‘ The Wisdom Pot ’ was inspired by posts on a seniors ’ platform that were meant to help members, their families and friends prepare and navigate through different stages in life. While compiling tributes to a fallen colleague, the author soon realized that the platform had so many informative, educative and entertaining words of wisdom for different ages. He collected those he felt could be shared with the wider society because of their relevance and usefulness. As the world wrestled with the COVID 19 pandemic, tips on protective measures such as sanitizing, washing hands and wearing masks featured regularly on the platform. So were tips on general health, especially for the elder citizens. The elders got to learn that proper networking, like checking on each other daily, can be lifesaving. The elders exchanged notes on the

When the Range Rover Sport was launched in 2005, it was aimed at a new group of customers who in many cases would never have considered a Land Rover product before. These customers wanted and could afford a luxurious vehicle that was expensive to run; but they also wanted a very personalized vehicle that did not have the rather grand and conservative connotations of the full-size Range Rover. Brasher and more glamorous than its older sibling, the Sport was soon adopted by celebrities and others who expected to be noticed. Range Rover Sport - The Complete Story is the first book devoted specifically to the first-generation Range Rover Sport. It tells the story behind the development and launch of the vehicle; it explains the market reaction, including contemporary press reviews; provides details of each model with technical specification tables and colour and trip options; lists production figures and VIN identification and dating; details prices and sales figures for the UK, USA and Canada and finally, includes a useful chapter on buying and owning.
