The publication of Robinson Crusoe in London
in 1719 marked the arrival of a revolutionary
art form: the novel. British writers were
prominent in shaping the new type of
storytelling - one which reflected the
experiences of ordinary people, with characters
in whom readers could find not only an escape,
but a deeper understanding of their own lives.
But the novel was more than just a reflection
of British life. As Sebastian Faulks explains in
this engaging literary and social history, it also
helped invent the British. By focusing not on
writers but on the people they gave us, Faulks
not only celebrates the recently neglected act
of novelistic creation but shows how the most
enduring fictional characters over the centuries
have helped map the British psyche - through
heroes from Tom Jones to Sherlock Holmes,
lovers from Mr Darcy to Lady Chatterley,
villains from Fagin to Barbara Covett and
snobs from Emma Woodhouse to James Bond.
Also included in this fantastic ebook package
are four free classic novels: Robinson Crusoe
by Daniel Defoe: The legendary story of a
marine adventurer shipwrecked on a desert
island. Pride and Prejudice by Jane Austen:
Accomplished Elizabeth Bennett must
navigate a web of familial obligations and
social expectations in this witty drama of
friendship, rivalry, enmity and love. Great
Expectations by Charles Dickens: Pip's life as
an ordinary country boy is destined to be
unexceptional until a chain of mysterious
events lead him away from his humble origins
and up the social ladder. The Woman in White
by Wilkie Collins: Marian and her sister Laura
live a quiet life under their uncle's
guardianship until Laura marries Sir Percival
Glyde, a man of many secrets. Can she be
protected from a mysterious and potentially
fatal plot?

Zadie Smith, one of the most beloved
authors of her generation, a new
collection of essays Since she burst
spectacularly into view with her debut
novel almost two decades ago, Zadie
Smith has established herself not just
as one of the world's preeminent
fiction writers, but also a brilliant and
singular essayist. She contributes
regularly to The New Yorker and the
New York Review of Books on a range
of subjects, and each piece of hers is
a literary event in its own right.
Arranged into five sections--In the
World, In the Audience, In the Gallery,
On the Bookshelf, and Feel Free--this
new collection poses questions we
immediately recognize. What is The
Social Network--and Facebook
itself--really about? "It's a cruel
portrait of us: 500 million sentient
people entrapped in the recent
careless thoughts of a Harvard
sophomore." Why do we love
libraries? "Well-run libraries are filled

with people because what a good library offers cannot be easily found elsewhere: an indoor public space in which you do not have to buy anything in order to stay." What will we tell our granddaughters about our collective failure to address global warming? "So I might say to her, look: the thing you have to appreciate is that we'd just been through a century of relativism and deconstruction, in which we were informed that most of our fondest-held principles were either uncertain or simple wishful thinking, and in many areas of our lives we had already been asked to accept that nothing is essential and everything changes--and this had taken the fight out of us somewhat." Gathering in one place for the first time previously unpublished work, as well as already classic essays, such as, "Joy," and, "Find Your Beach," Feel Free offers a survey of important recent events in culture and politics, as well as Smith's own life. Equally at home in the world of good books and bad politics, Brooklyn-born rappers and the work of Swiss novelists, she is by turns wry, heartfelt, indignant, and incisive--and never any less than perfect company. This is literary journalism at its zenith. Zadie Smith's new book, Grand Union, is on sale 10/8/2019.

Universities tend to be judged by the test scores of their incoming students and not on what students actually learn once they attend these institutions. While shared tests and surveys have been developed, most schools refuse to publish the results. Instead, they allow such publications as U.S. News & World Report to define educational quality. In order to raise their status in these rankings, institutions pour money into new facilities and extracurricular activities while underfunding their educational programs. In Why Public Higher Education Should Be Free, Robert Samuels argues that many institutions of higher education squander funds and mislead the public about such things as average class size, faculty-to-student ratios, number of faculty with PhDs, and other indicators of educational quality. Parents and students seem to have little knowledge of how colleges and

universities have been restructured over the past thirty years. Samuels shows how research universities have begun to function as giant investment banks or hedge funds that spend money on athletics and administration while increasing tuition costs and actually lowering the quality of undergraduate education. In order to fight higher costs and lower quality, Samuels suggests, universities must reallocate these misused funds and concentrate on their core mission of instruction and related research. Throughout the book, Samuels argues that the future of our economy and democracy rests on our ability to train students to be thoughtful participants in the production and analysis of knowledge. If leading universities serve only to grant credentials and prestige, our society will suffer irrevocable harm. Presenting the problem of how universities make and spend money, Samuels provides solutions to make these important institutions less expensive and more vital. By using current resources in a more effective manner, we could even, he contends, make all public higher education free.

"It is a measure of Professor Samuelson's preeminence that the sheer scale of his work should be so much taken for granted," observes a reviewer in the Economist who goes on to note that "a cynic might add that it would have been better for Professor Samuelson to write less merely to give others a chance to write at all." In fact, Samuelson's output, his "extraordinary mastery of methods, both mathematical and linguistic" (review of Volume 4 of The Collected Scientific Papers), have not diminished. Volume 5 collects 108 articles written since 1976, bringing the total to nearly 400 important contributions to economics. As in earlier volumes, the papers are arranged by subject. They cover Economic Theory: Marx, Keynes, and Schumpeter; International Economics; Stochastic Theory; Classical Economics; Mathematical Biology; Biographical and Autobiographical Writings; and Current Economics and Policy. Volumes 1 through 4 encompass more than 280 articles. The first two contain virtually all of Samuelson's contributions to economic theory through mid-1964; Volume 3 contains all the scientific papers written from mid-1964 through 1970, and the last volume brings his work up to through

1976. Paul Samuelson received the Nobel Prize in Economics in 1970 and is Institute Professor of Economics Emeritus at MIT. Kate Crowley edited volume 4 of The Collected Scientific Papers with Hiroaki Nagatani.

How does good writing stand out? If its purpose is to convey facts, findings, or instructions, it need be read only once for its content to be clear. If its purpose is to entertain or to provoke thought, it makes readers want to come back for more. Revised and updated, this guide covers four essential aspects of good writing: • Individual words - spelling variations, hyphenation, frequently confused homonyms, frequently misused words and phrases, irregular plurals and negatives, and uses of capitalization and type style to add special meanings • Punctuation - the role of each mark in achieving clarity and affecting tone, and demonstration of how misuses can lead to ambiguity • Syntax and structure - agreement of subject and verb, parallel construction, modifiers, tenses, pronouns, active versus passive voice, and more • Style - advice on the less hard-and-fast areas of clarity and tone, including sentence length and order, conciseness, simplification, reading level, jargon and cliché's, and subtlety Filled with self-test exercises and whimsical literary quotations, Grammatically Correct steers clear of academic stuffiness, focusing instead on practical strategies and intuitive explanations. Discussions are designed to get to the heart of a concept and provide a sufficient sense of when and how to use it, along with examples that show what ambiguities or misinterpretations might result if the rules are not followed. In cases where there is more than one acceptable way to do something, the approach is not to prescribe one over another but simply to describe the options. Readers of this book will never break the rules of language again - unintentionally. Autobiographical accounts by Nobel laureates reflect the richness and diversity of contemporary economic thought and offer insights into the creative process; with six new laureates. Lives of the Laureates offers readers an informal history of modern economic thought as told through autobiographical essays by thirty-two Nobel Prize laureates in economics. The essays not only provide unique insights into major economic ideas of our time but also shed light on the processes of intellectual discovery and creativity. The accounts are accessible and engaging, achieving clarity without sacrificing inherently difficult content. This seventh edition adds six Nobelists to its pages: Roger B. Myerson (co-recipient in 2007) describes his evolution as a game theorist and his application of game theory to issues that ranged from electoral systems to perverse incentives; Thomas J. Sargent (co-recipient in 2011), recounts the development of the rational expectations model, which fundamentally changed the policy implications for macroeconomic models; Amartya Sen (recipient in 1998) reflects on his use of a bicycle (later donated to the Nobel Museum) to collect data early in his career; A. Michael Spence (co-recipient in 2001) describes, among other things, his whiplash-inducing first foray into teaching an undergraduate class; Christopher A. Sims (co-recipient in 2011) discusses his “non-Nobel research; and Alvin E. Roth (co-recipient in 2012) chronicles the “three insurrections” he has witnessed in mainstream economics. Lives of the Laureates grows out of a continuing lecture series at Trinity University in San

Antonio, which invites Nobelists from American universities to describe their evolution as economists in personal as well as technical terms. The Laureates W. Arthur Lewis, Lawrence R. Klein, Kenneth J. Arrow, Paul A. Samuelson, Milton Friedman, George J. Stigler, James Tobin, Franco Modigliani, James M. Buchanan, Robert M. Solow, William F. Sharpe, Ronald H. Coase, Douglass C. A new collection of the seminal writings and speeches of a legendary writer, orator, and civil rights leader. This compact volume offers a full course on the remarkable, diverse career of

Frederick Douglass, letting us hear once more a necessary historical figure whose guiding voice is needed now as urgently as ever. Edited by renowned scholar Henry Louis Gates, Jr., and Pulitzer Prize-nominated historian John Stauffer, *The Portable Frederick Douglass* includes the full range of Douglass's works: the complete *Narrative of the Life of Frederick Douglass*, as well as extracts from *My Bondage and My Freedom* and *Life and Times of Frederick Douglass*; *The Heroic Slave*, one of the first works of African American fiction; the brilliant speeches that launched his political career and that constitute the greatest oratory of the Civil War era; and his journalism, which ranges from cultural and political critique (including his early support for women's equality) to law, history, philosophy, literature, art, and international affairs, including a never-before-published essay on Haitian revolutionary Toussaint L' Ouverture. *The Portable Frederick Douglass* is the latest addition in a series of African American classics curated by Henry Louis Gates, Jr. First published in 2008, the series reflects a selection of great works of fiction, nonfiction, and poetry by African and African American authors introduced and annotated by leading scholars and acclaimed writers in new or updated editions for Penguin Classics. In his series essay, “What Is an African American Classic?” Gates provides a broader view of the canon of classics of African American literature available from Penguin Classics and beyond. Gates writes, “These texts reveal the human universal through the African American particular: all true art, all classics do this; this is what ‘art’ is, a revelation of that which makes each of us sublimely human, rendered in the minute details of the actions and thoughts and feelings of a compelling character embedded in a time and place.” For more than seventy years, Penguin has been the leading publisher of classic literature in the English-speaking world. With more than 1,700 titles, Penguin Classics represents a global bookshelf of the best works throughout history and across genres and disciplines. Readers trust the series to provide authoritative texts enhanced by introductions and notes by distinguished scholars and contemporary authors, as well as up-to-date translations by award-winning translators.
