With today's world torn by violence and conflict, Richard B. Miller's study of the ethics of war could not be more timely. Miller brings together the opposed traditions of pacifism and just-war theory and puts them into a much-needed dialogue on the ethics of war.

Beginning with the duty of nonviolence as a point of convergence between the two rival

traditions, Miller provides an opportunity for pacifists and just-war theorists to refine their views in a dialectical exchange over a set of ethical and social questions. From the interface of these two long-standing and seemingly incompatible traditions emerges a surprisingly fruitful discussion over a common set of values, problems, and interests: the presumption against harm, the relation of justice and order, the ethics of civil disobedience, the problem of self-righteousness in moral discourse about war, the ethics of nuclear deterrence, and the need for practical reasoning about the morality of war. Miller pays critical attention to thinkers such as Augustine and Thomas Aquinas, as well as to modern thinkers like H. Richard Niebuhr, Paul Ramsey, Martin Luther King, Jr., James Douglass, the Berrigans, William O'Brien, Michael Walzer, and James Childress. He demonstrates how pacifism and just-war tenets can be joined around both theoretical and practical issues. Interpretations of Conflict is a work of massive scholarship and careful reasoning that should interest philosophers, theologians, and religious ethicists alike. It enhances our moral literacy about injury, suffering, and killing, and offers a compelling dialectical approach to ethics in a pluralistic society. Richard B. Miller is assistant professor of religious studies at Indiana University.

are grouped in the index to make for easy reference and further study.

Surviving Chemistry Regents Exam: One Topic Review at a Time Createspace Independent Publishing Platform

"This timely book reveals how the increase in traffic of transpacific plants, insects, and peoples raised fears of a "biological yellow peril" beginning in the late nineteenth century, when mass quantities of nursery stock and other agricultural products were shipped from large, corporate nurseries in Japan to meet the growing demand for exotics in the United States. Jeannie Shinozuka marshals extensive research to explain how the categories of "native" and "invasive" defined groups as bio-invasions that must be regulated-or somehow annihilated-during a period of American empire-building. Shinozuka shows how the modern fixation on foreign species provided a linguistic and conceptual arsenal for anti-immigration movements that gained ground in the early twentieth century. Xenophobia fed concerns about biodiversity, and in turn facilitated the implementation of plant quarantine measures while also valuing, and devaluing, certain species over others. The emergence and rise of economic entomology and plant pathology alongside public health and anti-immigration movements was not merely coincidental. Ultimately, what this book unearths is that the inhumane and unjust incarceration of Japanese Americans during World War II cannot, and should not, be disentangled from this longer history"--

REA's CSET: English Subtests I-IV with Online Tests Gets You Certified and in the Classroom! California requires all prospective English teachers to take the CSET: English Test. Recently, the CSET: English subtests were revised to align more closely with the California Common Core State Standards. The subtests also include new material in the areas of writing across the curriculum, reading and analyzing a variety of informational texts, and analyzing the details of dramatic works and performance. This third edition of our CSET (California Subject Examinations for Teachers) English Subtests I-IV test prep has been expanded to address these changes. It includes: \* A complete overview of the four CSET: English subtests \* A

comprehensive review of every domain, with updated material \* Two full-length practice tests for each subtest (in the book and online), with online diagnostic tools to help you personalize your study Our book is perfect for teacher education students and career-changing professionals who are looking to teach English in California. The skills required for all four subtests fulfill the objectives set by the California Common Core State Standards for English Language Arts and Literacy and the California Commission on Teacher Credentialing. This all-new test prep contains an in-depth review of all the competencies tested on the CSET English Subtests I-IV: Literature and Reading Informational Texts; Composition and Rhetoric; Language, Linguistics, and Literacy; Communication, Speech, Media and Creative Performance. The book includes 2 full-length practice exams based on actual CSET questions. Both practice tests are also available online with instant scoring, diagnostic feedback, and detailed answer explanations. Automatic scoring and instant reports help you zero in on the topics and types of questions that give you trouble now, so you will succeed when it counts. REA's CSET: English Subtests I-IV test prep is a must-have for anyone who wants to teach English in California!

Life and Health Insurance License Exam

Cram University of Chicago Press

Did you know Vincent van Gogh sold only

one painting during his lifetime and that during the last three months of his life he completed an average of one painting every day? Did you know that Michelangelo's David is covered in a dusting of human skin? Did you know Caravaggio murdered several people while he was painting some of the most glorious paintings of biblical scenes the world has ever known? Rembrandt's *The Wind* by Russ Ramsey is an invitation to discover some of the world's most celebrated artists and works, while presenting the gospel of Christ in a way that speaks to the struggles and longings common to the human experience. The book is part art history, part biblical study, part philosophy, and part analysis of the human experience; but it's all story. The lives of the artists in this book illustrate the struggle of living in this world and point to the beauty of the redemption available to us in Christ. Each story is different. Some conclude with resounding triumph while others end in struggle. But all of them raise important questions about humanity's hunger and capacity for glory, and all of them teach us to love and see beauty.

Praise for the First Edition "Anyone

interested in getting an introduction to

Ramsey theory will find this illuminating..."

--MAA Reviews Covering all the major

concepts, proofs, and theorems, the Second

Edition of Ramsey Theory is the ultimate

guide to understanding every aspect of

Shelah's proof, as well as the original proof

of van der Waerden. The book offers a

historical perspective of Ramsey's

fundamental paper from 1930 and Erdős'

and Szekeres' article from 1935, while

---

placing the various theorems in the context of T. S. Motzkin's thought on the subject of "Complete Disorder is Impossible." Ramsey Theory, Second Edition includes new and exciting coverage of Graph Ramsey Theory and Euclidean Ramsey Theory and also relates Ramsey Theory to other areas in discrete mathematics. In addition, the book features the unprovability results of Paris and Harrington and the methods from topological dynamics pioneered by Furstenberg. Featuring worked proofs and outside applications, Ramsey Theory, Second Edition addresses: \* Ramsey and density theorems on both broad and meticulous scales \* Extensions and implications of van der Waerden's Theorem, the Hales-Jewett Theorem, Roth's Theorem, Rado's Theorem, Szemerédi's Theorem, and the Shelah Proof \* Regular homogeneous and nonhomogeneous systems and equations \* Special cases and broader interdisciplinary applications of Ramsey Theory principles An invaluable reference for professional mathematicians working in discrete mathematics, combinatorics, and algorithms, Ramsey Theory, Second Edition is the definitive work on the subject.
