace the quirky and fascinating history of the reader's progress from clay tablet to scroll, codex to CD-ROM.

This Reader brings together nearly 80 extracts from the major works left by Christians and Muslims that reflect their reciprocal knowledge and attitudes. It spans the period from the early 7th century, when Islam originated, to 1500. The general introduction provides a historical and geographical summary of Christian-Muslim encounters in the period and a short account of the religious, intellectual and social circumstances in which encounters took place and works were written. Nearly all the translations are new, and a map is provided. Each of the six parts contains the following pedagogical features: -A short introduction -An introduction to each passage and author -Notes explaining terms that readers might not have previously encountered On the Christian side topics include: condemnations of the Qur'an as a fake and Muhammad as a fraud, depictions of Islam as a sign of the final judgement, and proofs that it was a Christian heresy. On the Muslim side they include: demonstrations of the Bible as corrupt, proofs that Christian doctrines were illogical, comments on the inferior status of Christians, and accounts of Christian and Muslim scholars in collaboration together.

This book examines Tangut translations of secular Chinese texts excavated from the ruins of Khara-khoto. After providing an overview of Tangut history and an introduction to the emergence of the field of Tangut studies, it presents four case studies grouped around different themes. A central concern of the book is the phenomenon of Tangut appropriation of Chinese written culture through translation and the reasons behind this.

"Shines a floodlight on a topic that has been cloaked in obscurity . . . a landmark work in both intellectual history and political theory" (The Wall Street Journal). Philosophical esotericism—the practice of communicating one's unorthodox thoughts "between the lines"—was a common practice until the end of the eighteenth century. Despite its long and well-documented history, however, esotericism is often dismissed today as a rare occurrence. But by ignoring esotericism, we risk cutting ourselves off from a full understanding of Western philosophical thought. Walking readers through both an ancient (Plato) and a modern (Machiavelli) esoteric work, Arthur M. Melzer explains what esotericism is—and is not. It relies not on secret codes, but simply on a more intensive use of familiar rhetorical techniques like metaphor, irony, and insinuation. Melzer explores the various motives that led thinkers in different times and places to engage in this strange practice,

while also exploring the motives that lead more recent thinkers not only to dislike and avoid this practice but to deny its very existence. In the book's final section, "A Beginner's Guide to Esoteric Reading," Melzer turns to how we might once again cultivate the long-forgotten art of reading esoteric works. The first comprehensive, book-length study of the history and theoretical basis of philosophical esotericism, *Philosophy Between the Lines* is "a treasure-house of insight and learning. It is that rare thing: an eye-opening book . . . By making the world before Enlightenment appear as strange as it truly was, [Melzer] makes our world stranger than we think it is" (George Kateb, Professor of Politics, Emeritus, at Princeton University). "Brilliant, pellucid, and meticulously researched." —City Journal

The Ismaili Muslims, who belong to the Shia branch of Islam, live in over 25 different countries around the world, mainly in Asia, Africa and the Middle East. Their history has typically been linked to the history of the various countries in which they live, but the worldwide community is united under Prince Karim Aga Khan, the spiritual leader and 49th Imam of the Ismaili Muslims. Few fields of Islamic studies have witnessed as drastic a change as Ismaili studies, due in part to the recent discovery of numerous historical texts, and author Farhad Daftary makes extensive use of these new sources in the *Historical Dictionary of the Ismailis*. This comprehensive new reference work is the first of its kind on the Ismailis and presents a summary of the findings of modern scholarship on the Ismaili Shia Muslims and different facets of their heritage. The dictionary covers all phases of Ismaili history as well as the main doctrines of the community. It includes an introductory chapter, which provides a broad historical survey of the Ismailis, followed by alphabetical entries on all major aspects of the community, such as key figures, institutions, traditions, and doctrines. It also contains a chronology, genealogical tables, a glossary, and a substantial bibliography. This book is an excellent access point for students, researchers, and anyone wanting to know more about the Ismailis."
