activities to help students understand and change inequalities based on race, gender, class, age, language, sexual orientation, physical/mental ability, and religion. The activities also promote respect for diversity and interpersonal equality among students, fostering a classroom that is participatory, cooperative, and democratic. Learning activities are sequenced to build awareness and understanding. First, students develop skills for building trust, communication, and collaboration. Second, they learn to recognize stereotypes and discrimination and explore their presence in people's lives and in institutions. Finally, students create changes, gaining self-confidence and experiencing

collective responsibility. This book is an essential resource for teachers, leaders in professional development, and curriculum specialists.

In *Artifacts of Loss*, Jane E. Dusselier looks at the lives of these internees through the lens of their art. These camp-made creations included flowers made with tissue paper and shells, wood carvings of pets left behind, furniture made from discarded apple crates, gardens grown next to their housing ù anything to help

alleviate the visual deprivation and isolation caused by their circumstances. Their crafts were also central in sustaining, reforming, and inspiring new relationships. Creating, exhibiting, consuming, living with, and thinking about art became embedded in the everyday patterns of camp life and helped provide internees with sustenance for mental, emotional, and psychic survival.

Grades 6-9 Carter Reads the Newspaper
The New York Times bestselling graphic memoir from actor/author/activist George Takei returns in a

deluxe edition with 16 pages of bonus material! Experience the forces that shaped an American icon -- and America itself -- in this gripping tale of courage, country, loyalty, and love. George Takei has captured hearts and minds worldwide with his magnetic performances, sharp wit, and outspoken commitment to equal rights. But long before he braved new frontiers in STAR TREK, he woke up as a four-year-old boy to find his own birth country at war with his father's -- and their entire family forced from their home

into an uncertain future. In 1942, at the order of President Franklin D. Roosevelt, every person of Japanese descent on the west coast was rounded up and shipped to one of ten "relocation centers," hundreds or thousands of miles from home, where they would be held for years under armed guard. THEY CALLED US ENEMY is Takei's firsthand account of those years behind barbed wire, the terrors and small joys of childhood in the shadow of legalized racism, his mother's hard choices, his father's tested faith in

democracy, and the way those experiences planted the seeds for his astonishing future. What does it mean to be American? Who gets to decide? George Takei joins cowriters Justin Eisinger & Steven Scott and artist Harmony Becker for the journey of a lifetime. Using Real-World Applications With Middle School Students Veritas Press Children are naturally inquisitive and eager to explore and learn about the world around them. It is important for their guardians,

both Parents and Teachers, to satisfy their queries, and that too, in such a way that the children are able to understand and comprehend the concepts as well as learn from them. Also, there exists a gap in the level of information and knowledge provided to the children by the Parents vs. that provided by their Teachers. Discrepancies might also exist in the methodology(ies) through which the information and knowledge is relayed. This increases the possibility that the children might either not

understand the concept clearly or become confused about the correct interpretation of the concepts. With these objectives in mind, and to build connectivity between the teaching methodologies by Parents and Teachers, we at Oswaal Books, have come up with this Manual for Teachers and Parents. Some benefits of using this manual are:

- It aims to aid the Teachers and Parents in simplifying the concepts studied by children as a part of their curriculum
- It equips the parents and teachers to enable the children to understand the subjects, and also evaluate their measure of understanding and creativity.
- It includes Learning and Understanding Aids along with a Lesson Plan for each Chapter
- It demonstrates Effective Teaching Techniques
- It also gives various Propositions for Step-wise Learning and Building up of Concepts

IMPORTANT FEATURES OF THE BOOK: Strictly based on latest NCERT Textbook The manual is based on the latest NCERT Textbook 6 Exploratory Learning objectives These provide explicit instructions to parents and teachers to teach their wards Effective Teaching Techniques The manual has tried and tested teaching techniques for higher success rate
