Writing First: Practice in Context helps students master basic writing skills by providing them with clear instruction, engaging models, interesting and abundant exercises, and plenty of guidance for self-checking and revising their work. In addition, the unique "practice-in-context" method gets students writing immediately in every chapter and has them consistently applying what they learn to their own writing. The fourth

edition goes further in helping students make important connections – between paragraph and essay writing skills, and between following step-by-step models of writing and composing their own work. Revised in consultation with an ESL specialist, this edition is a strong choice for classrooms with non-native speakers. With additional chapters on study skills and research, Writing First is an invaluable tool for students learning the essential skills of college reading and writing. Writing First: Practice in Context and Foundations First: Sentences and Paragraphs are part of a two-book workbook series from experienced teachers and authors Laurie Kirszner and Stephen Mandell. this skill is achievable. Anker's advice, examples, and assignments show the relevance of writing to all aspects of students' lives, and profiles of former students prove that success is attainable. Like all the books in the Anker series, *Real Essays* presents writing in logical, manageable increments: step-by-step writing guides and a focus on the "four basics" of each mode of writing keep students from becoming overwhelmed. *Real Essays* maintains its emphasis on what really matters by focusing on the four most serious errors (fragments, run-ons, subject-verb agreement problems, and verb form problems). *Real Essays* gives students what they need to succeed in college and become stronger academic writers.
