Poetry. Art. This is a collaborative collection of paintings by Marsha Solomon and complementary poetry by Stanley H. Barkan. FROM RHYTHM TO FORM utilize the interplay of jewel-like colors, the variation of opacity from soft washes to thick strokes of impasto and positive and negative spaces to create a dynamic image, born from nature, emotion and creative force. Line, color, and form unite on her canvasses to create an atmospheric, mystical space, infused with energy balanced by serenity. "Artists are our seers. Poets are our truth tellers. When the two reflect on the same themes, new portals of understanding, emotion, and vision open. In this collection of paintings and poetry, artist Marsha Solomon's ethereal, evocative abstractions and Stanley H. Barkan's contemplative, soulful poems present landscapes of the imagination. Marsha Solomon lives and works in New York. Her artwork has been presented in museums and galleries in the US and Europe, and has been the subject of seven solo exhibitions. Critics have described her paintings as reminiscent of Helen Frankenthaler, Henri Matisse, and classical Japanese Sumi-e, and as repositories of the spirit. Stanley H. Barkan is a poet and publisher in New York. His poems have been translated into 28 languages and published in 25 collections. Barkan, a passionate promoter of the written word, has read and organized readings at the United Nations, the Yale Club, and Poets House in New York, and in venues from China to Italy and Bulgaria. In 2016, he was awarded the European Poetry & Art Homer Medal (Poland/China)."Mary Gregory "My series of abstract paintings titled FROM RHYTHM TO FORM began when I started to use thinned acrylic paint as color stains to form a central atmospheric shape. These 'Centers,' existing at first as fields of pure color emerging from an undefined ground, would then be shaped by semi-opaque passages of paint where the texture and dramatic gesture of the surrounding strokes would contrast with the smooth effect of the stain. In relating these circular motifs to the rectangular format, I am involved in how the spatial effect of colors, their placement and sequence, lets the painting breathe and transforms it into an imaginary space where the power of suggestion resides in the expressive capacity of color and form."Marsha Solomon

In the history of mankind, three revolutions which impact the human life are tool-making revolution, agricultural revolution and industrial revolution. They have transformed not only the economy and civilization but the overall development of the human society. Probably, intelligence revolution is the next revolution, which the society will perceive in the next 10 years. ICCD-2014 covers all dimensions of intelligent sciences, i.e. Intelligent Computing, Intelligent Communication and Intelligent Devices. This volume covers contributions from Intelligent Computing, areas such as Intelligent and Distributed Computing, Intelligent Grid & Cloud Computing, Internet of Things, Soft Computing and Engineering Applications, Data Mining and Knowledge discovery, Semantic and Web Technology, and Bio-Informatics. This volume also covers paper from Intelligent Device areas such as Embedded Systems, RFID, VLSI Design & Electronic Devices, Analog and Mixed-Signal IC Design and Testing, Solar Cells and Photonics, Nano Devices and Intelligent Robotics.

What would you do if you discovered your whole life to be a lie? Daniel Henstock thinks he 's an ordinary schoolboy but on his sixteenth birthday his world is turned upside down. He is the world 's first one-hundred percent genetically-engineered human - assigned the codename Tiberius - and Gregory Dryden, the man responsible, wants him back so that he can continue his deadly experiments. Running for his life, Daniel flees to New York and is forced to go ' off-grid '. In this near-future America, where the security-obsessed authorities require citizens to carry DNA cards, Daniel meets the feisty and beautiful Eleanor. But by falling for her, Daniel also puts her in terrible danger. Daniel pursues the facts about his origins but is hunted by an agent sent by Dryden to bring him to heel. Can Daniel find out the truth whilst trying to evade those who think they own him? As his enemies close in Daniel must draw on resources he never knew he had to win his freedom - but in doing so he may be walking into a deadly trap ... TIBERIUS FOUND is the first instalment in a thrilling series - The Emperor Initiative - that introduces an engaging new hero that will appeal to fans of Alex Rider and Jason Bourne.

Return to the most infamous bar in Titan City, where every stinking scoundrel, masked malcontent, and wannabe megalomaniac can find sanctuary from the everyday struggles of supervillainy. This is Friday's Bar but its owner, James Joseph Friday, has gone missing. Now it's up to the bad guys to find him, or else this may be the end of the bar for good. What will become of the city, and what has become of Friday's loyal staff? Come find out and join us, once again, to hear the stories of the bar that caters to every reprehensible rogue and vile villain that the city has to offer. The drink specials are lousy and the patrons are dangerous, but everyone needs a place where they can forget their troubles. This next round is on the house.

Two-Way Radios and Scanners For Dummies John Wiley & Sons

From the introductory remarks. I do not purpose to attempt here any comparisons of the languages shown. I have neither the time nor the ability to do so. Fortunately the language-specimens were obtained before famine came upon us, and now that the printing is completed, I issue them with the briefest possible note. I will only mention one or two salient features in the classification of the non-Aryan tribes of these territories, which the specimens render self-evident. It is very clear that most of the aboriginal tribes of the Central Provinces and several of those of Western Bengal (including in these latter the Dangars, Oraons of Chota Nagpore, Paharies of Rajmehal, and

Khonds of Orissa) are radically allied to the Dravidians. Intermixed with these tribes, but speaking a language quite without affinity to the Dravidian tongues, are the tribes which I call Kolarian, forming a minority among the aborigines of the Central Provinces, but a great majority among those of Western Bengal. Throughout the western borders of Bengal, and all over the Chota Nagpore country, these people are very numerous and prolific, and form large, settled, and civilised communities among the best of her Majesty's Indian subjects. Strange as it may seem, I believe that their very fully developed language has not yet been found to have any affinity with any other groups of language whatever, except with one now rapidly dying-out tongue, far away on the eastern side of the Bay of Bengal, the Mon or Talain of Pegu, with which some affinities are, I think, apparent. The specimens numbered 9 and 10 make it clear that all the non-Aryan languages of the Darjeeling, Bhootan, and Nepalese Hills are of the Thibetan type....

MANCHESTER HOUSE : A TALE OF TWO APPRENTICES Adam J. Brunner

On the court, on the field, or in the gym, female athletes are taking their sports to new heights every day. Girls' SportsZone highlights the stars of each sport and the skills they've mastered on the way. Informative chapters help readers better understand the skills of each sport. Each book also includes tips for improving those skills, making this the perfect series for any athlete looking to elevate their game. Aligned to Common Core Standards and correlated to state standards. SportsZone is an imprint of Abdo Publishing, a division of ABDO.

So grab your coloring tools of choice and come along with these animal adventures. Great for kids. 39 images (79 pages total) Horizontal (landscape) format 11"x8.5"

Guidelines for Design and Construction of Health Care Facilities Street Food Academy

On October 23, 2001, Apple Computer, a company known for its chic, cutting-edge technology -- if not necessarily for its dominant market share -- launched a product with an enticing promise: You can carry an entire music collection in your pocket. It was called the iPod. What happened next exceeded the company's wildest dreams. Over 50 million people have inserted the device's distinctive white buds into their ears, and the iPod has become a global obsession. The Perfect Thing is the definitive account, from design and marketing to startling impact, of Apple's iPod, the signature device of our young century. Besides being one of the most successful consumer products in decades, the iPod has changed our behavior and even our society. It has transformed Apple from a computer company into a consumer electronics giant. It has remolded the music business, altering not only the means of distribution but even the ways in which people enjoy and think about music. Its ubiquity and its universally acknowledged coolness have made it a symbol for the digital age itself, with commentators remarking on "the iPod generation." Now the iPod is beginning to transform the broadcast industry, too, as podcasting becomes a way to access radio and television programming. Meanwhile millions of Podheads obsess about their gizmo, reveling in the personal soundtrack it offers them, basking in the social cachet it lends them, even wondering whether the device itself has its own musical preferences. Steven Levy, the chief technology correspondent for Newsweek magazine and a longtime Apple watcher, is the ideal writer to tell the iPod's tale. He has had access to all the key players in the iPod story, including Steve Jobs, Apple's charismatic cofounder and CEO, whom Levy has known for over twenty years. Detailing for the first time the complete story of the creation of the iPod, Levy explains why Apple succeeded brilliantly with its version of the MP3 player when other companies didn't get it right, and how Jobs was able to convince the bosses at the big record labels to license their music for Apple's groundbreaking iTunes Store. (We even learn why the iPod is white.) Besides his inside view of Apple, Levy draws on his experiences covering Napster and attending Supreme Court arguments on copyright (as well as his own travels on the iPod's click wheel) to address all of the fascinating issues -- technical, legal, social, and musical -- that the iPod raises. Borrowing one of the definitive qualities of the iPod itself, The Perfect Thing shuffles the book format. Each chapter of this book was written to stand on its own, a deeply researched, wittily observed take on a different aspect of the iPod. The sequence of the chapters in the book has been shuffled in different copies, with only the opening and concluding sections excepted. "Shuffle" is a hallmark of the digital age -- and The Perfect Thing, via sharp, insightful reporting, is the perfect guide to the deceptively diminutive gadget embodying our era.
