Ready for First Certificate MacMillan "This new edition of Ready for FCE has been revised and updated to incorporate all the new features of the Cambridge First Certificate in English. It is a comprehensive, well-rounded course that gives both the teacher and student confidence of exam

success. The course also contains a complete grammar syllabus and reference, as well as regular review sections that incorporate exam-style exercises.

Navigate: C1 Advanced. Teacher's Guide with Teacher's Support and Resource Disc Cambridge University Press In this text, particular focus is given to functional language, with units on areas such as greetings, excuses, directions and

descriptions, agreeing and disagreeing. This gives students a wider view of grammar and vocabulary in context in a variety of immediately useful everyday situations. First Certificate Star [Macmillan ELT English is used in diplomatic contexts worldwide, including in situations where none of the interlocutors are native-speakers. This ground-breaking volume brings together the perspectives of researchers and practitioners to discuss the needs of those using and

learning English for Diplomatic Purposes. Chapter authors use concepts from sociolinguistics, World Englishes, Peace Linguistics and English as a Lingua Franca. Combined with this theoretical background is a pragmatic understanding of the work of diplomacy and the realities of communication, as well as exercises designed to help students, teachers and practicing diplomats reflect on, and develop, their language use. This book represents an important first step in the opening-up of English for Diplomatic

Purposes as a distinct field of study and learning, and as such will be required reading for those working and studying in this area.

Ready for Fce Pearson English Language Teaching Gold Plus is the updated edition of Gold, the trusted exam preparation course for adult and young adult learners. FCE Gold Plus corresponds to level B2 of the Common European Framework.

How students get the materials they need as opportunities for higher

education expand but funding shrinks. From the top down, Shadow Libraries explores the institutions that shape the provision of educational materials, from the formal sector of universities and publishers to the broadly informal ones organized by faculty, copy shops, student unions, and students themselves. It looks at the history of policy battles over access to education in the post – World War II era and at the narrower versions that have played

out in relation to research and textbooks, from library policies to book subsidies to, more recently, the several “open” publication models that have emerged in the higher education sector. From the bottom up, Shadow Libraries explores how, simply, students get the materials they need. It maps the ubiquitous practice of photocopying and what are—in many cases—the more marginal ones of buying books, visiting libraries, and downloading	from unauthorized sources. It looks at the informal networks that emerge in many contexts to share materials, from face-to-face student networks to Facebook groups, and at the processes that lead to the consolidation of some of those efforts into more organized archives that circulate offline and sometimes online—the shadow libraries of the title. If Alexandra Elbakyan's Sci-Hub is the largest of these efforts to date, the more	characteristic part of her story is the prologue: the personal struggle to participate in global scientific and educational communities, and the recourse to a wide array of ad hoc strategies and networks when formal, authorized means are lacking. If Elbakyan's story has struck a chord, it is in part because it brings this contradiction in the academic project into sharp relief—universalist in principle and unequal in practice. Shadow
