Cat dissection lab answers Anatomy students learn by studying different

samples. Freshman start on frog, advanced students can experience rats, rabbits or bulls. Anatomy students may have access to cat specimens and in college you may experience studying anatomy using human corpses. Overall, the experience can be rewarding.

1. Observe the interior of the rat for any veins and arteries. Veins carry used blood (blue) back to the heart and lungs. Arteries carry oxygenated blood to the muscles and organs that need it. The arteries in your rat should be stained red for easy identification. Use Figures 3 and 4 to help you locate the major veins and arteries.
