Raising Venture Capital
Guide ...**

Venture capital (VC) is the process of raising money from individuals and firms that invest in high growth, high risk companies. To

compensate for higher risk, venture capital investors (VCs) expect a large return on their investment, higher than say a bank would expect.

Secure the Bag: The New Rules of Raising Venture Capital

Both venture capital (VC) investors and traditional investors take on risk and expect a good ROI, but where they differ is in their strategy and structure. Let's put it this way: VCs feel your pain to some extent.

That's because they have to raise funds in order to invest. [Raising Venture Capital: The Pros and Cons | Growthink](#)

Startups often approach raising venture capital (VC) prematurely by attempting to talk to investors about their idea. They think they have the next billion-dollar startup idea, but they have nothing to show for it because it's just an idea. There are so many startups that try to get funding
