This Book has comprehensive General Knowledge about West Bengal for the Candidates of Various Competitive Exams

West Bengal General Knowledge Upkar Prakashan

Kirk Douglas's skilful and passionate autobiography charts the rise of the son of an illiterate Russian-Jewish ragman who became a Hollywood legend. With unflinching humour and frankness he reveals the inside story of more than forty years of stardom, alongside Sinatra, Wayne and Olivier - and his relationships with movie goddesses like Crawford, Hayworth and Dietrich. Rich in unforgettable anecdotes that capture the true spirit of the golden years of Hollywood and Broadway, this is an autobiography that reads like a novel, narrated by the unmistakable voice of a true superstar.

Voice Data Logger YOUTH COMPETITION TIMES

The purpose of this manual is to provide guidelines for calculation of the bearing capacity of soil under shallow and deep foundations supporting various types of structures and embankments. This manual is intended as a guide for determining allowable and ultimate bearing capacity. It is not intended to replace the judgment of the design engineer on a particular project. Principles for evaluating bearing capacity presented in this manual are applicable to numerous types of structures such as buildings and houses, towers and storage tanks, fills, embankments and dams. These guidelines may be helpful in determining soils that will lead to bearing capacity failure or excessive settlements for given foundations and loads.

We spend most of our lives in buildings and almost every building is unique. The purpose of this book is to explain what buildings are and to provide an integrated overview of how they are built and sustained. The book does not presume any specialist knowledge of buildings, seeking instead to explain why the different groups involved in designing, constructing, managing and occupying them follow certain procedures. It is particularly concerned with the generation and circulation of information between these groups. In taking this view, the book considers the recommendations of Sir Michael Latham's 1994 report Constructing the Team which called for better cohesion and communication between specialists in the construction industry.
