Nominated for the Women's Prize for Fiction

“ Easily the funniest book I ’ ve read this year. ”

—GQ “ Masterly funny debut novel . . . Erudite but never pretentious, The Idiot will make you crave more books by Batuman. ” —Sloane Crosley, Vanity Fair A portrait of the artist as a young woman. A novel about not just discovering but inventing oneself. The year is 1995, and email is new. Selin, the daughter of Turkish immigrants, arrives for her freshman year at Harvard. She signs up for classes in subjects she has never heard of, befriends her charismatic and worldly Serbian classmate, Svetlana, and, almost by accident, begins corresponding with Ivan, an older mathematics student from Hungary. Selin may have barely spoken to Ivan, but with each email they exchange, the act of writing seems to take on new and increasingly mysterious meanings. At the end of the school year, Ivan goes to Budapest for the summer, and Selin heads to the Hungarian countryside, to

---

teach English in a program run by one of Ivan's friends. On the way, she spends two weeks visiting Paris with Svetlana. Selin's summer in Europe does not resonate with anything she has previously heard about the typical experiences of American college students, or indeed of any other kinds of people. For Selin, this is a journey further inside herself: a coming to grips with the ineffable and exhilarating confusion of first love, and with the growing consciousness that she is doomed to become a writer. With superlative emotional and intellectual sensitivity, mordant wit, and pitch-perfect style, Batuman dramatizes the uncertainty of life on the cusp of adulthood. Her prose is a rare and inimitable combination of tenderness and wisdom; its logic as natural and inscrutable as that of memory itself. The Idiot is a heroic yet self-effacing reckoning with the terror and joy of becoming a person in a world that is as intoxicating as it is disquieting. Batuman's fiction is unguarded against both life's affronts and its beauty--and has at its command the complete range of thinking and feeling which they entail. Named one of the best books of the year by Refinery29 • Mashable One • Elle Magazine • The New York Times • Bookpage • Vogue • NPR • BuzzFeed • The Millions

The Idiot College Reading

Objective Proficiency Second edition provides Official Exam Preparation for Cambridge C2 Proficiency. Everything you need to be confident for exam day. Connection will help you become a more effective reader and writer. You will learn, in a nutshell, that good readers (1) recognize a main point and (2) recognize the support for that point, and that good writers (1) make a point and (2) support the point. University Register University Press of Colorado

The Four Point series is designed for English language learners whose primary goal is to succeed in an academic setting. The series covers the four academic skills of reading, writing, listening, and speaking while providing reinforcement and systematic recycling of key vocabulary and further exposure to grammar issues. In order to participate in academic settings, ELLs need focused activities to develop and then maintain their use of vocabulary and grammar. Each book in the series focuses heavily on vocabulary in particular, highlighting between 125-150 key vocabulary items including individual words, compound words, phrasal verbs, short phrases, idioms, metaphors, collocations, and longer set lexical phrases. Each unit in Reading-Writing 1, includes two reading passages on the same topic within a field of academic study: Psychology, World Civilizations, Astronomy, Literature, Civil Engineering, and Political Science. Each reading is accompanied by a before reading, during reading, and after reading strategy and practice activity. The goal is to provide students with a variety of strategies/tools to master whatever academic texts they may encounter. In addition, exercises have been designed to develop vocabulary, paraphrasing, summarizing, and synthesizing skills. By addressing the breadth and depth of reading and writing tasks required in academic settings instead of only reading for pleasure or writing for research projects, this volume truly prepares students for the variety of reading texts and writing projects they will be assigned in colleges and universities. Interactive

The Writing strand prepares students for academic written work by teaching them the language, content, and rhetoric needed for success in college courses. These texts build student confidence by presenting step-by-step, easy-to-learn processes for effective writing.

Jensen's Format Writing The Saylor Foundation

Academic Writing Skills is a three-volume essay writing course for students that develops students' abilities to compose college-level essays. Academic Writing Skills 1 takes students through a step-by-step process from writing a paragraph to essays. It is appropriate for students new to academic writing who need general training in essay writing skills.

Resources in Education Pearson  
Roy Peter Clark, one of America's most influential writing teachers, offers writing lessons we can draw from 25 great texts. Where do writers learn their best moves? They use a technique that Roy Peter Clark calls X-ray reading, a form of reading that lets you penetrate beyond the surface of a text to see how meaning is actually being made. In *The Art of X-Ray Reading*, Clark invites you to don your X-ray reading glasses and join him on a guided tour through some of the most exquisite and masterful literary works of all time, from *The Great Gatsby* to *Lolita* to *The Bluest Eye*, and many more. Along the way, he shows you how to mine these masterpieces for invaluable writing strategies that you can add to your

arsenal and apply in your own writing. Once you've experienced X-ray reading, your writing will never be the same again.

The Four Point series is designed for English language learners whose primary goal is to succeed in an academic setting. The series covers the four academic skills of reading, writing, listening, and speaking while providing reinforcement and systematic recycling of key vocabulary and further exposure to grammar issues. In order to participate in academic settings, ELLs need focused activities to develop and then maintain their use of vocabulary and grammar. Each book in the series focuses heavily on vocabulary in particular, highlighting between 125-150 key vocabulary items including individual words, compound words, phrasal verbs, short phrases, idioms, metaphors, collocations, and longer set lexical phrases. Each unit in *Reading-Writing 2, Advanced*, includes two reading passages on the same topic within a field of academic study: Language, Sociology, Physiology, Geology, Economics, and Environmental Science. The exercises accompanying the readings are meant to strengthen a range of reading and writing skills like comprehending details, developing vocabulary, paraphrasing, summarizing, and synthesizing information. Students will read longer, more difficult readings on interesting academic topics that represent an array of classroom interests, and they will write both short and long assignments that can be organized around more traditional writing templates. By addressing the breadth and depth of reading and writing tasks required in academic settings instead of only reading for pleasure or writing for research projects, this volume truly prepares ELLs for the type of reading they will find in their course books and for the writing

---

assignments they will receive in class. Interactive vocabulary activities are provided on the book's companion website.

### Academic Writing Skills 1

Teacher's Manual Little, Brown Spark

*Securing a Place for Reading in Composition* addresses the dissonance between the need to prepare students to read, not just write, complex texts and the lack of recent scholarship on reading-writing connections. Author Ellen C. Carillo argues that including attention-to-reading practices is crucial for developing more comprehensive literacy pedagogies. Students who can read actively and reflectively will be able to work successfully with the range of complex texts they will encounter throughout their post-secondary academic careers and beyond. Considering the role of reading within composition from both historical and contemporary perspectives, Carillo makes recommendations for the productive integration of reading instruction into first-year writing courses. She details a “mindful reading” framework wherein instructors help students cultivate a repertoire of approaches upon which they consistently reflect as they apply them to various texts. This metacognitive frame allows students to become knowledgeable and deliberate about how they read and gives them the opportunity to develop the skills useful for moving among reading approaches in

mindful ways, thus preparing them to actively and productively read in courses and contexts outside first-year composition. *Securing a Place for Reading in Composition* also explores how the field of composition might begin to effectively address reading, including conducting research on reading, revising outcome statements, and revisiting the core courses in graduate programs. It will be of great interest to writing program administrators and other compositionists and their graduate students.

Jayber Crow Pearson Longman

Understanding reading abilities and their development is fundamental for language comprehension and human cognition. Now in its second edition, this book draws on research from multiple disciplines to explain reading abilities in both L1 and L2, and shows how this research can be applied in practice in order to support reading development. Research into reading has progressed a great deal since the first edition was published, so this edition has been completely updated and revised, in order to reflect these advances. All chapters present updated research studies, and completely new chapters are included on the neurocognition of reading, reading-writing relationships, and digital reading. If you want to know

---

how reading works, no matter the language(s) involved, as well as how it can be taught effectively, this book provides a persuasive research foundation and many practical insights. It is essential reading for academic researchers and students in Applied Linguistics and TESOL.

From Reading to Writing Cambridge University Press

English for Academic Study: Reading & Writing Source Book This fully updated 2012 edition of the English for Academic Study: Reading & Writing Source Book accompanies the EAS: Reading and EAS: Writing Course Books, which can be studied separately or together in an integrated course. The EAS: Reading & Writing Source Book contains authentic and up-to-date academic texts that will help prepare students for academic life. Each text covers an interesting and topical issue, with the aim of challenging and stimulating the reader. All texts are a suitable length and level for academic study, and are designed for use with the Course Books. They will help to develop both reading and writing skills. This book can be used in conjunction with the following books in the English for Academic Study (EAS) series, also published by Garnet Education: EAS: Reading, EAS: Writing, EAS: Extended Writing & Research Skills, EAS: Speaking, EAS: Listening, EAS: Vocabulary, EAS: Pronunciation and EAS: Grammar for Writing.

### Developing Writing Penguin

A handy compendium of grammar in the same format as the perennial bestseller.

### Reconnecting Reading and Writing Longman

"English is so illogical!" It is generally believed that English is a language of exceptions. For many, learning to spell and read is frustrating. For some, it is impossible... especially for the 29% of Americans who are functionally illiterate. But what if the problem is not the language itself, but the rules we were taught? What if we could see the complexity of English as a powerful tool rather than a hindrance? --Denise Eide

Uncovering the Logic of English challenges the notion that English is illogical by systematically explaining English spelling and answering questions like "Why is there a silent final E in have, large, and house?" and "Why is discussion spelled with -sion rather than -tion?" With easy-to-read examples and anecdotes, this book describes: - the phonograms and spelling rules

which explain 98% of English words - how English words are formed and how this knowledge can revolutionize vocabulary development - how understanding the reasons behind English spelling prevents students from needing to guess The author's inspiring commentary makes a compelling case that understanding the logic of English could transform literacy education and help solve America's literacy crisis. Thorough and filled with the latest linguistic and reading research, Uncovering the Logic of English demonstrates why this systematic approach should be as foundational to our education as  $1 + 1 = 2$ .

### English Writing Composition for the Spanish Speaker Parlor Press LLC

This edition presents all of the surviving manuscripts, together with textual apparatus and commentary. The poem is also presented in parallel with its principal source, Boccaccio's "Filostrato", enabling the reader to compare the two poems in charting the evolution and achievement of Chaucer's "Troilus". This edition has been revised and corrected in order to make the text fully accessible to the reader unfamiliar with Chaucer's work. An introduction discusses the text, metre and sources of "Troilus" and assesses the literary importance of Chaucer's translation method.
