Babies are so easy to love. It feels so natural to love a newborn child unconditionally. The love just naturally flows out of us. Nobody has to teach us. Nobody has to ask us. Nobody has to convince us. It just happens. How wonderful it would be if we could always love, cherish, and appreciate our children as gorgeous, loving, angels. How great it would be to carry our love with us and maintain it powerfully forever. We can do that. We simply need to be nudged to remember. We just need to be reminded what we hold dear and precious. We only need to take time out for a few moments and bask in the memory (and the present moment reality) of what is so amazingly and divinely wonderful about our gifts from the divine. This book is one of those reminders. Read this to your children so they (and you)

Rainbow is the I am an optometrist. I
unforgettable story owned a very traditional
of her wonderful medical, white coat practice
family as they in Pittsburgh, Pennsylvania

near the University of Pittsburgh for 10 years. I became bored and uninspired in this vanilla business environment and sterile space. Feeling restless, I sold my practice and began the search for a new place to start a fresh concept in optometry. I found Frederick, Maryland, which is a historic, walkable little city that tops the triangle with DC and Baltimore. I relocated to a new town, in a new state with a brand new practice - Unique Optique. I was an outsider and a transplant, trying to win Frederick's trust and convince the residents of this town to come to my practice to spend money on high-end glasses. To accomplish this feat, I decided that I needed to show our authenticity, exude genuine sincerity, and

smile through adversity. I embraced my flaws; I was vulnerable and real. I used social media, in-house events and the decor of the office to display the business's personality. People instantly related to the practice. They saw that I was not perfect, but I was earnest and that I truly cared. I was proud of my venture. Unique Optique's reviews were stellar and real. The practice grew steadily and by the end of the first year, I was recognized as the Start Up Entrepreneur of Frederick County. Soon, I had requests from business owners and entrepreneurs to come and visit the practice and discuss our unique image strategies. People wanted this quality for their own businesses. I realized that I had helpful and valuable information and put

my techniques down on paper. While developing my brand and marketing my business, I have made mistakes, learned from them, and attempted to fix them. I have worked through adversity and difficulties. In the end, I cultivated a brand to which people could relate. This is my experience. I hope it helps you find your Unique Technique."

If you're looking for a laugh-out-loud, feel-good book that will engage you from start to end, look no further than here. Author Sue Stearns's debut work is a fast and funny read that is sure to put a cheek-to-cheek grin on your face and reawaken your inner child. Crazy Tuesdays is a highly entertaining collection of short stories, anecdotes, and insights plucked from Stearns's personal life experiences as a mother of two rebellious toddlers, Minka and Cooper. The stories focus on her kids and explain what a typical Tuesday is like in their home, although what's typical for them is not typical for most. Tuesday is the day of the week when the entire Stearns family gets together, lets loose, and does the messiest, wildest activity or craft they can think of. From taking mud baths outside to flailing paint on household walls covered with sheet metal, the Stearns family has had some

Reuben's Adventures on Uncle Ram's Farm Black, Brown and Beige Publishing A groundbreaking guide to caring for children who live outside binary gender boxes We are only beginning to understand gender. Is it inborn or learned? Can it be chosen—or even changed? Does it have to be one or the other? These questions may seem abstract—but for parents whose children live outside of gender “norms,” they are very real. No two children who bend the “rules” of gender do so in quite the same way.

Felicia threw away her frilly dresses at age three. Sam hid his interest in dolls and “girl things” until high school—when he finally confided his desire to become Sammi. And seven-year-old Maggie, who sports a boys’ basketball uniform and a long blond braid, identifies as “a boy in the front, and a girl in the back.” But all gender-nonconforming children have one thing in common—they need support to thrive in a society that still subscribes to a binary system of gender. Dr. Diane Ehrensaft has worked with children like Felicia, Sam, and Maggie for over 30 years. In *Gender Born, Gender Made*, she

offers parents, clinicians, and educators guidance on both the philosophical dilemmas and the practical, daily concerns of working with children who don't fit a "typical" gender mold. She debunks outmoded approaches to gender nonconformity that may actually do children harm. And she offers a new framework for helping each child become his or her own unique, most gender-authentic person. And I Thought... professional gamblers in Las Vegas? ... How to spend a summer house sitting one of the biggest stars in the world's 11,000 square-foot mansion - without an invitation from it's celebrity owner ... Whether the life of crime - specifically, running a shoplifting ring in a middle American mall - pays? ... What causes a son to finally say enough is enough ... and decide "Today is the day I am going to kill my dad." Comedian Brandt Tobler has the answers in this funny, touching and sometimes downright unbelievable memoir of a small town Wyoming-kid turned "mall-fia" don, turned nationally touring

comic. Brand tells his life story with candor, detailing the many pit stops, wrong turns, crazy connections and lucky breaks he experienced along the way to his comedy career, all while trying to balance a toxic relationship with his unreliable jailbird dad. In these pages Brandt will make you laugh (he better - it's his job!) and believe as he does that, when it comes to defining family, blood isn't always thicker than water. -- back cover.

Based on the Gospel of Matthew, this book is the first of five in the series. The only reason Luke is even at the church youth overnight event is because his mother convinced him to go after an argument. His mother wants him to be baptized but, at 15, Luke doesn't believe he is old enough and doesn't know Jesus

well enough. That changes when Luke meets an angel who says he has been chosen by God to deliver a message.

First Luke must decide if what he saw and heard is real and then he must decide if he will go. Luke sets out on what he is sure is a crazy adventure with his friend Keith.

Starting on bicycles they end up crossing half the United States on a mission for God. Along the way, they learn much more about loving Jesus while facing bullies, drugs and even seeing death - and Luke delivers God's message. He delivers it to a senior pastor of a large church and the pastor doesn't

even know he needs the message.

Two years before adopting seven-year-old Keydell from a group home for young boys, Kim made a vow before the Dalai Lama to become a bodhisattva: one who cultivates an enlightened mind, is free from delusion, and

practices kindness and compassion above all else. However, she struggles with this practice as her new son's challenged mind sends him into fits of rage and violence, while seemingly allowing him to feel no remorse for his actions. His behaviors go against everything Kim believes in, but she is determined to keep her chocolate-eyed boy safely in the home she has created with her husband and two biological children. As she tries everything she can to get Keydell the help he needs, she must also learn to accept him exactly as he is: a tiger in the home of elephants. This vulnerable and touching account highlights the interplay between desire and reality, denial and acceptance, struggle and enlightenment. As the minds of this mother and her extraordinary son awaken - Kim's through her Buddhist practice, and Keydell's through the science of neurofeedback - we witness the power of love and compassion to overcome even the greatest odds."

From a leading journalist and activist comes a brave, beautifully wrought memoir. When Darnell Moore was fourteen, three boys from his neighborhood tried to set him on fire. They cornered him while

he was walking home from school, harassed him because they thought he was gay, and poured a jug of gasoline on him. He escaped, but just barely. It wasn't the last time he would face death. Three decades later, Moore is an award-winning writer, a leading Black Lives Matter activist, and an advocate for justice and liberation. In *No Ashes in the Fire*, he shares the journey taken by that scared, bullied teenager who not only survived, but found his calling. Moore's transcendence over the myriad forces of repression that faced him is a testament to the grace and care of the people who loved him, and to his hometown, Camden, NJ, scarred and ignored but brimming with life. Moore reminds

us that liberation is possible if we commit ourselves to fighting for it, and if we dream and create futures where those who survive on society's edges can thrive. *No Ashes in the Fire* is a story of beauty and hope-and an honest reckoning with family, with place, and with what it means to be free.
