The quintessential international genre, detective fiction often works under the guise of popular entertainment to expose its extensive readership to complex moral questions and timely ethical dilemmas. The first book-length study of Japan’s detective fiction, Murder Most Modern considers the important role of detective fiction in defining the country’s emergence as a modern nation-state. Kawana explores the interactions between the popular genre and broader discourses of modernity, nation, and ethics that circulated at this pivotal moment in Japanese history. The author contrasts Japanese works by Edogawa Ranpo, Unno Juza, Oguri Mushitaro, and others with English-language works by Edgar Allan Poe,

Dashiell Hammett, and Agatha Christie to show how Japanese writers of detective fiction used the genre to disseminate their ideas on some of the most startling aspects of modern life: the growth of urbanization, the protection and violation of privacy, the criminalization of abnormal sexuality, the dehumanization of scientific research, and the horrors of total war. Kawana’s comparative approach reveals how Japanese authors of the genre emphasized the vital social issues that captured the attention of thrill-seeking readers-while eluding the eyes of government censors. Sari Kawana is assistant professor of Japanese at the University of Massachusetts, Boston.

A New York Times Book Review Notable Book of the Year It was the year after Chappaquiddick, and all spring Carmel McBain had watery dreams about the disaster. Now she, Karina, and Julianne were escaping the dreary English countryside for a London University hall of residence. Interspersing accounts of her current position as a university student with recollections of her childhood and an ever difficult relationship with her longtime schoolmate Karina, Carmel reflects on a generation of girls desiring the power of men, but fearful of abandoning what is expected and proper. When these bright but confused young women land in late 1960s London, they are confronted with a slew of new preoccupations--sex, politics, food, and fertility--and a pointless grotesque tragedy of their own. Hilary Mantel's magnificent novel examines the pressures on women during the early days of contemporary feminism to excel--but not be too successful--in England's complex hierarchy of class and status.
