For more than 80 years The Shell Channel Pilot has been the ultimate authority on English Channel navigation and pilotage. Following the pioneering work of the legendary Adlard Coles, the book was passed to Captain John Coote RN in 1982. In his comparatively short, ten-year tenure, John Coote expanded the coverage from the English coast to include northern France. He also applied a characteristic humour to the shoreside aspect of the text which has been enthusiastically adopted by Tom Cunliffe, the present and third compiler of this unique work. Upgraded and updated regularly, this is the 8th edition published by Imray under Cunliffe, hand. The Shell, is more than a harbour guide. It also provides a reassuring hand on the shoulder for Channel navigation, with useful passage notes gleaned from the compiler, personal experience of more than 40 years running the tides and finding the eddies. His frank remarks regarding harbour and recreational facilities have long been relied upon by sailors of all generations and nationalities. While leading to some enlightening secrets, they have been known to cause landlords whose establishments fall short of the required standard to lose the will to live. Working with harbourmasters and a dedicated group of carefully selected yachtsmen and women, Cunliffe has kept this pilot as up to date as is humanly possible. More than being technically sound, which is to be expected from a Yachtmaster Examiner, the book is also a thoroughly enjoyable read. 2017 edition.

'Ocean Passages and Landfalls' is a handbook for world cruisers. It provides invaluable passage-planning information for crossing the oceans, with discussions on climates, seasons, oceanography and the merits of different world cruising routes. The heart of the book is an ocean-by-ocean round-up, and at the beginning of each of these sections is a description of routes, followed by information on the countries relevant to these routes. Details of formalities and regulations are then followed by essential information on key harbours and landfalls. This second edition has been thoroughly revised and enlarged and now features new sections on chosen areas and topics - the Atlantic Circuit or Cruising on Ice, for instance. Here the opportunity has been taken to provide more informal commentary and observations based on first-hand experience. These sections are illustrated by the author's colour photographs, many of which have been taken during the production of this new edition and sent in from far-flung parts of the oceans; Rod Heikell in the South Pacific and the Torres Strait, and Andy O'Grady in Brazil and the high latitudes of Chile. As an up-to-date reference for world cruising this new edition of 'Ocean Passages and Landfalls' sets the benchmark as both a practical reference and also as a book for dreamers.

No matter what anyone tells you, boat cooking IS different from cooking ashore. The space is smaller, there's no grocery store 5 minutes away, you have fewer prepared foods and electric appliances, and food storage is much different. Despite cruising different oceans, we—Jan and Carolyn--both faced the same challenges: eating well while having time to enjoy all the other great aspects of cruising. We love to snorkel, swim, kayak, explore—and just sit and admire the view. We learned with the cookbooks we both had aboard, and wished for information that wasn't available--like when Jan ended up with a frozen chicken complete with head and feet and no instructions on how to cut it up. When we couldn't get foods such as sour cream, English muffins, spaghetti sauce or yogurt, we adapted recipes to make our own. Other times, we experimented with substituting ingredients--maybe the result wasn't identical, but it was still tasty. We ended up with over 150 substitutions and dozens of “make it yourself” options. As we traded recipes and knowledge with each other, we realized we were compiling information that became *The Boat Galley Cookbook*: 800+ recipes made from readily-obtainable ingredients with hand utensils, including numerous choices to suit every taste: not just one cake but 20, 16 ways to prepare fish, 10 regional barbeque sauces, and so on. Step-by-step directions to give even “non-cooks” the confidence they can turn out tasty meals without prepared foods. Detailed instructions on unfamiliar things like making yogurt and bread, grilling virtually every food imaginable, preparing and cooking freshly-caught fish and seafood, cutting up and boning meat, cooking in a Thermos and baking on the stove top, as well as lots of tips on how to do things more easily in a tiny, moving kitchen. All this in an easy-to-navigate format including side tabs on the Contents to help you find your way and extensive cross reference lists at the end of each chapter. Quick Reference Lists provide idea starters: suggestions of included recipes for such categories as Mexican, Asian, and Potluck. *The Boat Galley Cookbook* is designed to help you every step of the way. We hope it becomes a trusted reference on your boat, and a source of many enjoyable meals.
