Divination, the use of special talents and techniques to gain divine knowledge, was practiced in many different forms in ancient Israel and throughout the ancient world. The Hebrew Bible reveals a variety of traditions of women associated with divination. This sensitive and incisive book by respected scholar Esther J. Hamori examines the wide scope of women ' s divinatory activities

as portrayed in the Hebrew texts, offering readers a new appreciation of the surprising breadth of women ' s " arts of knowledge " in biblical times. Unlike earlier approaches to the subject that have viewed prophecy separately from other forms of divination, Hamori ' s study encompasses the full range of divinatory practices and the personages who performed them, from the female prophets and the medium of En-dor to the matriarch who interprets a birth

omen and the " wise women " of Tekoa and Abel and more. In doing so, the author brings into clearer focus the complex, rich, and diverse world of ancient Israelite divination. Longevity, a few tips... W. W. Norton & Company

Several view of martyrdom co-existed in the early Church. The 'orthodox' position, generally accepted by scholars, was that a Christian should choose martyrdom rather than

deny the Faith, but should not, on any account, court death. Although it has been recognised that some in the early Church did seek a glorified death, by giving themselves over to arrest, most scholars have dismissed such acts as differing from 'the accepted attitude to martyrdom' in the early Church. Therefore, instances of volitional, or radical martyrdom,

have been largely overlooked or sidelined in scholarly investigations into the theology and origins of Christian martyrdom. Paul Middleton argues that, far from being a deviant strand of early Christianity, 'radical martyrdom' was a significant, and widely held idealised form of devotion in the late first to early third centuries. Christian

martyrdom is placed within the heritage of Jewish War tradition, with each martyr making an important contribution to the cosmic conflict between Satan and God. Radical Martyrdom re-examines the presentation, theology, and origins of Christian martyrdom up to the beginning of the Decian persecutions in the light of new perspectives on the subject.

Routledge
A historical
analysis of
the General
Strike of
1919 in
Seattle On a
grey winter
morning in
Seattle, in
February
1919, 110
local unions
shut down the
entire city.
Shut it down
and took it
over,
rendering the
authorities
helpless. For
five days,
workers from
all trades
and sectors -
streetcar
drivers,
telephone

operators,
musicians,
miners,
loggers,
shipyard
workers - fed
the people,
ensured that
babies had
milk, that
the sick were
cared for.
They did this
with without
police - and
they kept the
peace
themselves.
This had
never
happened
before in the
United States
and has not
happened
since. Those
five days
became known
as the
General

Strike of
Seattle.
Chances are
you've never
heard of it.
In Radical
Seattle, Cal
Winslow
explains why.
Winslow
describes how
Seattle's
General
Strike was
actually the
high point in
a long
process of
early
twentieth
century
socialist and
working-class
organization,
when everyday
people built
a viable
political
infrastructur
e that

seemed, to governments and corporate bosses, radical - even "Bolshevik." Drawing from original research, Winslow depicts a process that, in struggle, fused the celebrated itinerants of the West with the workers of a modern industrial city. But this book is not only an account of the heady days of February 1919; it is also about

the making of a class capable of launching one of America's most gripping strikes - what E.P. Thompson once referred to as "the long tenacious revolutionary tradition of the common people." Reading this book might increase the chance that something like this could happen again - possibly in the place where you live.

Kaufman traces Guthrie's political activism and influence on the American and international protest song movement from the Great Depression to McCarthyism. Utilizing a wealth of previously unseen archival materials such as letters, song lyrics, essays, personal reflections, photos and other manuscripts, Woody Guthrie, American Radical introduces a heretofore unknown Woody Guthrie: the canny political strategist, fitful thinker and cultural front activist practically buried in the general public's romantic celebration of the "Dust Bowl Troubadour."

John Wiley & Sons
In his Second Inaugural Address,

delivered as the nation was in the throes of the Civil War, Abraham Lincoln proclaimed that both sides "read the same Bible and pray to the same God, and each invokes His aid against the other." He wasn't speaking metaphorically: the Bible was frequently wielded as a weapon in support of both North and South. As James P. Byrd reveals in this insightful narrative, no book was more important to the Civil War than the Bible. From Massachusetts to Mississippi and beyond, the Bible was the nation's most read and respected book. It

presented a drama of salvation and damnation, of providence and judgment, of sacred history and sacrifice. When Americans argued over the issues that divided them -- slavery, secession, patriotism, authority, white supremacy, and violence -- the Bible was the book they most often invoked. Soldiers fought the Civil War with Bibles in hand, and both sides called the war just and sacred. In scripture, both Union and Confederate soldiers found inspiration for dying-and for killing-on a scale never before seen in the nation's history.

With approximately 750,000 fatalities, the Civil War was the deadliest of the nation's wars, leading many to turn to the Bible not just to fight but to deal with its inevitable trauma. A fascinating overview of religious and military conflict, *A Holy Baptism of Fire and Blood* draws on an astonishing array of sources to demonstrate the many ways that Americans enlisted the Bible in the nation's bloodiest, and arguably most biblically-saturated conflict. Radicals is Saul Alinsky's impassioned counsel to young radicals on how to effect constructive social change and know " the difference between being a realistic radical and being a rhetorical one. " Written in the midst of radical political developments whose direction Alinsky was one of the first to question, this volume exhibits his style at its best. Like Thomas Paine before him, Alinsky was able to combine, both in his person and his writing, the

intensity of political engagement with an absolute insistence on rational political discourse and adherence to the American democratic tradition. Encyclopaedia Londinensis Yale University Press Radical Parliamentarians and the English Civil War charts the way the English civil war of the 1640s mutated into a revolution, in turn paving the way for the later execution of King Charles I and the abolition of the monarchy. Focusing on parliament's most militant supporters,

David Como reconstructs the origins and nature of the most radical forms of political and religious agitation that erupted during the war, tracing the process by which these forms gradually spread and gained broader acceptance. Drawing on a wide range of manuscript and print sources, the study situates these developments within a revised narrative of the period, revealing the emergence of new practices and structures for the conduct of politics. In the process, the book illuminates the eruption of many of the period's

strikingly novel intellectual currents, including assumptions and practices we today associate with western representative democracy; notions of retained natural rights, religious toleration, freedom of the press, and freedom from arbitrary imprisonment. The study also chronicles the way that civil war shattered English protestantism - leaving behind myriad competing groupings, including congregationalists, baptists, antinomians, and others - while examining the relationship between

this religious fragmentation and political change. It traces the gradual appearance of openly anti-monarchical, republican sentiment among parliament's supporters. Radical Parliamentarians and the English Civil War provides a new history of the English civil war, enhancing our understanding of the dramatic events of the 1640s, and shedding light on the long-term political and religious consequences of the conflict.  Krau is serving as

Guest Editor again to provide information on complementary and alternative medicine with specific focus on herbal supplements and vitamins. Distinguished authors have contributed clinical reviews devoted to the following topics: Precautions when using Herbal Medications and Supplements; Vitamin B6 and its role in Women ' s Health; Fat Soluble Vitamins; Vitamin D: Vitamin or Hormone; Enhancing Cognitive Function with Herbal Supplements; Herbal Medications Used in Women ' s Health; Herbal Medication to Enhance or Modulate Viral Infections; Herbal Medications used to treat fevers; Traditional and

Current Use of Ginseng; Herbal Medications Used to ameliorate cardiac conditions; Cannabis, Marijuana, and CBD oil; and Highs, Lows, & Health Hazards of Herbology-A Review of Herbal Medications with Psychotropic Effects. Knowledge of this information is not easy to find in the nursing literature, and Dr. Krau believes readers will come away with valuable information on managing patients who use complementary and alternative herbal supplements and vitamins. [Confessions of a Radical Chicano Doo-Wop Singer](#) Kyle Books When the depression of the 1890s prompted

unemployed workers from Los Angeles to join a nationwide march on Washington, " Coxey ' s Army " marked the birth of radicalism in that city. In this first book to trace the subsequent struggle between the radical left and L.A. ' s power structure, Errol Wayne Stevens tells how both sides shaped the city ' s character from the turn of the twentieth century through the civil rights era. On the radical right, Los Angeles ' s business elite, supported by the Los Angeles Times, sought the destruction of the trade-union movement—defended on

the left by socialists, Wobblies, communists, and other groups. In portraying the conflict between leftist and capitalist visions for the future, Stevens brings to life colorful personalities such as Times publisher Harrison Gray Otis and Socialist mayoral candidate Job Harriman. He also re-creates events such as the 1910 bombing of the Times building, the savage suppression of the 1923 longshoremen ' s strike, and the 1965 Watts riots, which signaled that L.A. politics had become divided less along class lines than by

complex racial and ethnic differences. The book takes stock of the rivalry between right and left over the several decades in which it repeatedly flared. *Radical L.A.* is a balanced work of meticulous scholarship that pieces together a rich chronicle usually seen only in smaller snippets or from a single vantage point. It will change the way we see the history of the City of Angels. *Iron Metabolism in Infants* Penn State Press Bestselling author and respected leader offers the only book/workbook combination on the

fundamentals of faith for Spirit-empowered Christians. *Plastics and Environmental Sustainability* Oxford University Press *Blood and Fire* Berghahn Books *A Chinese-English Dictionary: v. 1* (fasc. 7) Preface, tables, and radical index. *1912 Blood and Fire* A history of Latin America spans six centuries and encompasses twenty countries as it discusses the people, events, and factors that shaped the region--including colonization, revolution, and the

struggle for political and social equality. Shelley's Radical Stages Vintage Based on long-term fieldwork, six vivid ethnographies from Colombia, India, Poland, Spain and the southern and northern U.S. address the dwindling importance of labor throughout the world. The contributors to this volume highlight the growing disconnect between labor struggles and the advancement of the greater common good, a

phenomenon that has grown since the 1980s. The collection illustrates the defeat and unmaking of particular working classes, and it develops a comparative perspective on the uneven consequences of and reactions to this worldwide project. Blood and Fire charts a course within global anthropology to address the widespread precariousness and the prevalence of insecure and informal labor in the twenty-first

century. Halo Oxford University Press Reprint of the original, first published in 1867. Radical Christian Voices and Practice Elsevier Health Sciences The Sunday Times Bestseller 'The game-changing nutritionist ripping up the weight-loss rule book.' - You Magazine 'Gabriela's tips on how to achieve a great relationship with your body are all in this book!' - EVA HERZIGOVÁ 'The cool-girl, real-world guide to
