**A Random Walk Down Wall Street:  
The Time-Tested Strategy for  
Successful Investing (Ninth  
Edition)** Miz Kit Productions

A University of Washington professor of wildlife science taps the findings of his extraordinary research into crow intelligence to offer insight into their ability to make tools and respond to environmental challenges, explaining how they engage in human-like behaviors from giving gifts and seeking revenge to playing and experiencing dreams.

**Murder of Ravens HarperCollins UK**  
When her father goes missing, stolen from

the timeline, shaman Joanne Walker must finally return to North Carolina to find him - and finally face the son she left behind long ago. Original.

Skinwalker Wynter Lynn Publishing

"Sleep is one of the most important but least understood aspects of our life, wellness, and longevity ... An explosion of scientific discoveries in the last twenty years has shed new light on this fundamental aspect of our lives. Now ... neuroscientist and sleep expert Matthew Walker gives us a new understanding of the vital importance of sleep and dreaming"--Amazon.com.

Dark Heir Del Rey

The first behind-the-scenes account of life with the legendary ravens at the world's eeriest monument The ravens at the Tower of London are of mighty importance: rumor has it that if a

---

raven from the Tower should ever leave, the city will fall. The title of *Ravenmaster*, therefore, is a serious title indeed, and after decades of serving the Queen, Yeoman Warder Christopher Skaife took on the added responsibility of caring for the infamous ravens. In *The Ravenmaster*, he lets us in on his life as he feeds his birds raw meat and biscuits soaked in blood, buys their food at Smithfield Market, and ensures that these unusual, misunderstood, and utterly brilliant corvids are healthy, happy, and ready to captivate the four million tourists who flock to the Tower every year. A rewarding, intimate, and inspiring partnership has developed between the ravens and their charismatic and charming human, the Ravenmaster, who shares the folklore, history, and superstitions surrounding the ravens and the Tower. Shining a light on the behavior of the birds, their pecking order and social structure, and the tricks they play on us, Skaife

shows who the Tower's true guardians really are—and the result is a compelling and irreverent narrative that will surprise and enchant.

Del Rey

Raymond Carver's third collection of stories, a finalist for the Pulitzer Prize, including the canonical titular story about blindness and learning to enter the very different world of another. These twelve stories mark a turning point in Carver's work and "overflow with the danger, excitement, mystery and possibility of life. . . . Carver is a writer of astonishing compassion and honesty. . . . his eye set only on describing and revealing the world as he sees it. His eye is so clear, it almost breaks your heart" (Jonathan Yardley, *Washington Post Book World*).

*Raven Calls* Harlequin

***Coyote Dreams*** John Wiley & Sons

First published in 1829, Walker's Appeal called on

---

slaves to rise up and free themselves. The two subsequent versions of his document (including the reprinted 1830 edition published shortly before Walker's death) were increasingly radical. Addressed to the whole world but directed primarily to people of color around the world, the 87-page pamphlet by a free black man born in North Carolina and living in Boston advocates immediate emancipation and slave rebellion. Walker asks the slaves among his readers whether they wouldn't prefer to "be killed than to be a slave to a tyrant." He advises them not to "trifle" if they do rise up, but rather to kill those who would continue to enslave them and their wives and children. Copies of the pamphlet were smuggled by ship in 1830 from Boston to Wilmington, North Carolina, Walker's childhood home, causing panic among whites. In 1830, members of North Carolina's General Assembly had the Appeal in mind as they tightened the state's laws dealing with slaves and free black citizens. The resulting stricter laws led to more

policies that repressed African Americans, freed and slave alike. A DOCSOUTH BOOK. This collaboration between UNC Press and the University of North Carolina at Chapel Hill Library brings classic works back into print. DocSouth Books editions are selected from the digital library of Documenting the American South and are unaltered from the original publication. The DocSouth series uses digital technology to offer e-books and print-on-demand publications, providing affordable and accessible editions to a new generation of scholars, students, and general readers.

\* Shortlisted for the RSL Christopher Bland Prize \*  
Honest, intelligent and unsentimental, Patient 1 is a startling self-portrait written with wit and vulnerability, and a unique testament to the power of hope in the face of illness. Charlotte Raven had never heard of Huntington's Disease when, in her mid-thirties, she discovered that her father was

---

suffering from the illness. Life for her and her young family would never be the same again. Patient 1 is her brutally candid account of coming to terms with this inherited neurodegenerative disease, which can manifest at any time in life for people who carry the faulty gene. As the illness began to take hold of Raven's body, mind and memory, she began to write. She wrote like her life depended on it - and in many ways she believed it did. Frank and fearless, Patient 1 is an act of self-preservation and a kind of reckoning: with the illness, with the person she once was, with the person she is now. In an afterword, Raven's doctor Ed Wild - one of the country's leading experts in Huntington's - explains how doctors and patients like Charlotte are working together in the hope of one day eliminating this disease altogether.

### **Shaman Rises** Simon and Schuster

Fiercely intelligent, beautiful, and ready to claim her birthright, she navigates a

dangerous world torn between war and witchpower. Seduction and stealth are Belinda Primrose's skills—weapons befitting the queen's bastard daughter, a pawn of espionage conceived by Lorraine, ruler of Aulun, and her lover and spymaster, Belinda's father. Now an accomplished assassin, Belinda uncovers the true game her father never intended her to play. For Belinda has found her witchpower, a legacy born from something not of this earth. In a treacherous world where religion and rebellion rule, Lorraine is now in a position to sweep over the countries of Echon and to back her chosen successor to the throne: Belinda. But Belinda is no longer anyone's pawn. Lured by the sensual dark magic of Dmitri, envoy to a neighboring throne, yet

---

still drawn to the witchlord embrace of her former lover, Javier, Belinda knows that she has entered a realm where power and control go to those who can master and manipulate their fiercest desires. For the witchpower depends on the skill its wielder holds. From the Trade Paperback edition.

Many executives overlook the single-most critical aspect of leadership. Have you?The most important driver of overall success is your own self-leadership. Without it, your career may stall. Why? Because how you lead yourself directly impacts your ability to lead others, and that, in turn, can prevent you from reaching your full career potential.Self-leadership. It begins and ends with YOU(tm).In *Leading YOU(tm): The power of self-leadership to build your executive brand and drive career success*, Senior Executive Coach Brenda

Bence reveals the 15 most damaging self-leadership behaviors she regularly sees in her practice. She then provides you with dozens of tips and techniques you can immediately apply to correct or improve these behaviors.Packed with real-life executive coaching case studies from around the globe, this book will help you:\* Strengthen your Executive Presence and build an outstanding leadership brand.\* Quit acting like a victim of your calendar, your time, and "the system." \* Utilize powerful mind management techniques to stop limiting behaviors.\* Learn how to successfully manage "up" to bosses and "across" to peers.\* Promote yourself without bragging, to help you gain visibility and the job you want.\* Successfully influence others even if you don't have an official title or authority.Leadng YOU(tm) not only cuts to the core of what's needed for effective self-leadership, but it's also the only book to identify and explain the relationship between self-leadership and a winning leadership brand--the Trademarked

---

YOU(tm)®. Together with the award-winning companion book, Would YOU Want to Work for YOU(tm)?, this book will become your go-to resource for advancing in your career through the power of authentic self-leadership."Brenda Bence makes it clear: Great leadership is all about self-leadership and learning how to manage YOU as well as you manage others. A great read!" - Philip Yuen, CEO, Deloitte Southeast Asia"You may excel at managing others, but unless you look inward to manage yourself first, your career is likely to stagnate rather than ignite. Leading YOU(tm) is a must read." - Peter Walker, CEO Asia Pacific, ThyssenKrupp Elevator

**Leading YOU** W. W. Norton & Company

What The Raven Conspiracy is: A novel showcasing the unconventional characters that are drawn to living in a small beach town on the periphery of the USA. A story that includes many mysteries and a few

crimes woven around a casual fun setting. What The Raven Conspiracy is not: A hard boiled dark crime novel. Although the story and characters are completely plausible; the treatment is lighthearted. Aficionados of serious sinister depravity could be disappointed. Why the characters may seem real: The people detailed are derived in part from individuals I have met. Five decades of university teaching and international business can expose you to a lot of the uniqueness in humanity. How was the time period chosen: A story about people and a location on the fringe needs a time that is equal to the task. The first week of March 2020 was a moment on the brink of awareness. I realized this when I ask the manager of a very successful restaurant on

---

A1A what he thought about the virus being reported in the news. His response, "I haven't heard of it, but it will not affect us. We keep a very clean kitchen." My objective: For readers to be entertained and smile. If they laugh, bonus. If they figure out all mysteries early, I am surprised. If they get all cultural references, time to get on Jeopardy. My philosophy: Books, like life, should be fun.

*Demon Hunts* Random House

#1 NEW YORK TIMES BESTSELLER •

“The Uninhabitable Earth hits you like a comet, with an overflow of insanely lyrical prose about our pending

Armageddon.”—Andrew Solomon, author of *The Noonday Demon* With a new afterword  
It is worse, much worse, than you think. If

your anxiety about global warming is dominated by fears of sea-level rise, you are barely scratching the surface of what terrors are possible—food shortages, refugee emergencies, climate wars and economic devastation. An “epoch-defining book” (*The Guardian*) and “this generation’s *Silent Spring*” (*The Washington Post*), *The Uninhabitable Earth* is both a travelogue of the near future and a meditation on how that future will look to those living through it—the ways that warming promises to transform global politics, the meaning of technology and nature in the modern world, the sustainability of capitalism and the trajectory of human progress. *The Uninhabitable Earth* is also an impassioned call to action. For just as the world was

---

brought to the brink of catastrophe within the span of a lifetime, the responsibility to avoid it now belongs to a single generation—today’s. Praise for *The Uninhabitable Earth* “The *Uninhabitable Earth* is the most terrifying book I have ever read. Its subject is climate change, and its method is scientific, but its mode is Old Testament. The book is a meticulously documented, white-knuckled tour through the cascading catastrophes that will soon engulf our warming planet.”—Farhad Manjoo, *The New York Times* “Riveting. . . . Some readers will find Mr. Wallace-Wells’s outline of possible futures alarmist. He is indeed alarmed. You should be, too.”—*The Economist* “Potent and evocative. . . . Wallace-Wells has resolved to offer something other than the standard narrative of climate change. . . . He avoids the ‘eerily banal language of climatology’ in favor of lush, rolling prose.”—Jennifer Szalai, *The New York Times* “The book has potential to be this generation’s *Silent Spring*.”—*The Washington Post* “The *Uninhabitable Earth*, which has become a best seller, taps into the underlying emotion of the day: fear. . . . I encourage people to read this book.”—Alan Weisman, *The New York Review of Books* *Urban Shaman* Farrar, Straus and Giroux  
Something wicked this way comes... Suddenly, being bitten by a werewolf is the least of Joanne Walker's problems. Her personal life in turmoil, her job as a cop over, she's been called to Ireland by the magic within her. And though Joanne's skills have grown by leaps and bounds, Ireland's magic is old and very powerful.... In fact, this is a case of

---

unfinished business. Because the woman Joanne has come to Ireland to rescue is the woman who sacrificed everything for Joanne—the woman who died a year ago. Now, through a slip in time, she's in thrall to a dark power and Joanne must battle darkness, time and the gods themselves to save her.

*Cathedral* Simon and Schuster

This is a print on demand edition of a hard to find publication. Explores whether sufficient data exists to examine the temporal and spatial relationships that existed in terrorist group planning, and if so, could patterns of preparatory conduct be identified? About one-half of the terrorists resided, planned, and prepared for terrorism relatively close to their eventual target. The terrorist groups existed for 1,205 days from the first planning meeting to the date of the actual/planned terrorist incident. The planning process for specific acts began 2-3 months prior to the terrorist incident. This

study examined selected terrorist groups/incidents in the U.S. from 1980-2002. It provides for the potential to identify patterns of conduct that might lead to intervention prior to the commission of the actual terrorist incidents. Illustrations.

---

Raven Leilani's first novel reads like summer: sentences like ice that crackle or melt into a languorous drip; plot suddenly, wildly flying forward like a bike down a hill." —Jazmine Hughes, *The New York Times Book Review*

No one wants what no one wants. And how do we even know what we want? How do we know we're ready to take it? Edie is stumbling her way through her twenties—sharing a subpar apartment in Bushwick, clocking in and out of her admin job, making a series of inappropriate sexual choices. She is also haltingly, fitfully giving heat and air to the art that simmers inside her. And then she meets Eric, a digital archivist with a family in New Jersey, including an autopsist wife who has agreed to an open marriage—with rules. As if navigating the constantly shifting landscapes of contemporary sexual manners and racial politics weren't hard enough, Edie finds herself unemployed and invited into Eric's home—though not by Eric. She becomes a hesitant ally to his wife and a de facto role model to his adopted daughter. Edie may be the only Black woman young Akila knows. Irresistibly unruly and strikingly beautiful, razor-sharp and slyly comic, sexually charged and utterly absorbing, Raven Leilani's *Luster* is a portrait of a young woman trying to make sense of her life—her hunger, her anger—in a tumultuous era. It is also a haunting, aching description of how hard it is to believe in your own talent, and the unexpected influences that bring us into ourselves along the way. "An irreverent intergenerational tale of race and class that's blisteringly smart and fan-yourself sexy." —Michelle Hart, *O: The Oprah Magazine*

Elric of Melniboné Harlequin  
An informative, timely, and irreverent guide to

---

financial investment offers a close-up look at the current high-tech boom, explains how to maximize gains and minimize losses, and examines a broad spectrum of financial opportunities, from mutual funds to real estate to gold, especially in light of the dot-com crash.

The Comfort of Things University of Washington Press

Seattle police detective Joanne Walker started the year mostly dead, and she's ending it trying not to be consumed by evil. Literally. She's proven she can handle the gods and the walking dead. But a cannibalistic serial killer? That's more than even she bargained for. What's worse, the brutal demon can only be tracked one way. If Joanne is to stop its campaign of terror, she'll have to hunt it where it lives: the Lower World, a shamanistic plane of magic and spirits. Trouble is, Joanne's skills are no

match for the dangers she's about to face—and her on-the-job training could prove fatal to the people she's sworn to protect....

### **Turn the Horns On Penguin**

Now a 6-part mini-series called *Why the Rest of Us Die* airing on VICE TV! The shocking truth about the government's secret plans to survive a catastrophic attack on US soil—even if the rest of us die—is “a frightening eye-opener” (Kirkus Reviews) that spans the dawn of the nuclear age to today, and “contains everything one could possibly want to know” (The Wall Street Journal). Every day in Washington, DC, the blue-and-gold first Helicopter Squadron, codenamed “MUSSEL,” flies over the Potomac River. As obvious as the Presidential motorcade, most people assume the squadron is a travel perk for VIPs. They're only half right: while the helicopters do provide transport, the unit exists to evacuate high-ranking officials in the event of a terrorist or nuclear attack on the capital. In the event of an attack, select officials would be

---

whisked by helicopters to a ring of secret bunkers around Washington, even as ordinary citizens were left to fend for themselves. “In exploring the incredible lengths (and depths) that successive administrations have gone to in planning for the aftermath of a nuclear assault, Graff deftly weaves a tale of secrecy and paranoia” (The New York Times Book Review) with details “that read like they've been ripped from the pages of a pulp spy novel” (Vice). For more than sixty years, the US government has been developing secret Doomsday strategies to protect itself, and the multibillion-dollar Continuity of Government (COG) program takes numerous forms—from its potential to evacuate the Liberty Bell from Philadelphia to the plans to launch nuclear missiles from a Boeing-747 jet flying high over Nebraska. Garrett M. Graff sheds light on the inner workings of the 650-acre compound, called Raven Rock, just miles from Camp David, as well as dozens of other bunkers the government built for its top leaders during the Cold War, from the White House lawn to Cheyenne Mountain in Colorado to Palm Beach, Florida, and the secret plans that would have kicked in after a Cold War nuclear attack to round up foreigners and dissidents and nationalize industries. Equal parts a presidential, military, and cultural history, Raven Rock tracks the evolution of the government plan and the threats of global war from the dawn of the nuclear era through the War on Terror.

### **Raven Calls LUNA**

Joanne Walker has three days to learn to use her shamanic powers and save the world from the unleashed Wild Hunt. No worries. No pressure. Never mind the lack of sleep, the perplexing new talent for healing herself from fatal wounds, or the cryptic, talking coyote who appears in her dreams. And, as if all that's not bad enough, in the three years Joannes been a cop shes never seen a dead body—yet shes just come across her second in three days. Its been a

---

bitch of a week. And it isn't over yet.

**Patient 1** Simon and Schuster

"Turn the Horns On" is the powerful, poignant, and gripping life story of Steven "Akili" Walker, a young African-American drummer, who set out in the 1970's to conquer his dream of becoming a successful recording engineer in an industry dominated by white males. This intimate account of sex, drugs, and redemption takes you on a revealing tour behind the scenes in New York City studios and on the road with some of the most groundbreaking musicians of the last 40 years -including James Brown, George Clinton, Tony Bennett, Run-DMC, Prince, LL Cool J, Lee Morgan, Ahmad Jamal, Luther Vandross, The Young Rascals, Humble Pie, and Russell Simmons

- with special attention paid to the work that established Akili as one of the architects of hip hop.
