It is, perhaps, the fifteenth century and the ordered
tranquillity of a Mediterranean island is about to be
shattered by the appearance of two outsiders: one, a
castaway, plucked from the sea by fishermen, whose
beliefs represent a challenge to the established order;
the other, a child abandoned by her mother and
suckled by wolves, who knows nothing of the
precarious relationship between Church and State but
whose innocence will become the subject of a
dangerous experiment. But the arrival of the
Inquisition on the island creates a darker, more
threatening force which will transform what has been
a philosophical game of chess into a matter of life and
death...

Stone himself serves as guide to this no-holds-barred retrospective—an extremely candid and comprehensive monograph of the renowned and controversial writer, director, and cinematic historian in interview form. Over the course of five years, Academy Award-winning filmmaker Oliver Stone (*Midnight Express*, *Scarface*, *Platoon*, *JFK*, *Natural Born Killers*, *Snowden*) and New York Times bestselling author Matt Zoller Seitz (*The Wes Anderson Collection*) discussed, debated, and deconstructed the arc of Stone's outspoken, controversial life and career with extraordinary candor. This book collects those conversations for the first time, including anecdotes about Stone's childhood, Vietnam, his struggles with post-traumatic stress disorder, and his continual struggle to reinvent himself as an artist. Their dialogue is illustrated by

hundreds of never-before-seen photographs and documents from Stone's personal archive, dating back to Stone's birth: personal snapshots, private correspondence, annotated script pages and storyboards, behind-the-scenes photography, and production files from all of his films to date—through 2016's *Snowden*, and including Stone's epic Showtime mini-series *Untold History of the United States*. Critical commentary from Seitz on each of Stone's films is joined by original essays from filmmaker Ramin Bahrani; writer, editor, and educator Kiese Laymon; writer and actor Jim Beaver; and film critics Walter Chaw, Michael Guarnieri, Kim Morgan, and Alissa Wilkinson. At once a complex analysis of a master director's vision and a painfully honest critical biography in widescreen technicolor, *The Oliver Stone Experience* is as daring, intense, and provocative as Stone's films—it's an Oliver Stone movie about Oliver Stone, in the form of a book. Both this book and Stone's highly anticipated film, *Snowden*, will be released in September 2016 to coincide with Stone's seventieth birthday (September 15, 1946). Also available from Matt Zoller Seitz: *Mad Men Carousel*, *The Wes Anderson Collection: Bad Dads*, *The Wes Anderson Collection: The Grand Budapest Hotel*, and *The Wes Anderson Collection*.

"The first book of real magnitude to come out of the last war." —John Dos Passos
John Horne Burns brought *The Gallery* back from World War II, and on publication in 1947 it became a critically-

acclaimed bestseller. However, Burns's early death at the age of 36 led to the subsequent neglect of this searching book, which captures the shock the war dealt to the preconceptions and ideals of the victorious Americans. Set in occupied Naples in 1944, *The Gallery* takes its name from the Galleria Umberto, a bombed-out arcade where everybody in town comes together in pursuit of food, drink, sex, money, and oblivion. A daring and enduring novel—one of the first to look directly at gay life in the military—*The Gallery* poignantly conveys the mixed feelings of the men and women who fought the war that made America a superpower.

Augustus Mandrell: No birth certificate ... no passport ... no identification ... no fixed address ... in fact, he is not officially alive. Which is fortunate, because neither does he have a license to kill. But he does, and supremely well. Not to mention often. Who is Mandrell? British C.I.D. American OSS, the Surete, Interpol and many other agencies would dearly want to know. But they never will. Why? Because Mandrell is a man unlike any other - a throwback, an individualist, a smooth killer who admires beauty in all things (girls, jewels, money ... rugs) yet whose final objective is the ultimate in violence; a man to whom impossible challenge is meat and drink, the thrill of a manhunt is his life's blood, the final savagery merely a necessary part of the murderous courtship that leads up to it. Mandrell kills for profit. You'll love him for it.

When *The Urban Frontier* was first published it roused attention because it held that settlers made a concerted effort to bring established institutions and ways to their new country. This

differed markedly from the then-dominant Turnerian hypothesis that a culture's identity and behavior was determined by its history and experience in a particular social and physical environment. *The Urban Frontier* is still considered one of the most important books in urban history. This printing of the now-classic Wade volume features a new introduction by Zane L. Miller.

In *OUT OF WEDLOCK*, Jess Freeman, a facial plastic surgeon who refashions the identities of others, knows little of his own identity. Who are his biological parents and could they be the source of his sudden trances, when he drifts off into visionary worlds, by turns radiant and nightmarish? Reality checks-quick bops on the head-are administered by his nurse during delicate surgeries. But fumbling Jess pulls off a superb makeover of a severely injured patient, with a stunning sequel. Set in Greenwich Village and Santa Fe from 1989 to 2008, Jess's romantic misadventures echo perils of the heart endured in the days of Edna St. Vincent

Millay and D. H. Lawrence, the sexual revolution of the sixties and seventies, and today's hookup culture. But Jess and his close companions more than endure; whatever their fates, they are sustained by a group loyalty anchored in pluck, buoyancy, and affection. This is a novel of charmed human acts—from feasting and parading to sailing and dancing to yearning and loving to seeking roots and chasing jackrabbits. All these are brought within a brisk narrative of startling recognitions that prove transformative for Jess Freeman and his intimates. "I read *Out of Wedlock* at one go, sitting down in the morning to give it a try and not getting up until early evening, when, with a deep sigh of satisfaction, I read the final line. With a plot as screwy as its characters, it charges ahead with manic energy. With all the fun you're having, you may not be prepared for how deeply *Out of Wedlock* will end up moving you. Lockridge is our Voltaire and *Out of Wedlock* is his *Candide*." The Great Cyprus Think Tank is narrated by Bart Beasley, a dejected Canadian author of cultural memoirs who yearns to return to Cyprus, where he spent his youth and where he might shake off his ennui. He forms a think tank of renowned but flawed experts to tackle crises still besetting the fabled island in 2024. The birthplace of Aphrodite is parched, its famed sea turtles face extinction, its songbirds are

swallowed whole by native epicures, and Greek Cypriots and Turkish Cypriots, if no longer dispatching one another, rarely send over a bottle of wine. A string of felicitous adventures and seeming successes follows, while romantic liaisons spring up within the think tank's ranks. Where else but in Cyprus could the Fellows hope to unearth Pygmalion's ancient showgirl sculpture of Aphrodite in time for Kataklysmós, an annual celebration of Noah's flood when Cypriots take to the sea and flirtatiously splash one another? Unknown to all but alert readers is a counterplot to waylay the think tank's best designs.

Here, at last back in print, is the classic dual biography of Ross Lockridge and Thomas Heggen, two authors who achieved sudden fame and fortune and then self-destructed. Ross Lockridge, the author of the spectacularly best-selling *Raintree County*, and Thomas Heggen, the creator of *Mister Roberts*, both were thrust in the 1940s into unexpected fame and money. Each was young and inexperienced in the ways of the world. John Leggett explores their lives, their loves, their friendships, and their writing and publishing experiences to discover what ultimately and tragically failed them. Ross and Tom portrays two gifted writers and their final descent into that Fitzgeraldian crack-up where "in the real dark night of the soul it is always three o'clock in the morning."

This omnibus collects Monte Schulz's Jazz Age Trilogy of historical fiction novels, which follows various family members on the eve of the Great

Depression to the circus, through bank robberies, underneath front porches and big city skyscrapers, and much more. Crossing Eden is the story of an American family in the summer of 1929, when a failed businessman divides himself from his wife and children, and a troubled farm boy runs away from home in the company of a gangster. It's also the tale of a nation in the last months of the Roaring Twenties, a glittering decade of exuberance and doubt, optimism and fear. Set equally among the states along the Middle Border, in a small East Texas town, and in a great gleaming metropolis, Crossing Eden chronicles the Pendergast family of Farrington, Illinois, cast apart by circumstance into the early 20th century landscape of big business, tent shows, speakeasies, séances, bank robberies, lynchings, murder, romance, circuses, and skyscrapers. It's a grand tapestry of the American experience in an age of transition from rural to urban, with our nation perched on the precipice of the Great Depression.

#1 New York Times Bestseller Oprah's Book Club Selection The "extraordinary . . . monumental masterpiece" (Booklist) that changed the course of Ken Follett's already phenomenal career—and begins where its prequel, *The Evening and the Morning*, ended. "Follett risks all and comes out a clear winner," extolled Publishers Weekly on the release of *The Pillars of the Earth*. A departure for the bestselling thriller writer, the historical epic stunned readers and critics alike with its

ambitious scope and gripping humanity. Today, it stands as a testament to Follett's unassailable command of the written word and to his universal appeal. *The Pillars of the Earth* tells the story of Philip, prior of Kingsbridge, a devout and resourceful monk driven to build the greatest Gothic cathedral the world has known . . . of Tom, the mason who becomes his architect—a man divided in his soul . . . of the beautiful, elusive Lady Aliena, haunted by a secret shame . . . and of a struggle between good and evil that will turn church against state and brother against brother. A spellbinding epic tale of ambition, anarchy, and absolute power set against the sprawling medieval canvas of twelfth-century England, this is Ken Follett's historical masterpiece.

Mister Roberts Rowman & Littlefield
WHY did my brilliant father Ross Lockridge, Jr. execute himself at 33, while his first novel *RAINTREE COUNTY* held the Number-One ranking in the United States and was being praised by readers and critics alike as *The Great American Novel*? Even as he was killing himself he was experiencing success beyond the greatest of great expectations, dying in full knowledge that his life, viewed from the street, had exceeded all but the most extravagant of human dreams. My book offers the Skeleton Key that unlocks the Riddle of Raintree County. I do this less from choice than an obligation to history and to truth. Squeamishness and mendacity, blood-brothers, go hand in hand. *Miss Manners* plays no part in this tragedy. Truth is not subject to etiquette or taste, and it is precisely because the truth about my father's brief, terrible life and his forlorn death is unspeakable that the truth demands to be told. *SKELETON KEY* is grounded in my own personal relationship with my father and other family members, especially his parents (my grandfather and grandmother), who had a lethal impact upon

his life, then attempted a similar impact upon mine. My book is concretely and personally grounded, too, in the culture of the time--in particular, the Kinsey Institute, and Hollywood (e.g., Elizabeth Taylor, Montgomery Clift, Eva Marie Saint, Edward Dmytryk and others connected with making of the motion-picture version of RAINTREE COUNTY). I experienced the filming of the movie. I attended its premiere. Wardell Baxter Pomeroy, Kinsey's colorful right-hand man, was our neighbor. As a child playing with the Pomeroy children I learned "peculiarities" of cultural significance, that shed light on my father's place in History. Embedded in my narrative is the covert culture of pervasive pedophilia and childhood sexual abuse, cocooned by institutional protection and denial, and permitted to persist, and to wreak unacknowledged havoc in the lives of innocents. A published novelist, I bring to my memoir a novelist's powers of observation, and a novelist's vision of the intricate, poisonous web of cause-and-effect that ultimately trapped my father and devoured him. Replete with hitherto unpublished photographs, and documents such as my father's medical records from his brief stint in a psychiatric ward shortly before his suicide, SKELETON KEY marries the Memoir with the Graphic Novel.

FULL COLOR EDITION--UPDATED
DECEMBER 30, 2018 : WHY did my father, Ross Lockridge, Jr., execute himself, while his first novel was the nation's number one bestseller? Raintree County was also a Book-of-the-Month Club Main Selection. It had won the highly publicized MGM novel prize. A lengthy excerpt appeared in LIFE MAGAZINE--America's premier organ of popular culture--which had hitherto not published fiction. Raintree County was an informal contender for being the mythical Great American Novel. He went to his death in full knowledge that his life, viewed from the street, exceeded all but the most extravagant of human dreams. This story is grounded personally, and in the culture of the time--e.g., the Kinsey Institute, and the Hollywood of

Elizabeth Taylor, Montgomery Clift, Eva Marie Saint. Wardell Pomeroy, Alfred C. Kinsey's colorful wing man, was our Bloomington, Indiana neighbor, and as a child horsing around with the Pomeroy kids I became privy to "peculiarities" that shed light on my father's place in history, and the covert culture of pervasive pedophilia, incest, and childhood sexual abuse, cocooned by institutional protection and denial, and permitted to persist, and to wreak unacknowledged havoc in the lives of innocents to this day.

Collection consists primarily of correspondence from author Ross Franklin Lockridge, Jr., 1914-1948, to various individuals. The Lilly Library acquired these letters to complement the manuscript files for Lockridge's book, Raintree County. Many of the letters discuss the success of Raintree County as well as Lockridge's untimely death. Lockridge was born on April 25, 1914 in Bloomington, Indiana. The family moved to Fort Wayne for several years, but later returned to Bloomington. Lockridge attended Indiana University in Bloomington, where he was known for his impressive academic record. In 1937, he married Vernice Baker and together the couple had four children, Ernest, Jeanne, Ross, and Lawrence. Lockridge died on March 6, 1948 in Bloomington, Indiana,

several weeks after the publication of Raintree County. The novel was his only book. Published in 1948, Raintree County is considered by some to be the "Great American Novel." The story follows the character John Shawnessey during the course of a single day, July 4, 1892, and features flashbacks to the time period after the Civil War. It is set in the fictional Raintree County, which is in part based on Henry County, Indiana, where Lockridge spent his childhood summers at his grandmother's home.
