This National Association of Rocketry handbook covers designing and building your first model rocket to launching and recovery techniques, and setting up a launch area for competition.

Electronics Buyers' Guide St. Martin's Griffin

Find Me Unafraid tells the uncommon love story between two uncommon people whose collaboration sparked a successful movement to transform the lives of

vulnerable girls and the urban poor.

With a Foreword by Nicholas Kristof. This is the story of two young people from completely different worlds: Kennedy Odede from Kibera, the largest slum in Africa, and Jessica Posner from Denver, Colorado. Kennedy foraged for food, lived on the street, and taught himself to read with old newspapers. When an American volunteer gave him the work of Mandela, Garvey, and King, teenaged Kennedy decided he was going to change his life and his community. He bought a soccer ball and started a youth empowerment group he called Shining Hope for Communities (SHOFCO). Then in 2007, Wesleyan undergraduate Jessica Posner spent a semester abroad in Kenya working with SHOFCO. Breaking all convention, she decided to live in Kibera with Kennedy, and they fell in love. Their connection persisted, and Jessica helped Kennedy to escape political violence and fulfill his lifelong dream of an education, at Wesleyan University. The alchemy of their remarkable union has drawn the support of community members and celebrities alike—The Clintons, Mia Farrow, and Nicholas Kristof are among their fans—and their work has changed the lives of many of Kibera's most vulnerable population: its girls. Jess and Kennedy founded Kibera's first tuition-free school for girls, a large, bright blue building, which stands as a bastion of hope in what once felt like a hopeless place. But Jessica and Kennedy are just getting started—they have expanded their model to connect essential services like health care, clean water, and economic empowerment programs. They've opened an identical project in Mathare, Kenya's second largest slum, and intend to expand their

remarkably successful program for change. Ultimately this is a love story about a fight against poverty and hopelessness, the transformation made possible by a true love, and the power of young people to have a deep impact on the world.

Microprocessor Data Book, Second Edition focuses on the available types of microprocessors and microcomputers, including description of internal architecture, instruction set, main electrical data, and package details of these instruments. The book first elaborates on 4-bit and 8-bit microprocessors and microcomputers. Discussions focus on Advanced Micro Devices Am2900 series, Hitachi HMCS40 series, Motorola MC6801 and MC6803, Motorola MC6809 series, Rockwell R6500/1 series, and RCA 1800 series. The text then examines 16-bit and 32-bit microprocessors and microcomputers. Topics include Intel 80286 microprocessor, Motorola 68010, Texas Instruments TMS9980, Zilog Z8000 series, Motorola 68020 processor, and National 32032. The manuscript takes a look at other support devices, peripheral device controllers, and serial I/O devices, including Motorola MC6850 ACIA, Texas Instruments TMS9902 ACC, Thomson EFCIS EF9365/6, and floppy disk controllers. The publication is a valuable source of information for computer science experts and researchers interested in microprocessors and microcomputers.

The Domino Effect Hassell Street Press

This annotated reference provides information on the copyright status of over 20,000 features, short films, television programs, and documentaries. The United States copyright system allows a film to fall into the public domain if a renewal is not filed in the twenty-eighth year after its release. Such public domain films may be used by anyone for free, but finding out which films are or are not still under copyright can be expensive and tedious. This guide alleviates that expense and drudgery by including all motion pictures registered for copyright in the 1950s, as well as 500 that were received after 1959. The book also includes an overview of the copyright system and sample certificates. All renewals of copyrights are noted, allowing readers

to clearly see which items are or are not in the public domain.

Microcomputer Dictionary Red Wheel/Weiser

The #1 New York Times Bestseller A bestselling book that is inspiring the nation: "We have written here about terrible things that we never wanted to think about again . . . Now we want the world to know: we survived, we are free, we love life." Two women kidnapped by infamous Cleveland school-bus driver Ariel Castro share the stories of their abductions, captivity, and dramatic escape On May 6, 2013, Amanda Berry made headlines around the world when she fled a Cleveland home and called 911, saying: "Help me, I'm Amanda Berry. . . . I've been kidnapped, and I've been missing for ten years." A horrifying story rapidly unfolded. Ariel Castro, a local school bus driver, had separately lured Berry, Gina DeJesus, and Michelle Knight to his home, where he kept them chained. In the decade that followed, the three were raped, psychologically abused, and threatened with death. Berry had a daughter—Jocelyn—by their captor. Drawing upon their recollections and the diary kept by Amanda Berry, Berry and Gina DeJesus describe a tale of unimaginable torment, and Pulitzer Prize – winning Washington Post reporters Mary Jordan and Kevin Sullivan interweave the events within Castro's house with original reporting on efforts to find the missing girls. The full story behind the headlines—including details never previously released on Castro's life and motivations—Hope is a harrowing yet inspiring chronicle of two women whose courage, ingenuity, and resourcefulness ultimately delivered them back to their lives and families.
