Haynes Manuals N. America, Incorporated  
An all-new Star Trek technical manual of the legendary Klingon Bird of Prey, presented in the world-renowned Haynes Manual format! The Bird-of-Prey is the classic Klingon starship—a tough raiding and scouting vessel that has served at the heart of the Klingon Defense Force for more than a hundred years. Life on board is harsh and brutal, with any sign of weakness leading to a challenge to the death. The ship itself is stripped back and

lean, with everything designed for a single purpose—war. This Haynes Manual traces the origins of a Bird-of-Prey from the moment it is commissioned by one of the Great Houses and constructed at the shipyards of the Klingon Naval Academy. It then proceeds to examine General Martok 's famous ship the I.K.S. Rotarran in unprecedented detail. Featuring a stunning cutaway drawing and, for the first time ever, detailed deck plans and incredible new computer-generated artwork, the Haynes

Bird-of-Prey Manual is a technical tour of the ship's systems, from the bridge and engineering rooms to the disruptors, torpedo launcher, and the all-important cloaking device. In addition, the Manual provides a unique insight into life on board a Klingon ship and the Rotarran's glorious history in the Dominion War. This Haynes Manual is fully authorized by CBS. All the new artwork has been designed by STAR TREK: THE NEXT GENERATION and STAR TREK:

VOYAGER's senior illustrator Rick Sternbach, who is the world's leading expert on STAR TREK technology, with CG renders produced by STAR TREK VFX artist Adam 'Mojo' Lebowitz. Haynes Publications Written by bestselling author Boris Starling, The British is one of the new titles for 2017 in the Haynes Explains series. The McLaren MP4/4 is  
the iconic Honda V6  
turbo-powered F1 car  
built by McLaren for  
the 1988 grand prix  
season, driven by  
Ayrton Senna and  
Alain Prost.  
Remarkably, the car  
won all but one race  
during 1988, and took  
McLaren's then-new  
recruit Senna to his  
first Drivers' World

Championship after a  
season-long battle  
with team-mate Prost.  
McLaren achieved an  
astonishing 10  
one-two finishes with  
the car, and suffered  
only two car-related  
retirements during  
the season. The MP4/4  
is still  
statistically the  
most dominant F1 car  
ever built.  
Ironically, the fact  
that McLaren was  
already an enormously  
successful and well-  
resourced team prior

to 1988 has led to  
the assumption that  
producing another  
winning car in the  
form of the MP4/4 was  
simply business as  
usual. The truth is  
rather different,  
with many challenges  
along the way,  
mistakes to resolve  
and, as ever in motor  
racing, an element of  
luck, all playing a  
part in the MP4/4's  
extraordinary  
success. A wealth of

material, including original technical drawings and team documentation, provides fascinating new insight into the design and build of the MP4/4. Produced with the full cooperation of McLaren, and unique access to a race-winning MP4/4 chassis, this manual tells for the first time the accurate story of the design, engineering and operation of one of

F1's most iconic cars, featuring extensive and often candid input from the designers, engineers and drivers involved. The McLaren story: Brief history of McLaren prior to the MP4/4 and subsequent history to the present day. Design and build of the MP4/4: The full story of how a completely new car, along with a one-off Honda engine, were designed and built for the 1988

season. The MP4/4 in action: A race-by-race account of the MP4/4's performance in the 1988 World Championship. The anatomy of the MP4/4: Chassis, aerodynamics, suspension, steering, brakes, Honda engine, transmission, wheels and tyres, cockpit and electrics. The drivers: Insight from Alain Prost and test-driver Emanuele Pirro, plus a profile of Ayrton Senna with
