To young Christians of the world, Pope Francis has a message for you: "Christ is alive, and he wants you to be alive!" In his fourth apostolic exhortation, *Christus Vivit*, Pope Francis encapsulates the work of the 2018 synod of bishops on "Young People, The Faith, and Vocational Discernment." Pope Francis has always had a special

relationship with young people, and in his fatherly love for you he shows that: You can relate to young people in Scripture who made a difference You identify with the Christ who is always young You face difficult issues in the world today You yearn for the truth of the Gospel You are capable of amazing things when you respond to the Gospel You learn and grow with help from the faithful of all generations You need bold and creative youth ministry You can discover who God made you to be You are urged to pray for discernment *Christus Vivit* is written for and to young

people, but Pope Francis also wrote it for the entire Church, because, as he says, reflecting on our young people inspires us all. "May the Holy Spirit urge you on as you run this race. The Church needs your momentum, your intuitions, your faith. We need them! And when you arrive where we have not yet reached, have the patience to wait for us."

He's a larger than life MMA fighter. She's a quiet paralegal. The world they live in is under attack. Will they survive long enough to get their HEA? Malakai Palamo is the seventh son of a seventh son. He left his Samoan island home in search of his mate. Almost

one hundred years later, he faintly catches her scent. Kai doesn't give up until he finds her. That should be the end of it, but nothing comes easy for the Stone Society Gargoyles, and Malakai is no different. Josie Pierson has spent the last ten years living in her sister Presley's shadow. Both her sister and their father are successful lawyers, and Josie is their paralegal, working her ass off to make them look good. She's quiet, underappreciated, and constantly wishing she had what her sister has. Until she meets the man Presley wants. The man who wants Josie instead. When Drago takes his war

with the Stone Society to the next level, lives are at risk in more ways than one. Malakai and Josie rush off to Samoa to hide out, but they aren't as safe as they should be. The excitement heats up in book 13, and someone's going to get burned.

Two Alpha Gargoyles...
Urijah Aldobrand and Banyan Sorensen spend the first two hundred years of their lives together, first playing as boys, then fighting alongside each other as warriors. Urijah is searching for a female mate, denying what is in front of him his whole life. He sets off alone, in denial, leaving his best friend behind. A couple of centuries later, life has finally given Urijah what he wants until his best friend betrays him. Devastated, Uri cuts him out of his life. Banyan spends years silently loving his best friend while not so silently trying to convince

him they are mates. When they part ways, Banyan carries on, going through the motions of living as a lone male. Two hundred years later, Banyan has found a life for himself in New Orleans. When he makes a grave mistake, he loses his mate for good. War is finally upon the Stone Society. Fifty of the Clan travel to Greece for battle, but not all return home. Banyan, heir to the Norse throne, is now ready to accept the crown. Not only has he kept his promises, but a lifetime of secrets as well. Urijah, at a crossroads, decides to return home, hoping to find himself. Both ending up back in Norway surrounded by family, they each must come to terms with what the fates have in store for them. Will Uri let go of his anger and forgive his old friend? Or will

he once again turn his back on a future with his mate? West of Eden Random House Winner, 2020 Body and Embodiment Best Publication Award, given by the American Sociological Association Honorable Mention, 2020 Sociology of Sex and Gender Distinguished Book Award, given by the American Sociological Association How the female body has been racialized for over two hundred years There is an obesity epidemic in this country and poor black women are particularly stigmatized as “diseased” and a burden on the public health care system. This is only the most recent incarnation of the fear of fat black women, which Sabrina Strings shows took root more than two hundred years ago. Strings weaves together an eye-opening historical narrative ranging from the Renaissance to the current moment,

analyzing important works of art, newspaper and magazine articles, and scientific literature and medical journals—where fat bodies were once praised—showing that fat phobia, as it relates to black women, did not originate with medical findings, but with the Enlightenment era belief that fatness was evidence of “ savagery ” and racial inferiority. The author argues that the contemporary ideal of slenderness is, at its very core, racialized and racist. Indeed, it was not until the early twentieth century, when racialized attitudes against fatness were already entrenched in the culture, that the medical establishment began its crusade against obesity. An important and original work, *Fearing the Black Body* argues convincingly that fat phobia isn ’ t about health at all, but rather a means of using the body to validate race, class,

and gender prejudice. *The Female Archangels* Penguin Utopia (Libellus vere aureus, nec minus salutaris quam festivus, de optimo rei publicae statu deque nova insula Utopia, "A little, true book, both beneficial and enjoyable, about how things should be in the new island Utopia") is a work of fiction and socio-political satire by Thomas More (1478-1535), written in Latin and published in 1516. The book is a frame narrative primarily depicting a fictional island society and its religious, social, and political customs. Many aspects of More's description of Utopia are reminiscent of life in monasteries. Just before India ' s independence, a young Punjabi woman, ill at ease in her marriage and eager for personal and national freedom, sat down with psychiatrist Dev Satya Nand for an experiment in his new method of dream analysis. The published analysis documents a surge of emotion and reflections on sexuality, gender, marriage, ambition, trauma, and art.

“ Mrs. A. ” (as she is known) turned to female figures from Hindu myth to reimagine her social world and its ethical arrangements, envisioning a future beyond marriage, colonial rule, and gendered constraints. This book explores the conversation between Mrs. A. and Satya Nand, its window onto gender and sexuality in late colonial Indian society, and the ways Mrs. A. put ethics in motion, creating alternatives to ideals of belonging, recognition,

and consciousness. It finds in Mrs. A. ' s musings repertoires for the creative transformation of ideals and explores the possibilities of thinking with a dynamic concept of counter-ethics. An unconventional history of gender and sexuality in late colonialism, this book reminds us that the west did not invent feminism, that psychiatry ' s history of innovation and creativity is global, and that ethical thinking does not need to center on western myths or paradigms.

The definitive sequel to New York Times bestseller *How the Scots Invented the Modern World* is a magisterial account of how the two greatest thinkers of the ancient world, Plato and Aristotle, laid the foundations of Western culture—and how their rivalry shaped the essential features of our culture down to the present day. Plato came from a wealthy, connected Athenian family and lived a comfortable upper-class lifestyle until he met an odd little man named Socrates, who showed him a new world of ideas and ideals.

Socrates taught Plato that a man must use reason to attain wisdom, and that the life of a lover of wisdom, a philosopher, was the pinnacle of achievement. Plato dedicated himself to living that ideal and went on to create a school, his famed Academy, to teach others the path to enlightenment through contemplation. However, the same Academy that spread Plato's teachings also fostered his greatest rival. Born to a family of Greek physicians, Aristotle had learned early on the value of observation and hands-on experience. Rather than rely on pure contemplation, he insisted that the truest path to knowledge is through empirical discovery and exploration of the world around us. Aristotle, Plato's most brilliant pupil, thus settled on a philosophy very different from his instructor's and launched a rivalry with profound effects on Western culture. The two men disagreed on the fundamental purpose of the philosophy. For Plato, the image of the cave summed up man's destined path, emerging from the

darkness of material existence to the light of a higher and more spiritual truth. Aristotle thought otherwise. Instead of rising above mundane reality, he insisted, the philosopher's job is to explain how the real world works, and how we can find our place in it. Aristotle set up a school in Athens to rival Plato's Academy: the Lyceum. The competition that ensued between the two schools, and between Plato and Aristotle, set the world on an intellectual adventure that lasted through the Middle Ages and Renaissance and that still continues today. From Martin Luther (who named Aristotle the third great enemy of true religion, after the devil and the Pope) to Karl Marx (whose utopian views rival Plato's), heroes and villains of history have been inspired and incensed by these two master philosophers—but never outside their influence. Accessible, riveting, and eloquently written, *The Cave and the Light* provides a stunning new perspective on the Western world, certain to open eyes and stir debate. A brilliant and impassioned biography of one of the founding fathers of humanism, from one of its greatest defenders in the 20th century. Written during the Second World War, Zweig's typically passionate and readable biography of Michel de Montaigne, is also a heartfelt argument for the importance of intellectual freedom, tolerance and humanism. Zweig draws strong parallels between Montaigne's age, when Europe was torn in

two by conflict between Catholicism and Protestantism, and his own, in which the twin fanaticisms of Fascism and Communism were on the verge of destroying the pan-continental liberal culture he was born into, and loved dearly. Just as Montaigne sought to remain aloof from the factionalism of his day, so Zweig tried to the last to defend his freedom of thought, and argue for peace and compromise. One of the final works Zweig wrote before his suicide, this is both a brilliantly impassioned portrait of a great mind, and a moving plea for tolerance in a world ruled by cruelty. At the intersection of two

sweeping global trends—the rise

of popular support for principles

of theocratic governance and the

spread of constitutionalism and

judicial review—a new legal

order has emerged: constitutional

theocracy. It enshrines religion

and its interlocutors as “ a ” or

“ the ” source of legislation, and

at the same time adheres to core

ideals and practices of modern

constitutionalism. A unique

hybrid of apparently conflicting

worldviews, values, and interests,

constitutional theocracies thus

offer an ideal setting—a “ living

laboratory ” as it were—for

studying constitutional law as a

form of politics by other means.

In this book, Ran Hirschl

undertakes a rigorous

comparative analysis of religion-

and-state jurisprudence from

dozens of countries worldwide to

explore the evolving role of

constitutional law and courts in a

non-secularist world.

Counterintuitively, Hirschl argues that the constitutional enshrinement of religion is a rational, prudent strategy that allows opponents of theocratic governance to talk the religious talk without walking most of what they regard as theocracy's unappealing, costly walk. Many of the jurisdictional, enforcement, and cooptation advantages that gave religious legal regimes an edge in the pre-modern era, are now aiding the modern state and its laws in its effort to contain religion. The "constitutional" in a constitutional theocracy thus fulfills the same restricting function it carries out in a constitutional democracy: it brings theocratic governance under check and assigns to constitutional law and courts the task of a bulwark against the threat of radical religion.

With Christianity as a counterpoint, Feldmeier explores the spirituality and

theology of Christianity, mysticism, Judaism, Islam, Buddhism, Hinduism, Zen, the Chinese spirit, indigenous traditions, and the New Age movement. The text provides a model for how religious traditions are more powerfully experienced and learned in interrelationship than in isolation. In the process, Feldmeier provides opportunities and inspiration for investigating and reflecting on one's own religious beliefs.--From publisher's description.
