This is a simple tool to  
measure your reaction  
time. The average  
(median) reaction time is  
215 milliseconds,  
according to the data  
collected so far. In  
addition to measuring  
your reaction time, this  
test is affected by the  
latency of your computer  
and monitor. Using a fast  
computer and low latency  
/ high framerate monitor  
will improve your score.

Reactions are a selection of  
expressions available in New  
Horizons, obtained by  
speaking to residents of the  
player's island. After a few  
days on the island, a resident  
will teach the player 4 initial  
reactions, while the remaining  
40 are taught randomly on  
subsequent days. Only one  
reaction may...
