Norma Damnation

Books

The hair-raising mash-up of feminist X-Men, gothic fairy tale, family saga and biting social criticism that is taking Europe by

storm. When Anita Naakka jumps in front of an oncoming train, her daughter, Norma, is left alone with the secret they have spent their lives hiding: Norma has

supernatural hair, sensitive to the slightest changes in her mood--and the moods of those around her--moving of its own accord, corkscrewing when danger is near. And so it is her hair that alerts her, while she talks with a strange man at her mother's funeral, that her mother may not have taken her own life. Setting out to reconstruct Anita's final months--sifting through puzzling cell phone records, bank statements, video files--Norma begins to realise that her mother knew more about her hair's powers than she let on: a sinister truth beyond Norma's imagining.

The short stories in this first collection by critically acclaimed writer Daryl Gregory run the gamut from science fiction to contemporary fantasy, with a few stories that defy easy classification. His characters may be neuroscientists, superhero sidekicks, middle-aged heroes of children's stories, or fantatics spreading a

virus-borne religion, but they are all convincingly human. - Includes two never-before published short stories - Introduction by Nancy Kress

and family love. In 1968, after the first zombie outbreak, Wanda Mayhall and her three young daughters discover the body of a teenage mother during a snowstorm. Wrapped in the woman's arms is a baby, stone-cold, not breathing, and without a pulse. But then his eyes open and look up

at Wanda—and he begins to move. The family hides the child—whom they name Stony—rather than turn him over to authorities that would destroy him. Against all scientific reason, the undead boy begins to grow. For years his adoptive mother and sisters manage to keep his existence a secret—until one

terrifying night when Stony is forced to run and he learns that he is not the only living dead boy left in the world. My Life as a White Trash Zombie Penguin From Daryl Gregory, whose Pandemonium was one of the most exciting debut novels in memory, comes an astonishing work of soaring imaginative power that breaks new ground in contemporary fantasy.

Society is rocked by a sudden

increase in the number of violent assaults on individuals. Christened 'Haters' by the media, the attackers strike without warning, killing all who cross their path. The assaults are brutal, remorseless and extreme: within seconds, normally rational, self-controlled people become frenzied, vicious killers. There are no apparent links as a hundred random attacks become a thousand, then hundreds of thousands.

Everyone, irrespective of gender, age, race or any other difference, has the potential to become a victim - or a Hater. People are afraid to go to work, afraid to leave their homes and, increasingly, afraid that at any moment their friends, even their closest family, could turn on them with ultra-violent intent. Waking up each morning, no matter how well defended, everyone must now consider the fact that by the end of the day, they
