The Multiplayer Classroom: Game Plans is a companion to The Multiplayer Classroom: Designing Coursework as a Game, now in its second edition from CRC Press. This book covers four multiplayer classroom projects played in the real world in real time to teach and entertain. They were funded by grants or institutions, collaborations between Lee Sheldon, as writer/designer, and subject matter experts in various fields. They are written to be accessible to anyone--designer, educator, or layperson--interested in game-based learning. The subjects are increasingly relevant in this day and age: physical fitness, Mandarin, cybersecurity, and especially an online class exploring culture and identity on the internet that is unlike any online class you have ever seen. Read the annotated, often-suspenseful stories of how each game, with its unique challenges, thrills, and spills, was built. Lee Sheldon began his writing career in television as a writer-producer, eventually writing more than 200 shows ranging from Charlie's Angels (writer) to Edge of Night (head writer) to Star Trek: The Next Generation (writer-producer). Having written and designed more than forty commercial and applied video games, Lee spearheaded the first full writing for games concentration in North America at Rensselaer Polytechnic Institute and the second writing concentration at Worcester Polytechnic Institute. He is a regular lecturer and consultant on game design and writing in the United States and abroad. His most recent commercial game, the award-winning The Lion's Song, is currently on Steam. For the past two years he consulted on an "escape room in a box," funded by NASA, that gives visitors to hundreds of science museums and planetariums the opportunity to play colonizers on the moon. He is currently writing his second mystery novel.

Optical Impersonality will appeal to scholars and advanced students of modernist literature and visual culture and to those interested in the

intersections of art, literature, science, and technology.

[A Historical Reappraisal of the Canon](#) Taylor & Francis

This book documents American modernism's efforts to disenchant adult and child readers alike of the essentialist view of childhood as redemptive, originary, and universal. For James, Barnes, Du Bois, and Stein, the twentieth century's move to position the child at the center of the self and society raised concerns about the shrinking value of maturity and prompted a critical response that imagined childhood and children's narratives in ways virtually antagonistic to both. In this original study, Michelle H. Phillips argues that American modernism's widespread critique of childhood led to some of the period's most meaningful and most misunderstood experiments with interiority, narration, and children's literature.

When Freudian sexual theory hit China in the early 20th century, it ran up against competing models of the mind from both Chinese tradition and the new revolutionary culture. Chinese theorists of the mind—both traditional intellectuals and revolutionary psychologists—steadily put forward the anti-Freud: a mind shaped not by deep interiority that must be excavated by professionals, but shaped instead by social and cultural interactions. Chinese novelists and film directors understood this focus and its relationship to Mao's revolutionary ethos, and much of the literature of twentieth-century China reflects the spiritual qualities of the revolutionary mind. From Ah Q to Lei Feng investigates the continual clash of these contrasting models of the mind provided by Freud and revolutionary Chinese culture, and explores how writers and filmmakers negotiated with the implications of each model. .

Although Habermas has written about the cultural role of literature and about literary works, he has not systematically articulated a literary-critical method as a component of either communicative reason or post-metaphysical thinking. Habermas and Literature brings Habermasian concepts and categories into contact with aesthetic and cultural theories in and around the Frankfurt School, and beyond. Its central claim is that Habermas' contribution to literary and cultural criticism is the concept of literary rationality and the notion that literature performs a key role in the formation of the modern social imaginary. Habermas and Literature maintains that literary works have two faces discursive intervention in the public sphere and personal integration of imaginative disclosures that depend upon two modalities of literary reception: critique and identification. It develops the resulting literary theory through detailed discussion of the theories advanced by Habermas, followed in each case by synthetic and reconstructive argumentation that brings the framework of communicative reason into dialogue with literary methods, aesthetic theories and psychoanalytic categories. It does so through close engagement with debates around aesthetic rationality, world disclosure, social imaginaries, post-secular society and the utopian demand for happiness articulated by artworks. In the process, the Habermasian position is critically reconstructed when necessary, with reference to psychoanalytic and literary

theories, and tested, in relation to demanding fiction and popular works.

Science, Images, and Literary Modernism Columbia University Press

Using a cognitive approach to literature, this book uncovers representations of self-consciousness in selected modern British novels, exposing it as complicating character development. Miller provides new readings of works by Conrad, Joyce, and D.H. Lawrence to demonstrate the emergence of a self who feels split from the world.

Habermas and Literature Springer Science & Business Media

It's surprising that the term "heterosexuality" is less than 150 years old and that heterosexuality's history has never before been written, given how obsessed we are with it. In *Straight*, independent scholar Hanne Blank delves deep into the contemporary psyche as well as the historical record to chronicle the realm of heterosexual relations--a subject that is anything but straight and narrow. Consider how Catholic monasticism, the reading of novels, the abolition of slavery, leisure time, divorce, and constipation of the bowels have all at some time been labeled enemies of the heterosexual state. With an extensive historical scope and plenty of juicy details and examples, *Straight* provides a fascinating look at the vagaries, schisms, and contradictions of what has so often been perceived as an irreducible fact of nature.

The British National Bibliography CRC Press

The Companion combines a broad grounding in the essential texts and contexts of the modernist movement with the unique insights of scholars whose careers have been devoted to the study of modernism. An essential resource for students and teachers of modernist literature and culture Broad in scope and comprehensive in coverage Includes more than 60 contributions from some of the most distinguished modernist scholars on both sides of the Atlantic Brings together entries on elements of modernist culture, contemporary intellectual and aesthetic movements, and all the genres of modernist writing and art Features 25 essays on the signal texts of modernist literature, from James Joyce's *Ulysses* to Zora Neal Hurston's *Their Eyes Were Watching God* Pays close attention to both British and American modernism

Gender and Sexuality Bloomsbury Publishing USA

The ideas of psychoanalyst Otto Gross (1877 – 1920) have had a seminal influence on the development of the psychoanalytic discipline and yet his work has been largely overlooked. *Sexual Revolutions* introduces the work of Otto Gross to the academic and clinical fields of psychoanalysis and Jungian Analysis.

Gendering Modernism Routledge

"While the personality cult of Pablo Picasso still holds sway over his popular reputation, the force of his work has fallen into disuse. In this groundbreaking and ambitious study, C. F. B. Miller uses that force to undo and remake our understanding of the twentieth century's most legendary artist. By critiquing this legend and showing how, even now, the art itself disrupts received ideas, *Radical Picasso* rethinks Picasso's function in the history of modernism. Presenting a fresh account of cubism as an art of negativity and excess, Miller juxtaposes early cubist painting with G. W. F. Hegel, high cubism with Plato and his critics, and 'synthetic' cubism with Walter Benjamin. The 'guitar' assemblages of 1926 radicalize collage, taking up the racialized and gendered remainders of modernist aesthetics. Next to surrealism, Picasso's sexuality becomes a

biopolitical problem, while the Crucifixion of 1930, and the Picasso myth at large, intersect with the writings of Georges Bataille. At the same time we see how, from his arrival in the art market to the games he played with his self-image in the 1950s, Picasso exploited the very fictions of genius that today determine his posthumous brand. Ultimately, in deconstructing the institution we call 'Picasso,' *Radical Picasso* retrieves his art from misrepresentation and argues for its continuing use value as a means of thought"--

The Short Story Cycles of Sherwood Anderson and Jean Toomer SAGE

Exploring how the modern novel's complex depictions of parenthood restructure traditional conceptions of the Romantic sublime, Erin K. Johns Speese shows how William Faulkner, E.M. Forster, D.H. Lawrence, and Virginia Woolf use related strategies to rewrite the traditional sublime as an intersubjective experience. Speese shows that this reframing depends on the recognition of social objectification and an ethics of reciprocal empathy between mothers and fathers. She juxtaposes traditional aesthetics and Slavoj Žižek's concept of the sublime object of ideology with recent theoretical work regarding identity, arguing that these modern novelists construct what she terms a "sublime subject," that is, a person who functions in the space of the traditional sublime object. In revealing the possibility of transcendent emotional connection over reason, these novelists critique the objectification of the other in favor of a sublime experience that reveals the subject-shattering power of empathy.

Europe's Third Renaissance, the Second Scientific Revolution and the Twentieth Century Cambridge University Press

This accessible introduction to gender and sexuality theory offers a comprehensive overview and critique of the key contemporary literature and debates in feminism, sexuality studies and men's studies. Chris Beasley's clear and concise introduction combines a wide-ranging survey of the major theorists and key concepts in an ever-growing and often passionately debated field. The book contextualizes a wide range of feminist perspectives, including: modernist, liberal, postmodern, queer and gender difference feminism; and in the realm of sexuality studies covers modernist liberationism, social constructionism, transgender theorising and queer theory. In men's studies, Chris Beasley examines areas of debate ranging from gender and masculinity to questions of race, ethnicity, imperialism and gay masculinities. Interconnections between the subfields are highlighted, and Beasley considers the implications of body theory for all three. Key theorists covered include: Altman · Brod · Butler · Califia · Carbado · Connell · Dowsett · Grosz · Halberstam · Hook · Jackson · Jagose · Nussbaum · Rich · Seidman · Spivak · Stoltenberg · Weeks · Whittle · Wolf · Wollstonecraft The only book of its kind to draw together all the important strands of gender analysis, *Gender and Sexuality* is a timely and impressive overview that is invaluable to students and academics taking courses on gender and feminist theory, sexuality and masculinity.

The SAGE Encyclopedia of Theory in Counseling and Psychotherapy is a two-volume source that traces theory and examines the beginnings of counseling and psychotherapy all the way to current trends and movements. This

---

reference work draws together a team of international scholars that examine the global landscape of all the key counseling and psychotherapy theories and the theorists behind them while presenting them in context needed to understand their strengths and weaknesses. This is a quick, one-stop source that gives the reader the “ who, what, where, how, and why ” of contemporary counseling and psychotherapy theory. From historical context in which the theories were developed to the theoretical underpinnings which drive the theories, this reference encyclopedia has detailed and relevant information for all individuals interested in this subject matter. Features & Benefits: Approximately 335 signed entries fill two volumes available in a choice of print or electronic formats. Back matter includes a Chronology of theory within the field of counseling to help students put individual theories within a broader context. A Master Bibliography and a Resource Guide to key books, journals, and organizations guide students to further resources beyond the encyclopedia. The Reader ’ s Guide, a detailed Index and the Cross References combine for effective search-and-browse in the e-version and helps students take the next steps in their research journeys. This reference encyclopedia serves as an excellent source for any individual interested in the roots of contemporary counseling and psychotherapy theory. It is ideal for the public and professionals, as well as for students in counselor education programs especially those individuals who are pursuing a Masters level degree.

### The Quest for Cultural Regeneration Springer

A comprehensive reference presents over five hundred full essays on authors and a variety of topics, including censorship, genre, patronage, and dictionaries.

### Representations of Childhood in American Modernism Peter Lang

Bloomsbury, Modernism, and the Reinvention of Intimacy integrates studies of six members and associates of the Bloomsbury group into a rich narrative of early twentieth century culture, encompassing changes in the demographics of private and public life, and Freudian and sexological assaults on middle-class proprieties Jesse Wolfe shows how numerous modernist writers felt torn between the inherited institutions of monogamy and marriage and emerging theories of sexuality which challenged Victorian notions of maleness and femaleness. For Wolfe, this ambivalence was a primary source of the Bloomsbury writers' aesthetic strength: Virginia Woolf, D. H. Lawrence, and others brought the paradoxes of modern intimacy to thrilling life on the page. By combining literary criticism with forays into philosophy, psychoanalysis, sociology, and the avant-garde art of Vienna, this book offers a fresh account of the reciprocal relations between culture and society in that key site for literary modernism known as Bloomsbury.

### Freud and Revolutionary Spirit in 20th Century China Routledge

From August 29 to September 21, 1909, Sigmund Freud visited the United States, where he gave five lectures at Clark University in Worcester, Massachusetts. This volume brings together a stunning gallery of leading historians of psychoanalysis and of American culture to consider the broad history of psychoanalysis in America and to reflect on what has happened to Freud ’ s legacy in the United States in the century since his visit. There has been a flood of recent scholarship on Freud ’ s life and on the European and world history of psychoanalysis, but historians have produced relatively little on the proliferation of psychoanalytic thinking in the United States, where Freud ’ s work had monumental intellectual and social impact. The essays in *After Freud Left* provide readers with insights and perspectives to help them understand the uniqueness of Americans ’ psychoanalytic thinking, as well as the forms in which the legacy of Freud remains active in the United States in the twenty-first century. *After Freud Left* will be essential reading for anyone interested in twentieth-century American history, general intellectual and cultural history, and psychology and psychiatry.
