Once the British Army embraced it as their vehicle of choice, the Land Rover's place in motoring's Hall of Fame was secured. Since those days, the company has gone on to invent the concept of the luxury 4x4 with the launch of the Range Rover in 1970, and has added further to the distinguished stable with the Discovery and the Freelander. The Land Rover has truly conquered the globe - find out how inside...

When the Range Rover Sport was launched in 2005, it was aimed at a new group of customers who in many cases would never have considered a Land Rover product before. These customers wanted and could afford a luxurious vehicle that was expensive to run; but they also wanted a very personalized vehicle that did not have the rather grand and conservative connotations of the full-size Range Rover. Brasher and more glamorous than its older sibling, the Sport was soon adopted by celebrities and others who expected to be noticed. Range Rover Sport - The Complete Story is the first book devoted specifically to the first-generation Range Rover Sport. It tells the story behind the development and launch of the vehicle; it explains the market reaction, including contemporary press reviews; provides details of each model with technical specification tables and colour and trip options; lists production figures and VIN identification and dating; details prices and sales figures for the UK, USA and Canada and finally, includes a useful chapter on buying and owning.

Building Brand Experiences Brooklands Book Limited

'The Wisdom Pot' was inspired by posts on a seniors' platform that were meant to help members, their families and friends prepare and navigate through different stages in life. While compiling tributes to a fallen colleague, the author soon realized that the platform had so many informative, educative and entertaining words of wisdom for different ages. He collected those he felt could be shared with the wider society because of their relevance and usefulness. As the world wrestled with the COVID 19 pandemic, tips on protective measures such as sanitizing, washing hands and wearing masks featured regularly on the platform. So were tips on general health, especially for the elder citizens. The elders got to learn that proper networking, like checking on each other daily, can be lifesaving. The elders exchanged notes on the mid-career, getting married, bringing up children and finding real happiness. What many are ignorant about are the changes that come about in our families, jobs and ages. Did you know that many married women, when they reach 40-50 years and have children, become rebellious to their husbands?
