"Carter G. Woodson didn't just read history. He changed it." As the father of Black History Month, he spent his life introducing others to the history of his people. Carter G. Woodson was born to two formerly enslaved people ten years after the end of the Civil War. Though his father could not read,

he believed in being an informed citizen. So Carter read the newspaper to him every day. When he was still a teenager, Carter went to work in the coal mines. There he met a man named Oliver Jones, and Oliver did something important: he asked Carter not only to read to him and the other miners, but also research and find more information on the subjects that interested them.

“ My interest in penetrating the past of my people was deepened, ” Carter wrote. His journey would take him many more years, traveling around the world and transforming the way people thought about history. From an award-winning team of author Deborah Hopkinson and illustrator Don Tate, this first-ever picture book biography of Carter G. Woodson emphasizes the importance of pursuing curiosity and encouraging a hunger for knowledge of stories and histories that have not been told. Illustrations also feature brief biological sketches of important figures from African and African-American history. **Your Step-By-Step Guide to Success** Corwin Press

The New York Times bestselling graphic memoir from actor/author/activist George Takei returns in a deluxe edition with 16 pages of bonus material! Experience the forces that shaped an American icon -- and America itself -- in this gripping tale of courage, country, loyalty, and love. George Takei has captured hearts and minds worldwide with his magnetic performances, sharp wit, and outspoken commitment to equal rights. But long before he braved new frontiers in STAR TREK, he woke up as a four-year-old boy to find his own birth country at war with his father's -- and their entire family forced from their home into an uncertain future. In 1942, at the

order of President Franklin D. Roosevelt, every person of Japanese descent on the west coast was rounded up and shipped to one of ten "relocation centers," hundreds or thousands of miles from home, where they would be held for years under armed guard. **THEY CALLED US ENEMY** is Takei's firsthand account of those years behind barbed wire, the terrors and small joys of childhood in the shadow of legalized racism, his mother's hard choices, his father's tested faith in democracy, and the way those experiences planted the seeds for his astonishing future. What does it mean to be American? Who gets to decide? George Takei joins cowriters Justin Eisinger & Steven Scott and artist Harmony Becker for the journey of a lifetime.

Learn what it means to be a journalist in this fun, fast-paced new middle grade series about a club of kid reporters by an award-winning author. **Nellie Murrow** -- the daughter of two (former) newspaper reporters -- was named after one of the fiercest journalists who ever lived. When she moves to sleepy

Bear Creek, Maine, rumors of vandalism and attacks at the only park in town are keeping her saddled to the house. Some townspeople say the attacks are gang recruitments. Others blame a vagrant spotted on the hiking trails around town. But when Nellie thinks like a reporter, none of those explanations make sense. Something is happening at the park, but what? All of the fake online news and rumors are clouding the truth. Nellie wants to break the story -- and break free from the front yard -- but she can't do it alone. She needs a whole club if she's going to start the Cub Report, the town's first independent newspaper. Creating a newspaper from scratch is going to be tough; but for Nellie, making friends is even harder. Starred Kirkus Review

Lerner Classroom
An educator's sourcebook of activities to help students understand and change inequalities based on race, gender, class, age, language, sexual orientation, physical/mental ability, and religion. The activities also promote respect for diversity and interpersonal equality among students, fostering a classroom that is participatory, cooperative, and democratic. Learning activities are sequenced to build awareness and understanding. First, students develop skills for building trust, communication, and collaboration. Second, they learn to recognize stereotypes and discrimination and explore their presence in people's lives and in institutions. Finally, students create changes, gaining self-confidence and experiencing collective responsibility. This book is an essential resource for teachers,

leaders in professional development, and curriculum specialists.

This text integrates CD-ROMs, online databases, telecommunications, and information networks (e.g., CompuServe, America Online, 20th Century Video Encyclopedia) into resource-based instruction--cooperatively planned by the teacher-librarian and the classroom teacher--for students working in cooperative learning groups. Step-by-step procedures for planning and implementing technologies into both library and classroom curriculums help educators use technology to teach research skills. With a hands-on approach, this book complements Barron's New Technologies for Education, 3d edition (Libraries Unlimited, 1997) (p. 00), and will serve as a practical planning tool for busy school librarians and media specialists, classroom teachers, computer coordinators, and anyone involved with educational technology. A variety of subjects are covered in the units (e.g., immigration, environment), and projects are flexible enough to allow for the interchange of technologies. Provided for each are an introduction and artifacts.
